EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 21-232—Filed October 15, 2021, 4:35 p.m., effective October 15, 2021, 4:35 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: This rule extends commercial nonspot pot harvest in Marine Fish-Shellfish (MFSF) Management Catch Area 25A.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000P; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Permanent rules regulating State Commercial Shrimp Harvest in Puget Sound and the Strait of Juan de Fuca require adoption of harvest seasons contained in this emergency rule.

The emergency regulation extends the nonspot pot fishery in MFSF Catch Area 25A to allow for continued harvest pursuant to procedures agreed to in annual regional management plans. Sections of this regulation define open areas to allow adequate flexibility for the state commercial shrimp fisheries to respond to dynamic changes in market conditions and to allow for full utilization of both the commercial spot and nonspot shares while also achieving the 50/50 harvest defined by the federal court order. There is insufficient time to adopt permanent rules.
