EMERGENCY RULES
DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

(Developmental Disabilities Administration)

[Filed March 23, 2022, 2:22 p.m., effective March 23, 2022, 2:22 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The developmental disabilities administration (DDA) is amending WAC 388-101D-0030 to temporarily allow providers to hire a person without a high school diploma or GED.

Citation of Rules Affected by this Order: Amending WAC 388-101D-0030.

Statutory Authority for Adoption: RCW 71A.12.030, 71A.12.120.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This is the second emergency filing on this rule. This subsequent filing is necessary to keep the emergency rule in effect until DDA completes the permanent rule-making process. The department filed a CR-102 proposal, which is scheduled for public hearing April 26, 2022. DDA is adopting this rule on an emergency basis to help providers of residential habilitation address critical staffing shortages. Immediate adoption will allow providers to hire staff quickly, enabling providers to meet client health and safety needs.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 22-47—Filed March 23, 2022, 3:20 p.m., effective March 24, 2022]

Effective Date of Rule: March 24, 2022.

Purpose: The provisions of this emergency rule:

WAC 220-340-42000F:

(1) Requires all crab harvested to be delivered to an original receiver or recorded on a shellfish transportation ticket within 36 hours of harvest. Requires separate transportation tickets to be completed for each day's harvest not delivered to an original receiver that is stored off the fishing vessel. Implements a 10-day restriction on the length of time that crab may be stored off-vessel before being delivered to an original receiver.

(2) Implements a labeling requirement for crab that are stored off-vessel.

(3) Implements a labeling requirement for crab that are stored off-vessel and not delivered to an original receiver within 36 hours.

WAC 220-340-45500K:

(1) Defines subareas east and west of Marine Fish-Shellfish Catch Reporting Area 23C to align with agreed-to boundaries within the Region 3 2021-22 crab management plan.

(2) Closes Puget Sound commercial crab harvest in Region 3-1, effective March 25, due to projected quota attainment. Opens Region 3-4, effective March 24, due to a quota transfer allowing additional harvest. Maintains closures for Crab Management Regions 1, 2 East, 2 West, and 3-2.

(3) Closes Port Angeles Harbor to commercial crab harvest due to public health decrees.

(4) Repeals areas where recreational and tribal harvest has been allowed that state commercial harvest has been historically limited.

WAC 220-340-47000I:

(1) Allows deployment of up to 25 pots per license for the commercial harvest of Dungeness crab in Crab Management Region 3-1.

(2) Allows deployment of up to 60 pots per license for the commercial harvest of Dungeness crab in Crab Management Region 3-3.

(3) Allows deployment of up to 35 pots per license for the commercial harvest of Dungeness crab in Crab Management Region 3-4. Requires undeployed buoy tags to be retained for inspection.

WAC 220-352-34000U:

(1) Clarifies the Puget Sound commercial dealer quick reporting requirements.

(2) Implements a Puget Sound "stored crab" harvest report requirement for crab not delivered to an original receiver with 36 hours of harvest.

(3) Implements a Puget Sound sales report requirement for stored crab that have been reported but not landed.

(4) Implements a registration requirement for commercial license holders to notify the department of their fishing status and which crab management area a license will be fishing in if active.

Citation of Rules Affected by this Order: Repealing WAC 220-340-42000E, 220-340-45500J, 220-340-47000H and 220-352-34000T; and amending WAC 220-340-420, 220-340-455, 220-340-470, and 220-352-340.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Commercial crab harvest in Crab Management Region 3-1 will close, effective March 25, due to projected quota attainment. Region 3-4 will open March 24 for the harvest of additional quota. Sufficient harvest quota remains available in Region 3-3 to accommodate continued commercial harvest.

Rules are consistent with comanager agreed regional management plans and in accordance with procedures outlined in the shellfish implementation plan for circumstances when agreement to annual regional management plans has not been reached. These management plans are entered into as required by court order. The Washington department of fish and wildlife-managed Puget Sound commercial Dungeness crab season is structured to meet harvest allocation objectives negotiated with applicable treaty tribes and outlined in these management plans. Further adjustment of season structure may be made pending updated harvest data.

There is insufficient time to adopt permanent rules.

WSR 22-08-016
EMERGENCY RULES
DEPARTMENT OF

CHILDREN, YOUTH, AND FAMILIES

[Filed March 25, 2022, 9:17 a.m., effective March 25, 2022, 9:17 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Modify the early achievers quality rating and improvement system requirements during the COVID-19 pandemic. More specifically, remove the deadline by which a provider must enroll in the program and the requirement to reach quality rating levels. Child care and early learning providers who participate in working connections and seasonal child care must still enroll in the early achievers program, follow its operating guidelines, submit attendance records electronically, and renew their facility ratings every three years.

Citation of Rules Affected by this Order: Amending WAC 110-15-0125 and 110-15-3750.

Statutory Authority for Adoption: RCW 43.216.055 and 43.216.065.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Governor Jay Inslee issued Proclamation 20-05 declaring a State of Emergency in all counties in the state of Washington as a result of the outbreak of COVID-19. The governor's proclamation directed state agencies to do everything reasonably possible to respond to and recover from the COVID-19 outbreak. As of March 11, 2020, the World Health Organization has classified COVID-19 as a pandemic. The effects of its extreme risk of person-to-person transmission throughout Washington state significantly impact the life and health of our people, as well as our economy, and pose particular challenges to the availability of quality early learning and child care services for families with low incomes. The emergency amendments to WAC 110-15-0125 and 110-15-3750 address these challenges by waving and suspending some of the regulatory system requirements that delay child care providers from making child care available to the children of essential staff who are from low income families who require child care services during the COVID-19 pandemic. WAC 110-15-0125 and 110-15-3750 were amended on an emergency basis on March 30, 2020, under WSR 20-08-098; July 29, 2020, under WSR 20-16-072; November 25, 2020, under WSR 20-24-090; March 26, 2021, under WSR 21-08-014; July 26, 2021, under WSR 21-16-035; and November 24, 2021, under WSR 21-24-048. Proclamation 20-31.11 issued January 19, 2021, relieves providers from meeting certain early achievers program deadlines until the state of emergency terminates or the proclamation is rescinded. This change in circumstances makes it necessary for the emergency rules filed under WSR 21-24-048 to remain in force.

EMERGENCY RULES
DEPARTMENT OF

CHILDREN, YOUTH, AND FAMILIES

[Filed March 25, 2022, 9:20 a.m., effective March 25, 2022, 9:20 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: During the COVID-19 pandemic, relieve the department of children, youth, and families from (1) in-person contact for the purpose of receiving or fulfilling public records requests, copying public records, or allowing inspection of public records; and (2) the requirement to respond to a request for public records within five days of receiving the request.

Citation of Rules Affected by this Order: Amending WAC 110-01-0100 and 110-01-0200.

Statutory Authority for Adoption: RCW 43.216.065; and chapter 42.56 RCW.

