Original Notice.

Preproposal statement of inquiry was filed as WSR 22-18-049 on August 30, 2022.

Title of Rule and Other Identifying Information: Periodic status review: Columbian white-tailed deer. WAC 220-200-100 and 220-610-010.

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: Due to conservation gains, in particular the success of translocated populations, Columbian white-tailed deer may no longer meet the definition of endangered in the state of Washington. We propose changing their classification to threatened to better align with the definition, reflect the reduced conservation concern, and highlight the success.

Reasons Supporting Proposal: We are no longer uncertain about the viability of the Ridgefield subpopulation given the encouraging projections of the viability assessment for the subpopulation. We are now much more confident that the deer at Ridgefield have established into a viable subpopulation with significant growth potential.

With this development, we believe the lower Columbia River population no longer fits the definition of endangered as it is no longer under serious threat of extinction (WAC 220-610-010).

The Washington department of fish and wildlife (WDFW) thus recommends reclassifying the Columbian white-tailed deer to threatened.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.055, 77.12.047, and 77.08.030.

Statute Being Implemented: RCW 77.04.012, 77.04.055, 77.12.047, and 77.08.030.

Rule is not necessitated by federal law, federal or state court decision.
