Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: **WAC 220-413-030 Importation and retention of dead nonresident wildlife.** The purpose of this proposal is to add the state of Ohio to the list of states and provinces where it is unlawful to import or possess certain parts of deer, elk, or moose. We also alphabetized the list of states and provinces, so the list is easier to reference. The anticipated effects of the proposal would be limited to hunters that choose to hunt deer in Ohio. This rule requires additional time to process a carcass but given the amount of time needed to travel to and from Ohio, it is likely hunters are already processing their carcass in accordance with this rule, thus anticipated effects are minimal.

**WAC 220-413-180 Special closures and firearm restricted areas.** The purpose of this rule change is to clarify that firearm restrictions for all San Juan County includes game management units (GMUs) 423 (Henry) and 424 (Stuart). There are no anticipated effects associated with this proposal other than providing clarification for hunters.

Reasons Supporting Proposal: **WAC 220-413-030 Importation and retention of dead nonresident wildlife.** Chronic wasting disease (CWD) is a prion disease (pathogenic agents that are transmissible and able to induce abnormal folding of specific normal cellular proteins) that affects cervids (family of hoofed ruminant mammal) and is fatal. There is no treatment or vaccine and the disease presents a substantial risk to Washington's cervid populations. CWD has not been detected in wild or captive cervid populations in Washington. CWD can be spread to new areas when infected animal parts are discarded on the landscape. The intent of this rule is to reduce the risk of hunters transporting deer, elk, or moose parts into Washington that are infected with CWD. The states and provinces identified in this rule have detected CWD in

wild cervid populations. The department became aware that Ohio had detected CWD in wild white-tailed deer populations in February 2021.

**WAC 220-413-180 Special closures and firearm restricted areas.** In April 2021, the fish and wildlife commission adopted a rule that formally identified Henry and Stuart Islands in San Juan County as stand-alone GMUs. The department failed to realize at the time that WAC 220-413-180 also needed to be amended because it clarifies that firearm restrictions for all San Juan County also apply to islands in San Juan County that are stand-alone GMUs. This proposal corrects that omission.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.055, 77.12.047, and 77.12.240.

Statute Being Implemented: RCW 77.04.012, 77.04.055, 77.12.047, and 77.12.240.

Rule is not necessitated by federal law, federal or state court decision.

Name of Proponent: Washington department of fish and wildlife, governmental.

Name of Agency Personnel Responsible for Drafting and Implementation: Eric Gardner, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2515; Enforcement: Steve Bear, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2373.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is not required under RCW 34.05.328. This proposal does not require a cost-benefit analysis under RCW 34.05.328.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(3) as the rules only correct typographical errors, make address or name changes, or clarify language of a rule without changing its effect.

Is exempt under RCW 19.85.025(4).

Explanation of exemptions: The portion of the proposed rule related to GMUs is a correction from a previous rule amendment. The portion related to adding Ohio to the restricted states for importation of wildlife parts does not affect small businesses because this change does not impose additional costs or regulatory requirements for any businesses.
