PUBLIC NOTICE

Announcing the Safer Products for Washington Report to the Legislature on Regulatory Determinations

This notifies the public that the Washington department of ecology's (ecology) safer products for Washington program published the final report to the legislature on regulatory determinations. The report on regulatory determinations is available on the ecology website at <https://apps.ecology.wa.gov/publications/summarypages/2204018.html>.

Ecology published a draft report on November 17, 2021, and held a 75-day public comment period ending January 28, 2022, to allow stakeholders and the public to review and comment on the draft regulatory determinations. After considering over 700 comments received on the draft report, ecology conducted additional research and consulted with the Washington department of health.

Based on this additional work, our regulatory determinations are restrictions on the following chemical-product combinations:

- Organohalogen flame retardants in external plastic device casings for electric and electronic products intended for indoor use.
- Organohalogen and organophosphate flame retardants in chapter 70A.430 RCW in recreational polyurethane:
 - Uncovered foam
 - Covered floor mats
 - Covered flooring
 - Outdoor recreational products
- PFAS in:
 - Carpets and rugs
 - Indoor leather and textile furniture and furnishings
 - Aftermarket stain- and water-resistance treatments for leather and textile products
- Bisphenols in:
 - Thermal paper
 - Drink can linings
- APEs in laundry detergent.
- Ortho-phthalates in:
 - Vinyl flooring
 - Fragrances used in personal care and beauty products

Our regulatory determinations are reporting requirements for the following chemical-product combinations:

- Organohalogen flame retardants in external plastic device casings for electric and electronic products intended for outdoor use.
- Organohalogen and organophosphate flame retardants listed in chapter 70A.430 RCW in recreational polyurethane covered wall padding.
- PFAS in outdoor leather and textile furniture and furnishings.
- Bisphenols in food can linings.

Identification of peer-reviewed science and other sources of information: Find this information in the citation list in Appendix B within the report to the legislature, ecology publication #22-04-018.

Rule-making process: To implement these regulatory determinations, ecology will use a rule-making process in accordance with the

Administrative Procedure Act. Ecology will develop new chapter 173-337 WAC, Safer products restrictions and reporting. This rule aims to reduce toxic chemicals in consumer products. See more on the safer products for Washington rule-making web page <https://ecology.wa.gov/SaferProductsRule>.

HEALTH CARE AUTHORITY

[Filed June 13, 2022, 3:14 p.m.]

NOTICE

Title or Subject: Section 1115 Family Planning Only Demonstration Waiver Extension Application.

Effective Date: July 1, 2023.

Description: The health care authority (agency) intends to submit an application to extend the Section 1115 Family Planning Only Demonstration Waiver for five years (through July 2028). The current waiver expires on June 31, 2023. It covers limited family planning and family planning-related services for people who identify as women, men, and gender fluid who are in need of contraceptive care and are enrolled in the family planning only programs.

The purpose, client eligibility requirements, and benefit package will remain the same. The only potential change is the elimination of the family planning pregnancy-related program, due to the implementation of the after-pregnancy coverage program. This change will take effect when the end of the federal public health emergency (PHE) is declared. There is currently no established end date for the PHE.

The purpose of the family planning only program is to:

- Assure [Ensure] access to family planning services.
- Decrease unintended pregnancies and births.
- Lengthen intervals between births.
- Reduce state and federal medicaid expenditures for averted births from unintended pregnancies.

The following groups are eligible for services under the family planning only program:

- Recently pregnant people who lose medicaid coverage after their pregnancy coverage ends. These people are automatically enrolled for 10 months.¹
- Uninsured people with family incomes at or below 260 percent federal poverty level (FPL), seeking to prevent an unintended pregnancy.
- Teens and domestic violence victims who need confidential family planning services and are covered under their perpetrator's or parent's health insurance and are at or below 260 percent FPL.

