[Filed June 6, 2023, 11:38 a.m., effective August 1, 2023]

Effective Date of Rule: August 1, 2023.

Purpose: This rule making is necessary to incorporate ESHB 1023, 2020 regular session, into the rules. AMENDATORY SECTION (Amending WSR 20-12-021, filed 5/27/20, effective 6/27/20)

WAC 480-123-020 Definitions. As used in this chapter:

"Applicant" means any person applying to an eligible telecommunications carrier for new service or reconnection of discontinued service.

"Broadband service" means any service providing advanced telecommunications capability, including internet access and access to high quality voice, data, graphics or video. To be considered advanced telecommunications, broadband must be at, or above, a minimum download speed and a minimum upload speed. The commission will establish a minimum upload speed standard and a minimum download speed standard for broadband service to be considered advanced telecommunications. The commission will take federal and state standards into consideration when it sets the standard. Any broadband standards that are established in these rules or by commission order may be met by the communications provider or its affiliate or a combination of both. The affiliate cannot be receiving support from this program.

"Communications provider" or "provider" means a company providing communications service that assigns a working telephone number to a final consumer for intrastate wireline or wireless communications services or interconnected voice over internet protocol service, and includes local exchange carriers.

"Communications services" includes telecommunications services and information services and any combination of these services.

"Eligible telecommunications carrier" and "ETC" means a carrier designated by the commission as eligible to receive support from federal universal service mechanisms in exchange for providing services supported by federal universal service mechanisms.

"Facilities" means for the purpose of WAC 480-123-030 (1)(b) any physical components of the telecommunications network that are used in the transmission or routing of the services that are supported by federal universal service mechanisms.

".shp format" means the format used for creating and storing digital maps composed of shape files capable of being opened by the computer application ArcGIS™.

"Program" means the state universal communications services program created in RCW 80.36.650.

"Service area" means all of the designated exchanges served by a company in the state.

"Service outage" means a significant degradation in the ability of an end user to establish and maintain a channel of voice communications as a result of failure or degradation in the performance of a communications provider's network.

"Substantive" means sufficiently detailed and technically specific to permit the commission to evaluate whether federal universal service support has had, or will have, benefits for customers. For example, information about investments and expenses that will provide, increase, or maintain service quality, signal coverage, or network capacity, and information about the number of customers that benefit, and how they will benefit is sufficient to enable evaluation.

~~("Sworn statement" means a statement made under penalty of perjury, as set forth in RCW 9A.72.085.)~~

"Telecommunications" has the same meaning as defined in 47 U.S.C. Sec. 153(43).

"Unsworn statement" means a statement made under penalty of perjury, as set forth in RCW 5.50.050.

Most HPAs issued by the department are standard HPAs. Guidance for applying for an HPA is provided on the department's website.

(b) HPAs do not exempt a person from obtaining other necessary permits and following the rules and regulations of local, federal, and other Washington state agencies.

(2) **Fish life concerns:** Construction and other work activities in or near water bodies can kill or injure fish life directly and can damage or destroy habitat that supports fish life. Damaged or destroyed habitat can continue to cause lost fish life production for as long as the habitat remains altered. HPAs help ensure construction and other work is done in a manner that protects fish life.

(3) **Standard HPA:**

(a) The department issues a standard HPA when a hydraulic project does not qualify for an emergency, imminent danger, chronic danger, expedited or pamphlet HPA. An individual standard HPA is limited to a single project site. Some special types of standard HPAs may cover multiple project sites.

(b) Special types of standard HPAs:

(i) Fish habitat enhancement project (FHEP) HPA.

(A) Projects must satisfy the requirements in RCW 77.55.181(1) to be processed as a fish habitat enhancement project.

(B) Projects that are compensatory mitigation for a development or other impacting project are not eligible. This includes proposals for mitigation banks or in-lieu fee mitigation proposals. The sole purpose of the project must be for fish habitat enhancement.

(C) The department may reject an FHEP proposed under RCW 77.55.181 if the local government raises concerns during the comment period that impacts from the project cannot be mitigated by conditioning the HPA. The department will reject an FHEP if the department determines that the size and the scale of the project raises public health or safety concerns. If the department rejects a project for streamlined processing, the department must provide written notice to the applicant and local government within forty-five days of receiving the application.

(D) An applicant whose fish habitat enhancement project is rejected may submit a new complete written application with project modifications or additional information required for streamlined processing. An applicant may request that the department consider the project under standard HPA processing procedures by submitting a new complete written application for standard processing.