Other Authority: Proclamations of the Governor 20-05 and 20-28.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Governor Jay Inslee issued Proclamation 20-05 declaring a State of Emergency in all counties in the state of Washington as a result of the outbreak of COVID-19. The governor's proclamation directed state agencies to do everything reasonably possible to respond to and recover from the COVID-19 outbreak. As of March 11, 2020, the World Health Organization has classified COVID-19 as a pandemic. Proclamation of the Governor 20-28 amends Proclamation 20-05 and directs state agencies to limit personal contact through social distancing and limit person-to-person contact. Proclamation 20-28 waives and suspends any in-person contact related to public records requests and the requirement that a state agency respond to requests within five days of receipt. WAC 110-01-0100 and 110-01-0200 were amended on an emergency basis on March 31, 2020, under WSR 20-08-123; July 29, 2020, under WSR 20-16-074; November 25, 2020, under WSR 20-24-089; March 26, 2021, under WSR 21-08-015; July 26, 2021, under WSR 21-16-037; and November 24, 2021, under WSR 21-24-047. Proclamation 20-28.15 issued January 19, 2021, relieves state agencies from complying with provisions of the Public Records Act that involve in-person contact until the state of emergency terminates or until rescinded. This change in circumstances makes it necessary for the emergency rules filed under WSR 21-24-047 to remain in force.

EMERGENCY RULES

DEPARTMENT OF HEALTH

[Filed March 28, 2022, 11:16 a.m., effective March 28, 2022, 11:16 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: WAC 246-310-806 Kidney disease treatment facilities— Concurrent review cycles. The department of health (department) is adopting an emergency rule to amend WAC 246-310-806(1) as it relates to special and nonspecial circumstances 1 concurrent review cycle. The amendment extends deadlines for kidney disease treatment facility applicants who are submitting applications during concurrent review cycle 1. This extension grants flexibility in meeting deadlines due to significant reporting errors in the new end stage renal disease quality reporting system (EQRS) database. It was recently discovered that EQRS, a new centers for medicare and medicaid services reporting system, is not able to correctly process dialysis patients receiving services in coronavirus disease (COVID-19) cohorted facilities and is incorrectly recording death dates or discharge dates. These errors have caused a significant number of counting errors within the reporting system. The department is unable to generate an accurate need methodology for the end stage renal disease providers as required by WAC 246-310-812 due to the incorrect data.

This emergency rule adopts the waived application deadlines for the special and nonspecial circumstances 1 concurrent review cycle. This change will allow time for the dialysis providers to work within EQRS to correct this data and allow the department to receive reliable data to formulate a reliable need methodology.

Citation of Rules Affected by this Order: Amending WAC 246-310-806.

Statutory Authority for Adoption: RCW 70.38.135.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The immediate amendment of these existing rules is necessary for the preservation of public health, safety, and general welfare. Allowing an additional month for the kidney disease treatment facility concurrent review start cycle will allow time to receive and generate the data needed by applicants to appropriately fill health care needs in the appropriate areas. Ongoing work to review and revise the certificate of need rules cannot be completed in time for this review cycle. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

(2) The department should complete a nonspecial circumstance concurrent review cycle within nine months, which begins the first day after letters of intent are due for that particular review cycle. The department should complete the regular review process within six months, which begins the first day after the letters of intent are due for that particular review cycle.

(3) The department will notify applicants fifteen days prior to the scheduled decision date if it is unable to meet the decision deadline on the applications. In that event, the department will establish and commit to a new decision date.

(4) When two or more applications are submitted for the same planning area, the department will first evaluate each application independently for meeting the applicable standards described in WAC 246-310-210, 246-310-220, 246-310-230, and 246-310-240. If two or more applications independently meet those four standards, the department will apply the superiority criteria in WAC 246-310-827 to determine the superior application under WAC 246-310-240(1).

(5) An applicant receiving points for the purposes of the superiority criteria under WAC 246-310-827 (3)(e), (f), or (g) may only apply for station need in one planning area per review cycle.

(6) An applicant receiving points for purposes of the superiority criteria under WAC 246-310-827 (3)(e), (f), or (g) must operate the newly awarded stations for a period of time long enough to have a full year of data reporting medicare cost report worksheets and a full year of data reporting the dialysis facility report prior to any future applications.

(7) The department will not accept new nonspecial circumstance applications for a planning area if there are any nonspecial circumstance applications for which the certificate of need program has not made a decision in that planning area filed under a previous concurrent review cycle. This restriction does not apply if the department

has not made a decision on the pending applications within the review timelines of nine months for a concurrent review and six months for a regular review. This restriction also does not apply to special circumstance applications.

(8) The department may convert the review of a nonspecial circumstance application that was initially submitted under a concurrent review cycle to a regular review process if the department determines that the nonspecial circumstance application does not compete with another nonspecial circumstance application.

(9) Pending certificate of need applications. Kidney dialysis facility applications submitted prior to the effective date of these rules will be reviewed and action taken based on the rules that were in effect on the date the applications were received.

EMERGENCY RULES

DEPARTMENT OF AGRICULTURE

[Filed March 29, 2022, 6:23 a.m., effective March 29, 2022, 6:23 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: To create a temporary hemp extract certification process, which will enable Washington state hemp processors to comply with other states' and countries' regulatory requirements that hemp extracts intended for use in consumable products must be sourced from a state that inspects or regulates hemp under a food safety program, until a permanent rule can be adopted. The rule-making order creates chapter 16-171 WAC, Hemp extract certification.

Citation of Rules Affected by this Order: New WAC 16-171-100, 16-171-110, 16-171-120, 16-171-130, 16-171-140, 16-171-150, and 16-171-160.

Statutory Authority for Adoption: RCW 69.07.020, 69.07.220.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: In 2021, the legislature passed SB 5372 (chapter 104, Laws of 2021) authorizing the department to conduct rule making to establish the voluntary hemp extract certification process to allow for hemp extract products to be used as a food ingredient in another state that allows its use. This voluntary certification will allow a manufacturer to apply for a hemp extract certification, which will evaluate a hemp manufacturer's compliance with Washington state's inspection and good manufacturing practices requirements. Other states are also making changes to their hemp programs and establishing new markets for hemp products at an unprecedented pace. Many of these new opportunities require that hemp extracts intended for use in consumable products be sourced from a state that regulates hemp extracts under a food safety program.

One crucial example of this is the recent passage of California's Assembly Bill 45 (AB 45), which will allow for the inclusion of hemp extract in consumable products within the state. California will require out-of-state hemp extracts to be inspected under a food safety program. This opening of the California market presents a substantial opportunity and it is expected that many major national consumer product companies will rapidly introduce a number of food, beverage, and other branded products in the state. Supply lines and relationships for hemp ingredients to be included in these products will form rapidly. The California bill [AB 45] went into effect immediately upon signature by the governor.

The passage of AB 45 and the opening of the California market will undoubtedly draw hemp processors from around the country who are seeking to export their hemp products to California. Those processors who are able to promptly establish supply relationships to provide hemp products early on will have the opportunity to secure a market position that could last for many years to come. This presents a very significant opportunity for Washington's hemp processors, but the timeline necessary to establish permanent rules regarding hemp extract certification will put hemp extract processors in this state at a se-

vere disadvantage to processors in those states that already have similar regulations in place.

California has the largest market in the country and the economic consequences of failing to have Washington's hemp extract certification process in place at the time California's regulations are implemented would be expansive. Not only are Washington's hemp processors currently prevented from exporting their products into numerous existing markets until the permanent rules are in place, but if the processors miss out on the opportunity to establish key supply relationships at the onset of the California market, it will set Washington hemp industry back significantly and will exacerbate the existing competitive differences between the states. This setback will have a long lasting effect that will likely take many years to remedy, if in fact it can be remedied at all.