¹ This eligibility group will be eliminated once the PHE ends and then this group will be eligible for the after-pregnancy coverage benefit which provides 12 months of full-scope apple health (medicaid) benefits to people who have had a pregnancy within 12 months.

Family planning coverage under the waiver is for a 12-month duration starting on the first day of the month the application was signed. Applications are available on the agency website or any apple health provider that offers family planning services who can assist with the completion of the application.

The family planning only program provides the following services on a fee-for-service basis: FDA-approved contraceptives; natural family planning; over-the-counter contraception; emergency contraception; sterilization; contraceptive education, counseling and management; limited STD testing and treatment related to the safe and effective use of the chosen contraceptive method; cervical cancer screening according to the national clinical guidelines when associated with a family planning visit; and office visits and limited ancillary serv-

ices related to the above services. There are no cost-sharing requirements to receive services under this program.

There may be decreases in annual aggregate expenditures or enrollment due to the end of the PHE and implementation of the after-pregnancy coverage program. Based on demonstration year (DY) 2020, we expect approximately 8,000 enrollees and 1,400 participants with an expenditure of \$300,000 (DY 2021) for each year of the five-year renewal period.²

² These totals do not consider the loss of the family pregnancy-related group due to the implementation of the after-pregnancy coverage program.

The demonstration waiver will test the hypotheses that by maintaining the family planning only program: (1) Access to family planning services will remain available to people who otherwise may not have access; (2) health outcomes will improve or maintain for the waiver population; and (3) the unintended pregnancy rate in Washington state will remain stable or continue to decrease. The state expects that over the five years of the renewal period, the state will have decreased costs due to averted births from unintended pregnancy.

These hypotheses will be measured by evaluating enrollment in the family planning only program, contraceptive methods chosen, Pregnancy Risk Assessment Monitoring System (PRAMS) data, birth certificates, and claims data. Due to small sample sizes, the evaluation may be limited to descriptive analysis.

The demonstration's expenditure authority falls under the state's Title XIX medicaid state plan and Section 1115 (a)(2) of the Social Security Act. Requirements not applicable to the expenditure authorities are:

1. Methods of Administration: Transportation: Section 1902 (a)(4) insofar as it incorporates 42 C.F.R. 431.53. To the extent necessary to enable the state to not assure [ensure] transportation to and from providers for the demonstration population.

2. Amount, Duration, and Scope of Services (Comparability): Section 1902 (a)(10)(B). To the extent necessary to allow the state to offer the demonstration population a benefit package consisting only of family planning services and family planning-related services.

3. Prospective Payment for Federally Qualified Health Centers and Rural Health Centers and Rural Health Clinics: Section 1902 (a)(15). To the extent necessary for the state to establish reimbursement levels to these clinics that will compensate them solely for family planning and family planning-related services.

4. Eligibility Procedures: Section 1902 (a)(17). To the extent necessary to allow the state to not include parental income when determining a minor's (a person under age 18) eligibility for the family planning demonstration. To the extent necessary to allow the state to not require reporting of changes in income or household size for 12 months, for a person found income-eligible upon application or annual redetermination when determining eligibility for the family planning demonstration.

5. Retroactive Coverage: Section 1902 (a)(34). To the extent necessary to enable the state to not provide medical assistance to the demonstration population for any time prior to the first of the month in which an application for the demonstration is made.

6. Early and Periodic Screening, Diagnostic, and Treatment (EPSDT): Section 1902 (a)(43)(A). To the extent necessary to enable the state to not furnish or arrange for EPSDT services to the demonstration population.

A link to the full public notice for the family planning only demonstration waiver extension application can be found at www.hca.wa.gov/family-planning. The agency updates this web page regularly.

AGENDA

DEPARTMENT OF
FINANCIAL INSTITUTIONS

[Filed June 14, 2022, 1:45 p.m.]