(ii) Multisite HPA.

(A) A standard HPA may authorize work at multiple project sites if:

(I) All project sites are within the same water resource inventory area (WRIA) or tidal reference area;

(II) The primary hydraulic project is the same at each site so there is little variability in HPA provisions across all sites; and

(III) Work will be conducted at no more than five project sites to ensure department staff has sufficient time to conduct site reviews.

(B) The department may make an exception for projects the department has scoped prior to application submittal or when no prepermit issuance site visits are needed.

(iii) General HPA.

(A) The department may issue general HPAs to government agencies, organizations, or companies to perform the same work in multiple water bodies across a large geographic area.

(B) To qualify for a general HPA, projects must protect fish life:

(I) Technical provisions in the HPA must fully mitigate impacts to fish life;

(II) The projects must be relatively simple so that the HPA provisions are the same across all sites, and can therefore be permitted without site-specific provisions; and

(III) The projects must have little or no variability over time in site conditions or work performed.

(C) The general HPA will include a requirement that notice be given to the department when activities utilizing heavy equipment begin. The department may waive this requirement if the permittee and department meet annually to review scheduled activities for the upcoming year.

(D) The department and the applicant may negotiate the scope and scale of the project types covered. The department and the applicant must agree on the fish protection provisions required before the application is submitted.

(E) The department may reject applications for a general HPA if:

(I) The proposed project does not meet the eligibility requirements described in subsection (3)(b)(iii)(B) of this section; or

(II) The department and the applicant cannot agree on the fish protection provisions.

(F) The department must provide written notice of rejection of a general HPA application to the applicant. The applicant may submit a new complete written application with project modifications or additional information required for department consideration under standard HPA processing procedures.

(iv) "Model" HPA.

(A) The department will establish a "model" HPA application and permitting process for qualifying hydraulic projects. To qualify, an individual project must comply with the technical provisions established in the application. Hydraulic projects that qualify for the model process must:

(I) Fully mitigate impacts to fish life in the technical provisions of the HPA;

(II) Be a low complexity project that minimizes misinterpretation of the HPA provisions allowing the HPA to be permitted without site-specific provisions; and

(III) Meet all of the eligibility requirements described in the model application.

(B) If needed to confirm project eligibility, the department may conduct a site visit before approving or rejecting a model application.

(C) The department may reject applications for model HPAs if:

(I) The plans and specifications for the project are insufficient to show that fish life will be protected; or

(II) The applicant or authorized agent does not fill out the application completely or correctly.

(D) The department must provide written notice of rejection of an application to the applicant. The applicant may submit a new complete written application with project modifications or additional information required for department consideration under standard HPA processing procedures under this section, or may submit a new model applica-

tion if the department rejected the application because the person did not fill out the original application correctly.

(4) **Emergency HPA:**

(a) Declaring an emergency.

(i) Authority to declare an emergency, or continue an existing declaration of emergency, is conveyed to the governor, the department, or to a county legislative authority by statute. An emergency declaration may be made when there is an immediate threat to life, the public, property, or of environmental degradation;

(ii) The county legislative authority must notify the department, in writing, if it declares an emergency;

(iii) Emergency declarations made by the department must be documented in writing;

(iv) When an emergency is declared, the department must immediately grant verbal approval upon request for work to protect life or property threatened by waters of the state because of the emergency, including repairing or replacing a stream crossing, removing obstructions, or protecting stream banks. The department may also grant written approval if the applicant agrees.

(b) If the department issues a verbal HPA, the department must follow up with a written HPA documenting the exact provisions of the verbal HPA within thirty days of issuing the verbal HPA.

(c) Compliance with the provisions of chapter 43.21C RCW (State Environmental Policy Act) is not required for emergency HPAs.

(d) The department may require a person to submit an as-built drawing within thirty days after the hydraulic project authorized in the emergency HPA is completed.

(e) Within ninety days after a hydraulic project authorized in an emergency HPA is completed, any remaining impacts must be mitigated or a mitigation plan must be submitted to the department for approval.

(5) **Imminent danger HPA:**

(a) Authority to declare imminent danger is conveyed to the department or county legislative authority by statute. The county legislative authority must notify the department in writing if it determines that an imminent danger exists.

(b) Imminent danger declarations made by the department must be documented in writing.