The department has determine[d] that establishing a temporary hemp certification process until the permanent rule can be adopted is necessary to protect the general welfare of Washington's hemp industry.

A CR-101, to make this rule permanent, was filed on July 20, 2021 (WSR 21-15-098).

NEW SECTION

WAC 16-171-120 Hemp extract facility certification—New application and renewals—Inspection criteria. To qualify for a new hemp extract certification issued under chapter 69.07 RCW, the Washington Food Processing Act, a hemp processor must first make an application to the department. After the department receives a complete application, the department will inspect the facility. The facility must be in compliance with the following requirements prior to issuance of a certification:

(1) The applicant must submit an application that includes:

(a) The full name of the applicant and the location of the hemp extraction facility where the applicant intends to operate, and if the applicant is an entity, the full name of each officer, managing member, or other responsible individuals;

(b) The principal business address of the applicant in the state and elsewhere and the name of a person domiciled in this state authorized to receive and accept service of summons of legal notices of all kinds for the applicant; and

(c) The type of hemp extracts to be processed, the method of manufacturing, and any other necessary information to make an evaluation.

(2) A hemp processor holding a hemp extract certification must apply for renewal of the certification annually.

(3) The appropriate fee must accompany the application submitted to the department, as follows:

(a) For new applications, the fee is \$1,400.

(b) For a new certification inspection, the fee is \$3,000.

(c) For renewal applications, the fee is \$1,500.

(4) The hemp extract facility must be in substantial compliance with inspection criteria as described in WAC 16-171-150(2). Refer to WAC 16-171-140 for the inspection and certification criteria and WAC 16-171-130 for definitions of certain inspection criteria. For the purposes of certification, a hemp extract facility may incur a one-point debit of a licensing criteria that has sliding scale.

(5) To renew a certification, a hemp extract manufacturer must submit a renewal application and fees before the manufacturer's current certification expires. If the department has received receipt of a submitted renewal application and fees before the certification expiration date, the time period of the prior certification extends un-

til the department either issues the renewed certification or denies the renewal application. If a manufacturer does not timely submit a renewal application or fees, the prior certification expires upon the expiration date.

(6) Upon the approval of the application by the director the applicant shall be issued a new or renewal certification.

NEW SECTION

WAC 16-171-130 Hemp extract certification—Inspection criteria definitions. This section provides definitions for certain criteria the department will use when conducting inspections to determine if a hemp extract facility complies with inspection criteria and good manufacturing practices for hemp extract certification. The complete set of inspection criteria is set forth in WAC 16-171-140.

(1) **"Clean and adequate protective clothing and hair restraints"** means the clothing, or the outside layer of clothing, which can occasionally or incidentally contact hemp extract, either directly or indirectly, is:

(a) Clean at the start of the work shift; and

(b) Changed when the clothing becomes so soiled during the course of the work shift that contamination of hemp extract, hemp extract packaging or hemp extract contact surfaces becomes imminent; and

(c) Suitable to the specific hemp extract manufacturing operation for protection against the contamination of hemp extract, hemp extract packaging, and hemp extract contact surfaces; and

(d) Clean and effective hair restraints, such as hairnets, or beard nets if appropriate, are worn for the protection of hemp extract from contamination. Hats, caps, scarves or other head cover are acceptable if the hair is properly contained to protect hemp extract from contamination. Hair spray and/or tying back the hair in pony-tails, etc., are not considered effective hair restraints.

(2) **"Adequate washing and sanitizing of hands as necessary"** means washing and sanitizing hands thoroughly to protect against contamination of hemp extract from undesirable microorganisms in an adequate hand wash facility by:

Using proper handwashing methods which consist of:

(a) Applying soap to hands;

(b) Using warm water;

(c) Scrubbing hands thoroughly;

(d) Rinsing and drying hands using methods that prevent hemp extract contamination;

(e) Washing hands before beginning work, after each absence from the work station, and any time hands become soiled or contaminated; and

(f) Sanitizing hands when appropriate in addition to, but not in place of, the proper handwashing methods.

(3) **"Garments and personal belongings stored appropriately; not a source of contamination"** means personal belongings and garments, either personal or supplied by the hemp extract facility, are stored or kept separately from hemp extract manufacturing, handling and storage operations such as in an area, locker, cupboard, or other closeable

unit that is dedicated to the storing or hanging of personal belongings and clothing so not to become a source of contamination to hemp extract, hemp extract packaging or hemp extract contact surfaces; and

No hemp extract, packaging materials, utensils or equipment used in the hemp extract manufacturing operation are kept, stored or commingled with personal belongings or garments.

(4) **"Processes separated as required"** means there is a separation of processes for the purpose of reducing potential contamination in hemp extract manufacturing operations where contamination is likely to occur. One or more of the following means may accomplish this:

- (a) Location;
- (b) Time;
- (c) Partition;
- (d) Air flow;
- (e) Enclosed systems; or
- (f) Other effective method.

(5) **"Adequate light"** means lighting is provided in handwashing, dressing and locker rooms, toilet rooms and in all areas where hemp extract is examined, manufactured or equipment is cleaned. Shatter resistant light bulbs or fixtures are to be used to protect against hemp contamination.

(6) **"Detergents, sanitizers and toxic materials properly identified"** means:

(a) Labeling any container containing detergent, sanitizer, or toxic material with the:

- (i) Product name;
- (ii) Chemical description;
- (iii) Directions for use;
- (iv) Any required precautionary and warning statements;
- (v) First-aid instructions;
- (vi) Name and address of the manufacturer or distributor; and
- (vii) Any other additional information required by the federal Environmental Protection Agency or other laws or rules; and

(b) Small transport or use containers for detergents, sanitizers, or toxic materials are used only under the following conditions:

(i) The contents are properly identified on the container. Labeling the container with the common name is acceptable if the original storage container is on hand and properly identified;

(ii) No hemp extract container is used as a container for detergents, sanitizers, or toxic materials;

(iii) No container used for detergents, sanitizers, or toxic materials, is used as a hemp extract container.

(7) **"Product contact surfaces clean and maintained in a sanitary condition, cleaned and sanitized prior to each use or as essential"** means:

(a) Product contact surfaces of equipment, utensils, containers and other articles used in the manufacturing of hemp extract, when its continued use is apparent, are cleaned as frequently as necessary to protect against contamination of hemp extract;

(b) Hemp extract residues are removed from product contact surfaces frequently enough to prevent residues from becoming unwholesome or unfit for food, decomposed, filthy, putrid, or injurious to health; and

(c) The hemp extract product contact surfaces are sanitized prior to use and after cleaning as necessary.

(8) **"Product contact surfaces clean and maintained in a sanitary condition, cleaned and sanitized prior to each use or as essential"**

Critical violation" means it is a critical violation if a hemp extract product contacts a surface that is not sanitized after cleaning or prior to use. Product contact surfaces that become contaminated, but are cleaned and sanitized prior to use, are not considered a critical violation.

(9) **"Nonproduct contact surfaces of equipment cleaned and maintained in a sanitary condition"** means nonproduct contact surfaces of equipment are kept reasonably free from dirt, old hemp extract residues, foreign material, dust, mold, mildew, slime and other accumulations that occur because of day-to-day hemp extract manufacturing operations.

