DEPARTMENT OF
FISH AND WILDLIFE**

[Order 22-02—Filed January 7, 2022, 12:38 p.m., effective January 7, 2022, 12:38 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Close commercial crab harvest in Region 1 on January 9, 2022, at 5:40 p.m. when share attainment is projected. The purpose of this emergency rule is to:

WAC 220-340-42000A:

(1) Requires all crab harvested to be delivered to an original receiver or recorded on a shellfish transportation ticket within 36 hours of harvest. Requires separate transportation tickets to be completed for each day's harvest not delivered to an original receiver that is stored off the fishing vessel. Implements a 10-day restriction on the length of time that crab may be stored off-vessel before being delivered to an original receiver.

(2) Implements a labeling requirement for crab that are stored off-vessel.

(3) Implements a labeling requirement for crab that are stored off-vessel and not delivered to an original receiver within 36 hours.

WAC 220-340-45500G:

(1) Defines subareas east and west of Marine Fish-Shellfish Catch Reporting Area 23C to align with agreed-to boundaries within the Region 3 2021-2022 crab management plan.

(2) Opens Puget Sound commercial crab harvest in Crab Management Regions 3-3 effective immediately. Closes Puget Sound commercial crab harvest in Crab Management Region 1 effective January 9, 2022, at 5:40 p.m. Describes hard closure dates by crab management region. Maintains closure of Crab Management Regions 2 East, 2 West, 3-1, 3-2, and 3-4.

(3) Closes Port Angeles Harbor to commercial crab harvest due to public health decrees.

(4) Repeals areas where recreational and tribal harvest has been allowed that state commercial harvest has been historically limited.

WAC 220-340-47000E:

(1) Allows deployment of up to 35 pots per license for the commercial harvest of Dungeness crab in Crab Management Region 1 effective immediately until January 9, 2022, at 5:40 p.m.

(2) Allows deployment of up to 60 pots per license for the commercial harvest of Dungeness crab in Crab Management Region 3-3.

(3) Requires undeployed buoy tags to be retained for inspection.

WAC 220-352-34000Q:

(3) Implements a Puget Sound sales report requirement for stored crab that have been reported but not landed.

(4) Implements a registration requirement for commercial license holders to notify the department of their fishing status and which crab management area a license [licensee] will be fishing in, if active.

Citation of Rules Affected by this Order: Repealing WAC 220-340-42000V, 220-340-45500E, 220-340-47000C and 220-352-34000N; and amending WAC 220-340-420, 220-340-455, 220-340-470, and 220-352-340.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: There is sufficient allocation in Crab Management Region 1 to allow for commercial harvest until 5:40 p.m., January 9, 2022. There is sufficient allocation available in Crab Management Region 3-3 to accommodate continued commercial harvest.

These provisions are in conformity with agreed regional management plans with applicable tribes or in accordance with procedures proscribed in the shellfish implementation plan when no annual regional management plan agreement has been reached. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable treaty tribes and outlined in the management plans. Further adjustment of season structure may be made pending updated harvest data.

There is insufficient time to adopt permanent rules.