**Semi-Annual Agenda for Rules under Development
July 1 - December 31, 2022****DIVISION OF CONSUMER SERVICES**

- Consumer Loan Act. Finalize and adopt rules under chapter 208-620 WAC to amend the current rules to implement the legislative changes (chapter 15, Laws of 2021 - SB 5077) that now allow mortgage loan originators (MLOs), under certain conditions, to work from home locations without requiring the sponsoring company of the MLOs to license the home location as a branch of the company.
- Mortgage Broker Practices Act. Finalize and adopt rules under chapter 208-660 WAC to amend the current rules to implement the legislative changes (chapter 15, Laws of 2021 - SB 5077) that now allow MLOs, under certain conditions, to work from home locations without requiring the sponsoring company of the MLOs to license the home location as a branch of the company.

DIVISION OF SECURITIES

- Amendments to SCOR rules in chapter 460-17A WAC. The small company offering registration rules set forth in chapter 460-17A WAC are based on a statement of policy adopted by the North American Securities Administrators Association (NASAA). NASAA amended this statement of policy on May 19, 2019. The securities division plans to amend its related rules in chapter 460-17A WAC to align with the updated NASAA statement of policy.
- Repeal of the mortgage paper securities registration rules in chapter 460-33A WAC. The rules set forth in chapter 460-33A WAC provide an optional method of registration for offerings of mortgage paper securities. An offering has not been registered under these rules since 2013. Changes in federal laws since that time eliminate the utility of these rules. Accordingly, the securities division plans to repeal these rules.
- Amendments to securities broker-dealer rules in chapters 460-20B, 460-21B, 460-21C, and 460-22B WAC. The rules in these chapters apply to securities broker-dealers and their representatives. Many of the rules in these chapters have not been updated in more than two decades. The securities division plans to propose amendments to these rules to bring them up-to-date with federal rules, incorporate NASAA model rules, and describe application filing procedures and requirements, among other possible updates.

DEPARTMENT OF ECOLOGY

[Filed June 22, 2022, 10:09 a.m.]

CALL FOR DATA FOR
THE WASHINGTON STATE 2022 WATER QUALITY ASSESSMENT

The Washington state department of ecology (ecology) is seeking data to include in our next statewide water quality assessment (assessment). The assessment fulfills Washington state's obligation under the Clean Water Act to identify polluted waters (known as the §303(d) list) as well as report on the status of water quality in the state (called the §305(b) Report).

The assessment is developed using readily available water quality data and information to determine the status of water quality for a given waterbody segment. For more information on the assessment, view our water quality assessment web page at ecology.wa.gov/303d.

Ecology is seeking new water quality data collected between January 1, 2012, and December 31, 2021, during this "call for data." **The call for data window closes on September 30, 2022.** To ensure inclusion of your data in the next assessment, please submit data before this date. Ecology will only use scientifically credible data for the assessment. All data submitted must have been collected in accordance with a quality assurance project plan, or equivalent guidance document, and must be representative of ambient water quality conditions. Persons submitting data must be able to attest that quality assurance procedures were followed and must provide ecology with a copy of the plan upon request. **Data previously submitted to ecology does not need to be submitted again.**

Please submit numeric data to ecology's environmental information management system (EIM). Submit relevant nonnumeric data, such as published research or peer-reviewed reports, directly to assessment staff at 303d@ecy.wa.gov.

Following the closure of the call for data window on September 30, 2022, ecology will begin reviewing and analyzing data for use in the 2022 assessment. We anticipate a draft will be available for public review in early 2024.

Information on submitting water quality data to EIM is available on ecology's website at ecology.wa.gov/eim. Please direct questions on EIM to Kristen Slodysko, EIM coordinator, at eimwqp@ecy.wa.gov or phone 360-972-5509.

If you have questions on the assessment process or would like to schedule a meeting to discuss data submittal options, please contact Jeremy Reiman, water quality assessment scientist, at 303d@ecy.wa.gov or phone 360-819-0197.