(10) **"In-use hemp contact equipment and utensils appropriately stored: Protected from contamination between uses"** means the utensils used in the manufacturing of hemp, such as knives, scrapers, scoops, shovels, cutters, and other hand tools and equipment, are placed or stored in a manner to prevent hemp extract contact surfaces from being contaminated with filth. Filth includes, but is not limited to, nonpathogenic microorganisms, unsuitable toxic chemicals, and microscopic physical contaminants.

Storage and placement of utensils or equipment in the following manner is considered inappropriate storage:

(a) In contact with the floor, dirty equipment frames, other insanitary nonhemp extract contact surfaces;

(b) In contact with containers of nonpotable water (other than sterilizing solutions); and

(c) In contact with other contaminants.

(11) **"In-use hemp contact equipment and utensils appropriately stored: Protected from contamination between uses: Critical violation"** means that it is a critical violation when a utensil or piece of equipment is or has been stored in a manner that it becomes obviously contaminated with filth and its continued use is apparent.

Utensils and equipment that become contaminated are not considered a critical violation if the utensils and equipment are cleaned and sanitized prior to the next use.

(12) **"Water supply - Safe and of sanitary quality"** means the water supply used in the manufacturing of hemp is potable from an approved source and is monitored in accordance with applicable laws and rules with current satisfactory water tests as applicable. Water from an approved source and monitored in accordance with applicable laws and rules means:

(a) Hemp extract facilities with 25 or more employees and operating 60 days or more annually comply with the state department of health, division of drinking water requirements for a Group A water system (chapter 246-290 WAC).

(b) Hemp extract facilities with less than 25 employees or operating less than 60 days annually, comply with the state department of health, division of drinking water requirements for a Group B water system (chapter 246-291 WAC) unless connected to a Group A public water system.

(c) Private water supplies must meet the department of health, division of drinking water requirements for a Group B water system (chapter 246-291 WAC) with respect to monitoring for bacteriological properties. When water is incorporated into the product, chemical and physical properties must also be monitored.

(13) **"Current satisfactory water test"** means for water obtained from other than a municipal system, analysis verifying the bacteriological, physical and chemical safety of the water has been conducted

according to appropriate Group A or B water system monitoring schedules and that reports of analysis are on file at the manufacturing facility and available for review by the department during routine facility inspection.

(14) **"No cross connections, no back siphonage"** means there is no backflow from or cross connection between piping systems that discharge waste water sewage and piping systems that carry water for hemp extract manufacturing. This includes any cross connection between a potable water system and a nonpotable system.

(15) **"Adequate floor drains and plumbing to convey wastes and sewage from the manufacturing facility, into approved sewage disposal system"** means:

(a) Plumbing is designed, sized, installed and maintained in accordance with applicable state and local plumbing codes so that sewage and liquid disposable waste is readily conveyed from the plant;

(b) Floor drainage is sufficient to prevent excessive pooling of water or other disposable waste;

(c) Plumbing and drains do not provide a source of contamination to hemp or hemp extract, potable water, hemp extract contact surfaces or hemp extract packaging material or create any insanitary condition; and

(d) Sewage is disposed into a municipal sewer system or other system approved by a federal, state or local agency having jurisdiction.

(16) **"Adequate, readily accessible toilet facilities"** means a hemp extract facility provides its employees with toilet facilities that are located within a reasonable distance to the work area, and are maintained in accordance with local zoning ordinances.

(a) Toilet facilities are located on the premises of a hemp extract facility.

(b) If the hemp extract facility shares space in a multiple building complex, toilet facilities are located within the complex and within a reasonable distance from the work area.

(c) Outhouses, chemical toilets, or other nonflushing toilets may not be used.

(17) **"Toilets clean, in good repair, not opening directly into process areas, self-closing doors"** means toilet rooms are kept clean, free of trash and litter, in good repair and all toilet room doors are self-closing and do not open directly into a hemp extract manufacturing area.

(18) **"Handwash facilities adequate and convenient, with hot and cold or tempered water"** means employees and visitors in a hemp extract facility have access to one or more handwashing facilities with hot, cold, or tempered running water, and there is at least one handwash facility located in each restroom and one in the hemp extract manufacturing area in a convenient location for use when hands become soiled.

(19) **"Hemp extract protected from contamination in storage"** means hemp and hemp extract is stored under conditions that protect against physical, chemical and microbial contamination, as well as against deterioration of the hemp extract and the container.

(20) **"Hemp extract protected from contamination in storage: Critical violation"** means it is a critical violation when a storage situation allows potential contamination of products.

(21) **"Packaging material properly handled and stored"** means packaging material is protected from potential sources of contamination during handling and storage. This includes, but is not limited to:

- (a) Boxes, liners, and other primary containers are stored off floors or other insanitary surfaces;
- (b) Top containers in a nested stack of lined or primary containers are inverted or otherwise protected;
- (c) All single service containers, caps, roll stock, liner jars, bottles, jugs, and other preformed containers are stored in closed sanitary tubes, wrappings, boxes or cartons prior to use;
- (d) The forming, make-up or other package assembly is conducted in a manner that prevents contamination;
- (e) The handling of packaging material and containers prior to filling or wrapping is conducted as not to expose them to contamination by dust, foreign material, or other contaminants.

NEW SECTION

WAC 16-171-150 Hemp extract facility inspection rating system—Inspection score. (1) A hemp extract facility is evaluated at the completion of an inspection conducted by the department as follows:

(a) A hemp extract facility will be debited the point value assigned to the inspection item listed in WAC 16-171-140 for each violation found during an inspection.

(b) The maximum point value possible is 100.

(c) The sum of the points debited for an inspection are subtracted from the maximum point value of 100. The remaining sum is the facility's score for that inspection.

(d) When the department identifies a critical violation during inspection of a hemp extract facility a failing score of "critical" will be listed unless the violation is satisfactorily corrected during the inspection.

(2) A hemp extract facility is considered in substantial compliance with the inspection criteria if:

(a) No critical violations are found, or if critical violations are found, they are corrected prior to completion of the inspection; or

(b) The facility's inspection score is 90 points or above.

[]

NEW SECTION

WAC 16-171-160 Hemp extract facilities—Basis for enforcement action. (1) The department may issue a notice of correction for:

(a) Hemp extract facilities that score less than 90 points on an inspection; or

(b) Critical violations found during an inspection of a hemp extract facility.

(2) The department may review and consider initiating enforcement action, such as certification suspension, civil penalties, and/or other actions provided in chapter 69.07 or 15.130 RCW when:

(a) Hemp extract facilities score less than 90 points on two separate inspections within a consecutive three-year period; or

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 22-49—Filed March 29, 2022, 4:24 p.m., effective April 1, 2022]

Effective Date of Rule: April 1, 2022.

Purpose: The purpose of this emergency rule is to open commercial razor clam seasons.

Citation of Rules Affected by this Order: Repealing WAC 220-340-12000H; and amending WAC 220-340-120.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Based on historical catches and on-site inspection, there are adequate clams to support a 12-week commercial razor clam season. Washington department of health has confirmed biotoxin levels currently fall below the regulatory threshold. This emergency rule is needed to open the commercial razor clam season in Razor Clam Area 2. The department of natural resources will not require a right-of-entry agreement, so boat-in access language is necessary to prevent harvesters from accessing the spits by land. There is insufficient time to adopt permanent rules.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 22-50—Filed March 30, 2022, 4:13 p.m., effective May 11, 2022]

Effective Date of Rule: May 11, 2022.