(c) When imminent danger exists, the department must issue an expedited HPA upon request for work to remove obstructions, repair existing structures, restore banks, and to protect fish life or property.

(d) When imminent danger exists, and before starting work, a person must submit a complete written application to the department to obtain an imminent danger HPA. Compliance with the provisions of chapter 43.21C RCW (State Environmental Policy Act) is not required for imminent danger HPAs.

(e) Imminent danger HPAs must be issued by the department within fifteen calendar days after receiving a complete written application. Work under an imminent danger HPA must be completed within sixty calendar days of the date the HPA is issued.

(f) Within ninety days after a hydraulic project authorized in an imminent danger HPA is completed, any remaining impacts must be mitigated or a mitigation plan must be submitted to the department for approval.

(6) **Chronic danger HPA:**

(a) The department must issue a chronic danger HPA upon request for work required to abate the chronic danger. This work may include

removing obstructions, repairing existing structures, restoring banks, restoring road or highway access, protecting fish life, or protecting property.

(b) Authority to declare when a chronic danger exists is conveyed to a county legislative authority by statute. A chronic danger is a condition in which any property, except for property located on a marine shoreline, has experienced at least two consecutive years of flooding or erosion that has damaged or has threatened to damage a major structure, water supply system, septic system, or access to any road or highway.

(c) The county legislative authority must notify the department in writing when it determines a chronic danger exists.

(d) When chronic danger is declared, and before starting work, a person must submit a complete written application to the department to obtain a chronic danger HPA. Unless the project also satisfies the requirements for fish habitat enhancement projects identified in RCW 77.55.181 (1)(a)(ii), compliance with the provisions of chapter 43.21C RCW (State Environmental Policy Act) is required. Projects that meet the requirements in RCW 77.55.181 (1)(a)(ii), will be processed under RCW 77.55.181(3), and the provisions of chapter 43.21C RCW will not be required.

(7) **Expedited HPA:**

(a) The department may issue an expedited HPA when normal processing would result in significant hardship for the applicant or unacceptable environmental damage would occur.

(b) Before starting work, a person must submit a complete written application to the department to obtain an HPA.

(c) Compliance with the provisions of chapter 43.21C RCW (State Environmental Policy Act) is not required for expedited HPAs. The department must issue expedited HPAs within fifteen calendar days after receipt of a complete written application. Work under an expedited HPA must be completed within sixty calendar days of the date the HPA is issued.

(d) Within ninety days after a hydraulic project authorized in an expedited HPA is completed, any remaining impacts must be mitigated or a mitigation plan must be submitted to the department for approval.

(8) **Pamphlet HPA:**

(a) There are two pamphlet HPAs, *Gold and Fish* and *Aquatic Plants and Fish*, that cover the most common types of small scale mineral prospecting and removing or controlling aquatic plants, respectively. A person must follow the provisions in the pamphlet. If a person cannot follow the provisions, or disagrees with any provision, the permittee must apply for a standard HPA before starting the hydraulic project.

(b) A person must review a pamphlet HPA before conducting the authorized hydraulic project.

(c) When a pamphlet HPA is used, the permittee must have the pamphlet HPA on the job site when conducting work and the pamphlet must be immediately available for inspection by the department upon request.

(d) All persons conducting the project must follow all provisions of the pamphlet HPA.

(e) The department may grant exceptions to a pamphlet HPA only if a person applies for a standard individual HPA for the project.

(f) Pamphlet HPAs do not exempt a person from obtaining other appropriate permits and following the rules and regulations of local, federal, and other Washington state agencies.

(9) **How to get an HPA:**

(a) How to get a pamphlet HPA: A person can download and save or print a pamphlet HPA from the department's website. A person may also request a pamphlet HPA from the department either verbally or in writing.

(b) How to get an emergency HPA: Upon an emergency declaration, and before starting emergency work, a person must obtain a verbal or written HPA from the department. A complete written application is not required. However, a person must provide adequate information describing the proposed action. Compliance with the provisions of chapter 43.21C RCW (State Environmental Policy Act), is not required for emergency HPAs. A person may request a verbal or written emergency HPA from the biologist who issues HPAs for the geographic area where the emergency is located Monday through Friday from 8:00 a.m. to 5:00 p.m. If the biologist cannot be contacted or it is after business hours, a person must contact the emergency hotline at 360-902-2537 to request an emergency HPA.

