EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 21-89—Filed June 10, 2021, 4:45 p.m., effective June 10, 2021, 4:45 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to modify salmon and hatchery steelhead seasons and daily limits in the lower Columbia River (from the Megler-Astoria Bridge to the Highway 395 Bridge at Pasco).

Citation of Rules Affected by this Order: Repealing WAC 220-312-06000P; and amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The *U.S. v. Oregon* Technical Advisory Committee recently updated the 2021 Columbia River spring Chinook return to ninety-one thousand eight hundred, which was previously forecasted to be eighty-seven thousand. The upriver Skamania stock steelhead passage at Bonneville Dam is currently the lowest cumulative count to-date. Additional spring Chinook directed angling opportunities are available while providing additional protection for steelhead with a reduced steelhead daily limit. Modifications are in conjunction with the Columbia River Compact hearing held at 1:00 p.m. on June 10, 2021. This action also applies summer fishery regulations developed through the 2021 North of Falcon season setting process. There is insufficient time to promulgate permanent regulations.