Purpose: The purpose of this emergency rule is to open recreational white sturgeon retention season downstream of the Wauna powerline crossing on the Columbia River.

Citation of Rules Affected by this Order: Repealing WAC 220-312-06000M; and amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to allow a limited harvest of white sturgeon in the Columbia River estuary. This population is managed under sustainable harvest guidelines and the legal-size population is large enough to allow for a limited retention fishery within the lower Columbia River. This action is consistent with decisions made by the states of Washington and Oregon during the Columbia River compact hearings on March 30, 2022. There is insufficient time to adopt permanent rules.

EMERGENCY RULES

DEPARTMENT OF HEALTH

[Filed March 31, 2022, 9:56 a.m., effective March 31, 2022, 9:56 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: WAC 246-335-510, 246-335-545, 246-335-610, and 246-335-645, in-home services agencies. This emergency rule continues amendments originally filed August 3, 2021, under WSR 21-16-096 and extended on December 1, 2021, under WSR 21-24-099. The department of health (department) has also commenced permanent rule making on this topic under WSR 21-20-084.

Amendments to WAC 246-335-545 and 246-335-645 remove the requirement that supervision of aide services must be "during an on-site visit" and add language that the supervisory visit "may be conducted on-site or via telemedicine." This will allow home health and hospice agencies to perform supervision either on-site or via telemedicine.

Also, amendments to the definition of "telemedicine" in WAC 246-335-510 and 246-335-610 clarify that telemedicine applies to both delivery of health care services and supervision of direct care providers. Amendments also clarify how telemedicine may be used.

Federal and state coronavirus disease 2019 (COVID-19) pandemic-related guidelines and department waivers, filed under WSR 20-10-061, currently allow home health and hospice agencies to implement social distancing practices and to limit in-person contact to reduce the spread of the virus. Emergency rules adopted under WSR 21-24-099 align department rule with federal and state guidelines, allowing flexibility in how supervision is performed. Continuing the emergency rule amendments while permanent rule making is in progress will extend some aspects of current waivers past the eventual end of the COVID-19 declared emergency as Washington begins recovery.

Citation of Rules Affected by this Order: Amending WAC 246-335-510, 246-335-545, 246-335-610, and 246-335-645.

Statutory Authority for Adoption: RCW 70.127.120.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule will allow home health and hospice agencies to perform supervision either on-site or via telemedicine.

As Washington continues to combat and recover from the COVID-19 pandemic, home health and hospice agencies need the option to continue conducting supervision via telemedicine when circumstances warrant it.

Supervision via telemedicine is a needed option in rural communities where health services are less available, vaccination rates are lower, and the necessity to limit in-person contact is greater. Home health and hospice agencies need the option to limit unnecessary in-person contact to keep patients and staff as safe as possible. Consistent with the federal "Patients over Paperwork" initiative, telemedicine supervisory visits allow hospice and home health nurse supervisors to dedicate more time performing clinical care by focusing on admitting new patients transitioning from institutional level care to a home and community-based setting.

EMERGENCY RULES

EMPLOYMENT SECURITY DEPARTMENT

[Filed March 31, 2022, 10:58 a.m., effective April 4, 2022]

Effective Date of Rule: April 4, 2022.

Purpose: Pursuant to RCW 34.05.410 (1)(a), the department hereby adopts the use of brief adjudicative proceedings for use in certain appeals. This process is being adopted to reduce the wait time for appeals to be resolved in circumstances where a claimant appeals an unemployment insurance benefit decision, and no employer is an interested party.

Citation of Rules Affected by this Order: New WAC 192-04-145.

Statutory Authority for Adoption: RCW 34.05.410 (1)(a), 50.32.060, 50.32.080, 34.05.220, 50.12.040, 50.12.010.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Due to unprecedented unemployment insurance claims during the COVID-19 pandemic, the department and the office of administrative hearings (OAH) have a backlog of 40,947 pending appeals as of December 31, 2021. For comparison, there were 27,127 pending appeals at the end of 2020, and 2,470 at the end of 2019. This backlog has led to an average wait time of 167.3 days for appeals closed during December of 2021, compared to an average wait time of 31.58 days during December of 2019. The United States Department of Labor's performance metric calls for 60 percent of appeals to be resolved within 30 days and 80 percent of appeals to be resolved within 45 days. In December 2019, the department closed 71 percent of cases within 30 days and 94 percent of cases within 45 days. In December 2021, only two percent of appeals were resolved within 30 days and four percent of appeals within 45 days.

Currently, the department is referring between 400 and 500 cases per day (2,000 to 2,500 per week) to OAH. This trend is expected to continue through the end of the year with continued unemployment insurance claims processing associated federal pandemic programs, such as the mixed earner unemployment compensation program.

With the adoption of brief adjudicative proceedings, the department would eliminate between 30 to 60 minutes per case. Using a brief administrative proceeding, administrative law judges (ALJ) would have the ability to organize cases around other full hearings and organize and resolve cases at their own pace. The department estimates that each ALJ will be able to close up to 60 more appeals per week. With 10 ALJs assigned to brief adjudicative proceedings, the department anticipates it could address the backlog by closing an additional 130 to 260 appeals each week.

(a) RCW 34.05.488 and 34.05.491 shall not apply to brief adjudicative proceedings under this rule.

(2) **Procedure for brief adjudicative proceedings.** The following procedural rules will apply to brief adjudicative proceedings:

(a) An administrative law judge with the office of administrative hearings will conduct the brief adjudicative proceeding.

(b) Not less than seven days before the date of the hearing, the office of administrative hearings shall serve notice on the claimant pursuant to WAC 10-08-040 that a brief adjudicative proceeding will occur. The notice of hearing will contain the following:

(i) Notice that the claimant may submit additional relevant documentary evidence and sworn oral statements, if desired, along with a date by which these submissions must be made and instructions for doing so;

(ii) Instructions for how the department or claimant may request that the brief adjudicative proceeding may be converted to a regular proceeding pursuant to subsection (4) of this section and the date by which such request must be submitted; and

(iii) The date of the brief adjudicative proceeding.

(c) The administrative law judge, in their sole discretion, may send a written request for additional evidence from the claimant or the department. The request will contain instructions for how to submit the additional evidence and the date by which additional evidence must be submitted.

(d) The administrative law judge's review will be limited to the record defined in subsection (3) of this section.

(e) If the claimant fails to provide any additional relevant documentary evidence or sworn oral statements, the administrative law judge will affirm the department's determination unless the evidence provided by the department is sufficient to resolve the matter in the claimant's favor.

(a) A brief adjudicative proceeding will be converted to a regular proceeding if:

(i) The claimant files a conversion request by the deadline listed in the notice of the brief adjudicative proceeding. Such a request shall be automatically granted by the administrative law judge; or

(ii) The department files a conversion request by the deadline listed in the notice of the brief adjudicative proceeding. Such a request shall be automatically granted by the administrative law judge; or

(iii) The administrative law judge, at any time prior to issuing a written decision, determines the brief adjudicative proceeding shall be converted to a regular proceeding. Reasons the administrative law judge may convert the brief adjudicative proceeding to a regular proceeding may include, but are not limited to:

(A) The use of the brief adjudicative proceeding procedures violates any provision of law;

(B) The protection of the public interest requires that notice and an opportunity to be heard be given to persons other than the claimant and the department;

(C) A regular proceeding is required to adequately develop the record and decide the issues in the appeal; or

(D) The issues and interests involved otherwise warrant the use of the procedures in a regular proceeding.

