EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 21-152—Filed August 19, 2021, 7:36 a.m., effective August 19, 2021, 7:36 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Closes commercial spot shrimp pot harvest in Shellfish Management Areas 1, 2E, 2W, 3, and Marine Fish/Shellfish Catch Area 26D effective immediately.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000J and 220-340-03000N; and amending WAC 220-340-520 and 220-340-030.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: (1) Closes Shellfish Management Areas 1, 2E, 2W, 3, and Marine Fish/Shellfish Catch Area 26D to commercial spot harvest effective immediately.

(2) Closes Shrimp Management Area 2E to all commercial shrimp harvest.

(3) Defines the shrimp management areas and regions open to spot and nonspot commercial harvest.

(4) Defines spot pot gear requirements.

(5) Defines nonspot gear requirements.

(6) Implements labeling requirements for groundline pot gear.

(7) Implements restrictions for the concurrent use of spot shrimp and onspot [nonspot] shrimp pot gear.

(8) Implements a fishing declaration requirement for all shrimp pot fisheries in Puget Sound.

(9) Sets harvest restrictions for and opens the nonspot commercial pot fishery.

(10) Sets harvest restrictions for, and opens, the spot commercial pot fishery.

(11) Sets the harvest and gear limitations for, and opens, the Puget Sound shrimp trawl fishery.

(12) Requires purchase of shrimp harvested by the designated fisheries to be done by appropriately licensed dealers.

The emergency regulation closes spot shrimp pot harvest in all areas of Puget Sound while commercial clean-up targets are being determined and coordinated. Sections of this regulation define open areas to allow adequate flexibility for the state commercial shrimp fisheries to respond to dynamic changes in market conditions and to allow for full utilization of both the commercial spot and nonspot shares while also achieving the 50/50 harvest defined by the federal court order. Sections of this regulation add additional reporting requirements to allow managers to track commercial fishing effort.
