EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 23-03—Filed January 11, 2023, 1:33 p.m., effective January 12, 2023]

Effective Date of Rule: January 12, 2023.

Purpose: The purpose of this emergency rule is to close sturgeon retention in the Bonneville Pool.

Citation of Rules Affected by this Order: Repealing WAC 220-312-06000F; and amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to close the recreational white sturgeon retention season in the Bonneville Reservoir. It is projected that the 2023 Bonneville Reservoir harvest guideline of 675 fish may be exceeded if the fishery were to continue beyond January 11. These populations are managed under sustainable harvest guidelines and this action will keep harvest within that guideline. This action is consistent with decisions made by the states of Washington and Oregon during Columbia River compact hearings on November 9, 2022, and January 10, 2023.

The general public welfare is protected with the immediate and limited duration opening of recreational sturgeon fishing. This limited harvest allows for public use of the resource, as well as the maintenance of a sustainable fish population. There is insufficient time to adopt permanent rules.