(b) When a brief adjudicative proceeding is converted to a regular proceeding, the office of administrative hearings shall issue a new notice of hearing.

(5) **Right to petition for review.** A party aggrieved by a decision issued by an administrative law judge pursuant to a brief adjudicative proceeding shall have the same right to petition for review as contained in WAC 192-04-060. In conducting this review of the brief adjudicative proceeding, prior to rendering a decision, the commissioner shall order the taking of additional evidence by the office of administrative hearings to be made a part of the record in the case.

EMERGENCY RULES

DEPARTMENT OF AGRICULTURE

[Filed April 1, 2022, 6:38 a.m., effective April 1, 2022, 6:38 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: To allow veterinarians and field livestock inspectors certified by the department to conduct inspections at facilities not currently allowed to use veterinarians or field livestock inspectors when the department has notified a facility that department inspectors are not available to conduct inspections.

The rule-making order amends WAC 16-610-060 Veterinarian and field livestock inspector certification.

Citation of Rules Affected by this Order: Amending WAC 16-610-060.

Statutory Authority for Adoption: RCW 16.57.025, 16.57.350, 16.58.030, 16.65.020.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: An outbreak of COVID-19 at a licensed public livestock market hindered the department's ability to conduct livestock inspections. With the pandemic continuing and new COVID-19 variants being identified, the department will allow the licensed facilities listed in WAC 16-610-060 (1)(b) to hire veterinarians or private field inspectors that are certified by the department to conduct inspections in order to avoid impacts to animal health and the related impacts on the public welfare of the loss of healthy animals from delayed livestock sales, and to protect the health of department employees. Licensed facilities are restricted to only hiring **certified** veterinarians and private field inspectors when the department provides notification to **the facility** that department inspectors are not available to conduct inspections during the time period specified in the notice.

A CR-101 to adopt the rule permanently was filed on December 2, 2021 (WSR 22-01-006).

Other Authority: SB [ESSB] 5693, section 229.

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: SB [ESSB] 5693 (2021-23 supplemental operating budget) authorizes enrollment-based payments to child care providers participating in working connections and seasonal child care programs starting April 2022 through June 2022. There is insufficient time between Governor Inslee's signing of the bill and April 1, 2022, to adopt permanent rules implementing these payments.

WSR 22-08-062
EMERGENCY RULES
DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

[Filed April 4, 2022, 12:35 p.m., effective April 9, 2022]

Effective Date of Rule: April 9, 2022.

Purpose: The department is amending WAC 388-97-0140 and 388-97-0120 to waive and suspend the requirement for nursing homes to suspend certain transfers and discharges pending the outcome of a resident appeal of the nursing home transfer or discharge decision. The COVID-19 pandemic continues to require more rapid transfers and discharges than the rule permits. This emergency rule waives the requirement for nursing homes to suspend certain transfers and discharges pending the outcome of a resident appeal hearing, and improves resident safety by allowing faster grouping of COVID-19 positive residents in one facility, or grouping asymptomatic residents together. This helps expedite infection control processes, and maximizes the availability of nursing home beds. This amendment will align with federal rules. The department filed a CR-101 Preproposal under WSR 22-08-060 to begin the permanent process.

Citation of Rules Affected by this Order: Amending WAC 388-97-0120 and 388-97-0140.

Statutory Authority for Adoption: RCW 74.42.620.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The threat of COVID-19 to our most vulnerable populations is significant, especially for those receiving long-term care services in their homes and congregate settings, such as nursing homes. Currently WAC 388-97-0140 requires nursing homes to suspend a transfer or discharge pending the outcome of a resident appeal request to the office of administrative hearings (the office) when the appeal is received by the office on or before the date the resident actually transfers or discharges.

Strict compliance with these requirements will prevent, hinder, or delay certain transfers or discharges of nursing home residents to other long-term care facilities when they are necessary to expedite the grouping or cohorting of residents to reduce the spread of COVID-19, especially the delta variant, among our most vulnerable populations, and to relieve stress on our health care system to meet the increased demand of addressing COVID-19 related illnesses.

AMENDATORY SECTION (Amending WSR 08-20-062, filed 9/24/08, effective 11/1/08)

WAC 388-97-0120 Individual transfer and discharge rights and procedures. (1) The skilled nursing facility and nursing facility must comply with all of the requirements of 42 C.F.R. § 483.10 and § 483.12, and RCW 74.42.450, or successor laws, and the nursing home must comply with all of the requirements of RCW 74.42.450 (1) through (4) and (7), or successor laws, including the following provisions and must not transfer or discharge any resident unless:

- (a) At the resident's request;
- (b) The transfer or discharge is necessary for the resident's welfare and the resident's needs cannot be met in the facility;
- (c) The transfer or discharge is appropriate because the resident's health has improved enough so the resident no longer needs the services provided by the facility;
- (d) The safety of individuals in the facility is endangered;
- (e) The health of individuals in the facility would otherwise be endangered; or
- (f) The resident has failed, after reasonable and appropriate notice, to pay for a stay at the facility.

(2) The following notice requirements apply if a nursing home/facility initiates the transfer or discharge of a resident. The notice must:

- (a) Include all information required by 42 C.F.R. § 483.12 when given in a nursing facility;
- (b) Be in writing, in language the resident understands;
- (c) Be given to the resident, the resident's surrogate decision maker, if any, the resident's family and to the department;
- (d) Be provided thirty days in advance of a transfer or discharge initiated by the nursing facility, except that the notice may be given as soon as practicable when the facility cannot meet the resident's urgent medical needs, or under the conditions described in (1)(c), (d), and (e) of this section; or for cohorting purposes related to the COVID-19 pandemic as allowed under any applicable Centers for Medicare and Medicaid Services (CMS) emergency waivers; and

(e) Be provided fifteen days in advance of a transfer or discharge initiated by the nursing home, unless the transfer is an emergency.

(3) The nursing home must:

- (a) Provide sufficient preparation and orientation to the resident to ensure safe and orderly transfer or discharge from the nursing home;

(b) Attempt to avoid the transfer or discharge of a resident from the nursing home through the use of reasonable accommodations unless agreed to by the resident and the requirements of WAC 388-97-0080 are met; and

(c) Develop and implement a bed-hold policy. This policy must be consistent with any bed-hold policy that the department develops.

(4) The nursing home must provide the bed-hold policy, in written format, to the resident, and a family member, before the resident is transferred or goes on therapeutic leave. At a minimum the policy must state:

(a) The number of days, if any, the nursing home will hold a resident's bed pending return from hospitalization or social/therapeutic leave;

(b) That a medicaid eligible resident, whose hospitalization or social/therapeutic leave exceeds the maximum number of bed-hold days will be readmitted to the first available semi-private bed, provided the resident needs nursing facility services. Social/therapeutic leave is defined under WAC 388-97-0001. The number of days of social/therapeutic leave allowed for medicaid residents and the authorization process is found under WAC 388-97-0160; and

(c) That a medicaid eligible resident may be charged if he or she requests that a specific bed be held, but may not be charged a bed-hold fee for the right to return to the first available bed in a semi-private room.

