Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: The operating permit program fees, like the other fee programs of the Puget Sound Clean Air Agency (agency) (Registration, Notice of Construction, and Asbestos), are designed to recover the costs implementing and administering the program. The last significant changes to the operating permit fee schedule in Regulation I, Section 7.07 were made in 2012. The current proposed changes are intended to adjust fees to keep the revenues in balance with the level of effort to complete the compliance work associated with the operating permit program. While the revenue and expenses for the operating permit program have been roughly balanced for most of the past 10 years, the increasing costs to the program and increasing level of effort for some types of work by the agency for certain aspects of the operating permit program need to be addressed through a revised fee schedule to ensure the agency does not regularly reach a deficit condition.

The proposed amendments to the operating permit fee schedule include both cost increases for each regulated category at approximately 25 percent. The consumer price index increase since the last operating permit fee increase is 28 percent.

Additionally, the proposed changes include an update to the North American Industrial Classification System (NAICS) codes referenced in the regulation to reflect the series that the agency currently uses and the elimination of a NAICS code no longer published in the NAICS system manual.

Reasons Supporting Proposal: The long-standing financial policy of the board of directors is that operating permit fees support the costs of the compliance programs. Costs to administer the program have increased in the past 10 years since the last operating permit fee increase.

Statutory Authority for Adoption: Chapter 70A.15 RCW.

Statute Being Implemented: Chapter 70A.15 RCW.

Rule is not necessitated by federal law, federal or state court decision.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(3) as the rules relate only to internal governmental operations that are not subject to violation by a nongovernment party; and rules set or adjust fees under the authority of RCW 19.02.075 or that set or adjust fees or rates pursuant to legislative standards, including fees set or adjusted under the authority of RCW 19.80.045.

Is exempt under RCW 19.85.011.

Explanation of exemptions: Chapter 19.85 RCW does not appear to apply to local air agencies.