(5) The nursing facility must send a copy of the federally required transfer or discharge notice to:

(a) The department's home and community services when the nursing home has determined under WAC 388-97-0100, that the medicaid resident's health has improved sufficiently so that the resident no longer needs the services provided by the facility; and

(b) The department's designated local office when the transfer or discharge is for any of the following reasons:

(i) The resident's needs cannot be met in the facility;

(ii) The health or safety of individuals in the facility is endangered; or

(iii) The resident has failed to pay for, or to have paid under medicare or medicaid, a stay at the facility.

AMENDATORY SECTION (Amending WSR 20-03-103, filed 1/15/20, effective 2/15/20)

WAC 388-97-0140 Transfer and discharge appeals for resident in medicare or medicaid certified facilities. (1) A skilled nursing facility and a nursing facility that initiates transfer or discharge of any resident, regardless of payor status, must:

(a) Provide the required written notice of transfer or discharge to the resident and, if known or appropriate, to a family member or the resident's representative;

(b) Attach a department-designated hearing request form to the transfer or discharge notice;

(c) Inform the resident in writing, in a language and manner the resident can understand, that:

(i) An appeal request may be made any time up to ninety days from the date the resident receives the notice of transfer or discharge; and

(ii) Transfer or discharge will be suspended when an appeal request is received by the office of administrative hearings on or before the date the resident actually transfers or discharges unless the failure to discharge or transfer would endanger the health or safety of the resident or other individuals in the facility (the facility must document the danger that failure to transfer or discharge would pose); and

(iii) The nursing home will assist the resident in requesting a hearing to appeal the transfer or discharge decision.

(2) A skilled nursing facility or nursing facility must suspend transfer or discharge pending the outcome of the hearing when the resident's appeal is received by the office of administrative hearings on or before the date of the transfer or discharge set forth in the written transfer or discharge notice, or before the resident is actually transferred or discharged unless the failure to discharge or transfer would endanger the health or safety of the resident or other individuals in the facility. The facility must document the danger that failure to transfer or discharge would pose.

(3) The resident is entitled to appeal the skilled nursing facility or nursing facility's transfer or discharge decision. The appeals process is set forth in chapter 182-526 WAC and this chapter. In such appeals, the following will apply:

(a) In the event of a conflict between a provision in this chapter and a provision in chapter 182-526 WAC, the provision in this chapter will prevail;

(b) The resident must be the appellant and the skilled nursing facility or the nursing facility will be the respondent;

(c) The department must be notified of the appeal and may choose whether to participate in the proceedings. If the department chooses to participate, its role is to represent the state's interest in assuring that skilled nursing facility and nursing facility transfer and discharge actions comply substantively and procedurally with the law and with federal requirements necessary for federal funds;

(d) If a medicare certified or medicaid certified facility's decision to transfer or discharge a resident is not upheld, and the resident has been relocated, the resident has the right to readmission immediately upon the first available bed in a semi-private room if the resident requires and is eligible for the services provided by a nursing facility or skilled nursing facility;

(e) Any review of the administrative law judge's initial decision shall be conducted under chapter 182-526 WAC.

WSR 22-08-068
EMERGENCY RULES
DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

[Filed April 4, 2022, 4:34 p.m., effective April 7, 2022]

Effective Date of Rule: April 7, 2022.

Purpose: The department is extending the amendment of the rule listed below to assure [ensure] nursing homes are not significantly impeded from admitting and caring for residents during the COVID-19 epidemic [pandemic]. These amendments align state nursing home rules with federal rules that were suspended or amended to help facilitate care during the COVID-19 pandemic. The federal rules were amended to allow nursing facilities to provide clinical records to residents and resident representatives in 10 working days instead of two working days. Current state rules specify clinical records be accessible to residents and their representatives for review within 24 hours and copies must be provided within two working days. The amendment lengthens the time nursing homes have to provide the resident access to, or copies of the requested clinical record, from two to 10 days. The amendment does not permit the nursing facility to deny the resident access to records. The department filed a CR-101 Preproposal under WSR 20-19-009. In addition, under the rule development phase of rule making, the department continues discussions with interested parties about adding language to the rules to explain the circumstances and time periods under which suspension of rules due to COVID[-19] is necessary.

Citation of Rules Affected by this Order: Amending WAC 388-97-0300.

Statutory Authority for Adoption: RCW 74.42.620.

Other Authority: Chapter 74.34 RCW.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The continued threat of COVID-19 to our most vulnerable populations is significant, especially for those receiving long-term care services in their homes and congregate settings, such as long-term care facilities. Under nursing home rules, residents have the right to access and review their clinical record. Access to the record must be provided within 24 hours and if the resident or resident representative requests a copy of the record, it must be provided within two working days. The emergency rule lengthens the time nursing homes have to provide the resident access to, or copies of the requested clinical record. The amendment does not permit the nursing facility to deny the resident access to records. This amendment provides flexibility for nursing homes to prioritize direct care over nondirect care tasks while maintaining the resident's right to access their records.

WSR 22-08-073
EMERGENCY RULES
SECRETARY OF STATE

[Filed April 5, 2022, 10:33 a.m., effective April 5, 2022, 10:33 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this rule is to prevent access to vote tabulation systems, preserve vote counting system security, and preventing tampering or disclosure of information that may increase risk to the integrity of election operations.

Citation of Rules Affected by this Order: Amending WAC 434-335-260.

Statutory Authority for Adoption: RCW 29A.04.230, 29A.04.611, 29A.12.190, 29A.12.200, 42.56.420.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The transparency and integrity of elections are at the heart of self-governance and the general welfare. Chapter 29A.12 RCW speaks to the requirements, criteria, testing, certification, and decertification for voting systems. Unauthorized access to a voting system certified for use in the state of Washington constitutes a security breach that could affect the integrity of the election process. Immediate adoption of this rule is necessary to preserve the transparency and integrity of elections.

Date Adopted: April 5, 2022.

Randy Bolerjack
Deputy Secretary of State

OTS-3705.1

AMENDATORY SECTION (Amending WSR 05-18-022, filed 8/29/05, effective 9/29/05)

WAC 434-335-260 Decertification of voting systems and vote tabulating systems. (1) The secretary of state may decertify a voting system or vote tabulating system or any component thereof and withdraw authority for its future use or sale in Washington if, at any time after certification the secretary of state determines that:

(a) The system or component fails to meet the standards set forth in applicable federal guidelines or state statutes or rules;

(b) The system or component was materially misrepresented in the certification application; ((~~or~~))

(c) The applicant has installed unauthorized modifications to the certified software or hardware; or

(d) The system or component was operated or accessed in Washington state at any time by anyone other than an authorized staff member of the office of the secretary of state, an authorized individual employed by the county that has been delegated any task under RCW 29A.60.140(2), for the purposes of preparation, maintenance, and oper-

ation under RCW 29A.12.060, an independent testing authority designated by the United States election assistance commission, or an independent testing authority and the test plan has received approval by both the county auditor and secretary of state.

(i) County auditors shall not provide physical, electronic, or internal access to third parties seeking to copy and/or conduct an examination of state-certified voting systems, or any components of such systems including, but not limited to: Voting software and systems, tabulators, scanners, counters, automatic tabulating equipment, voting devices, servers, ballot marking devices, paper ballot printers, portable memory media devices, and any other hardware, software, or devices being used as part of the voting system.

(ii) If access described in (d)(i) of this subsection occurs, those pieces of voting equipment will be considered no longer secure or reliable to use in subsequent elections. As a result, the incidents will be treated as a security breach under RCW 29A.12.180 and the office of the secretary of state may decertify the use of the system or component.

(2) The secretary of state must provide written notice of intent to decertify to the original applicant or its successor, if known, to all county auditors, and to the public. The notice must specify the reasons why the certification of the system may be rescinded. The applicant or successor or any county auditor may, within thirty days after the issuance of the notice, file with the secretary of state a written explanation as to why the system or component should not be decertified. The secretary of state may extend or shorten the time for filing of a written explanation for good cause. After reviewing the explanation, the secretary of state may either discontinue the decertification process, in which case the system or component remains certified, or schedule a public hearing pursuant to subsection (3) of this section. If no explanation is timely filed, the secretary of state may either discontinue the decertification process or issue a final order pursuant to subsection (4) of this section.

(3) A decertification proceeding shall constitute an adjudicative proceeding pursuant to chapter 34.05 RCW.

(a) The secretary of state adopts the model rules of procedure as set forth in chapter 10-08 WAC, except as they may be inconsistent with this chapter. The proceeding may be conducted as an emergency adjudicative proceeding pursuant to RCW 34.05.479 if the secretary of state finds that immediate action is required to preserve the integrity of the electoral process.

(b) The secretary of state shall designate the presiding officer.

(c) The certification remains valid pending resolution of the administrative proceeding, unless the secretary of state finds, following notice and opportunity for written or oral input, which may be expedited, that the public interest requires that the decertification should take effect on a temporary basis pending hearing.

(d) The argument in favor of decertification may be presented by an employee of the secretary of state or by an assistant attorney general. Other parties may be represented by a certified election administrator or by any person permitted to appear by ~~((WAC 434-180-560))~~ the county auditor.

(4) The presiding officer or secretary shall enter an order specifying the system or component at issue, whether or not it is decertified, the effective date of any decertification, and explain the basis for the decision. The effective date of decertification shall not be less than five days after the entry of the order, but may be delayed

to any reasonable date. An order issued by the secretary pursuant to subsection (2) of this section is a final order. An order issued by the presiding officer is regarded as an initial order unless the secretary of state, assistant secretary of state, deputy secretary of state, or director of elections presides, in which case the decision of the presiding officer shall be final and no further review is available within the agency.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 22-51—Filed April 5, 2022, 2:54 p.m., effective April 9, 2022]

Effective Date of Rule: April 9, 2022.

Purpose: Amends recreational Puget Sound salmon rules for Marine Area 5.

Citation of Rules Affected by this Order: Amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is needed to close salmon retention in waters of Marine Area 5. Current catch totals in Marine Area 5 have likely exceeded preseason fishery regulation assessment model projected catch. High effort and high catch per angler have led to higher than predicted harvest in the month of March. Due to ongoing concerns for numerous stocks in the Puget Sound, Washington department of fish and wildlife needs to take a conservation-minded approach to managing this fishery. There is insufficient time to adopt permanent rules.

EMERGENCY RULES
DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

(Aging and Long-Term Support Administration)

[Filed April 6, 2022, 11:32 a.m., effective April 6, 2022, 11:32 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The department is requiring long-term care workers (LTCW) to complete training requirements by certain dates that would potentially be before the suspension of the training requirements ends. The department is dividing the group of LTCWs, who are working now and started within 120 days of when the suspension went into place in early 2020, into cohorts based on length of time working. The rule would then require each cohort to complete the requirements by deadlines in rule with the "oldest" LTCWs having the first deadline and then working through the groups chronologically. This emergency filing cancels and supersedes the emergency filed as WSR 22-04-008 on January 21, 2022.

Citation of Rules Affected by this Order: New WAC 388-71-0876, 388-71-0992, 388-112A-0081, and 388-112A-0613.

Statutory Authority for Adoption: RCW 74.08.090, 74.09.520.

Other Authority: ESHB 1120.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: LTCWs are required to complete certain training requirements within specific deadlines. The passage of ESHB 1120 during the 2021 legislative session, the suspension of training requirements deadlines will end when the public health emergency ends or if the governor or the legislature acts. The department anticipates that the end of the suspension of LTCW training requirements would create a sudden surge in demand for training that would likely exceed capacity of training entities and result in LTCWs failing to complete the requirements in time.

(4) If a long-term care worker is limited-English proficient, the worker may request an additional 60 days to obtain certification.

(5) Nothing in this section prevents a long-term care worker hired between 8/17/2019 and 9/30/2022 from completing training or obtaining certification in advance of the deadlines stipulated in subsections (1) or (2) of this section.

NEW SECTION

WAC 388-71-0992 When must continuing education be completed when public health emergency waivers are lifted, and what continuing education credit is granted to long-term care workers employed during the pandemic? (1) The department finds that long-term care workers employed during the COVID-19 pandemic between March 1, 2020, and February 28, 2021, required emergent and intensive on-the-job training. Long-term care workers received critical, ongoing training in such topics as:

- (a) Donning and doffing personal protective equipment (PPE);
- (b) Hand hygiene;
- (c) Disinfection of high-touch surfaces;
- (d) Managing visitations and physical distancing;
- (e) Responding to newly infected residents;
- (f) Promotion of vaccination;
- (g) Protocols for quarantine;
- (h) Use of cloth face coverings;
- (i) Personal protection outside of the work environment; and
- (j) How to reduce exposure and spread.

(2) This on-the-job training was required of all workers in all long-term care environments in Washington state. Instruction was provided in assisted living facilities, adult family homes, homecare agencies, enhanced services facilities, certified community residential services, and to individual providers by the SEIU775 benefits group and DSHS to discuss infection control and the availability and distribution of personal protective equipment. Recognition of this training as a valid learning experience, in its various forms, was agreed upon with input from consumer and worker representatives, as the content was based on guidelines established by the Centers for Disease Control (CDC) and other federal, state, and local health care authorities.

(3) During this time, long-term care workers required ongoing critical training because guidance from the CDC, department of labor and industries, and other health authorities changed as more was learned about the SARS-CoV-2 virus. The department finds that this unprecedented on-the-job training constituted at least 12 hours of continuing education between March 1, 2020, and February 28, 2021, and that this training is not considered to be repeated training as described in WAC 388-112A-0600(2).

(4) All long-term care workers employed during the dates in section (3) of this section are granted 12 hours of DSHS-approved continuing education credit for the training entitled "COVID-19 On-The-Job Training Protocols," bearing the DSHS approval code CE2135218. No physical certificate for this training will be issued or required. The COVID-19 continuing education hours may be applied to renewal periods ending no earlier than March 1, 2020, and no later than December 31, 2021.

(5) The department recognizes that long-term care workers may not have completed training hours in excess of the 12 hours of CE granted in section (4) of this section due to the COVID-19 public health emergency. All long-term care workers shall have until December 31, 2022, or 120 days from the end of the COVID-19 training waivers established by gubernatorial proclamation, whichever is later, to complete any additional CE that may have become due while training waivers were in place in excess of the 12 hours of CE granted in subsection (4) of this section. If a worker's next birthday allows fewer than 120 days after the waivers are lifted to complete required CE for their current renewal cycle, the worker will have 120 days from the end of training waivers to complete the required CE.