(c) How to get a standard, expedited, or chronic danger HPA:

(i) A person must submit a complete written application to the department to obtain an HPA unless the project qualifies for one of the following:

(A) A pamphlet HPA, subsection (3) of this section; or

(B) An emergency HPA, subsection (5) of this section.

(ii) When applying for an HPA, a person must submit one of the following application forms to the department:

(A) The electronic online application developed by the department;

(B) The current version of the JARPA;

(C) The current version of the JARPA including the most recent version of the application for streamlined processing of fish habitat enhancement projects when applying for streamlined processing under RCW 77.55.181. These may be submitted to the department as attachments to the online application form;

The Washington department of transportation may omit the JARPA when applying for streamlined processing of fish habitat enhancement projects using the online application system;

(D) The most recent version of the model HPA application or other department-approved alternative applications available from the department's public website; or

(E) The current version of the JARPA if applying for approval of a watershed restoration project under RCW 77.55.171. This may be submitted to the department as an attachment to the online application form.

(iii) A complete application package for an HPA must contain:

(A) A completed application form signed and dated by the applicant, landowner(s) or landowner representative(s) of any project site or off-site mitigation location, and the authorized agent, if any. Completing and submitting the application forms through the department's online permitting system is the same as providing signature and date, if all documents required during the online application process are submitted to the department. The property owner, if different than the applicant, or easement holder must consent to the department staff entering the property where the project is located to inspect the project site or any work;

(B) Plans for the overall project;

(C) Complete plans and specifications for all aspects of the proposed construction or work waterward of the mean higher high water

line in salt water, or waterward of the ordinary high water line in fresh water;

(D) A description of the measures that will be implemented for the protection of fish life, including any reports assessing impacts from the hydraulic project to fish life and their habitat, and plans to mitigate those impacts to ensure the project results in no net loss;

(E) For a standard or chronic danger HPA application, a copy of the written notice from the lead agency demonstrating compliance with any applicable requirements of the State Environmental Policy Act under chapter 43.21C RCW, unless otherwise provided for in chapter 77.55 RCW; or the project qualifies for a specific categorical exemption under chapter 197-11 WAC;

(F) Written approval by one of the entities specified in RCW 77.55.181 if the applicant is proposing a fish enhancement project;

(G) For an expedited HPA application, an explanation of why normal processing would result in significant hardship for the applicant or unacceptable environmental damage.

(H) For a standard HPA application for mineral prospecting involving motorized or gravity siphon equipment, a copy of a permit issued under the federal Clean Water Act by Washington department of ecology that authorizes the use of that equipment at the location proposed, or written notice from Washington department of ecology declaring that a federal Clean Water Act permit is not required.

(I) When applying for a standard written HPA for mineral prospecting work within the wetted perimeter outside of the allowable work times authorized in WAC 220-660-300 and 220-660-305, a person must identify the upstream and downstream extent of each project location within a stream. The location of each site can be no greater than the length contained within a registered mining claim, if the project occurs on a claim, or one thousand three hundred linear feet of stream, if the project does not occur on a claim.

(iv) HPA application submission:

(A) A person must submit the complete application package by:

(I) Using the department's online permitting system;

(II) Sending the package via mail to:

Department of Fish and Wildlife
P.O. Box 43234
Olympia, WA 98504-3234;

(III) Sending the package via email to:
HPAapplications@dfw.wa.gov;

(IV) Sending the package via fax to: 360-902-2946;

(V) Uploading the package to a file transfer protocol site acceptable to the department; or

(VI) Hand delivering the package to the department at 1111 Washington Street S.E., Olympia, WA 98504, Habitat Program, Fifth Floor. The department will not accept applications submitted elsewhere or by other than the applicant or authorized agent.

(B) Dimensions of printed documents submitted with the application package may not be larger than eleven inches by seventeen inches. Pages of documents submitted may not be bound except by paper clips or other temporary fastening.

(C) A person must submit applications and supporting documents with a combined total of thirty or more pages as digital files rather than printed documents. All digital files must be in formats compati-

ble with Microsoft Word, Microsoft Excel, or Microsoft Access programs, or in PDF, TIFF, JPEG, or GIF formats.

(D) Applications submitted to the habitat program during normal business hours (8:00 a.m. to 5:00 p.m. Pacific Standard Time) are deemed received on the date the habitat program receives the application. The department may declare applications received by the habitat program after normal business hours as received on the next business day.

(10) Incomplete applications:

(a) Within ten days of receipt of the application, the department must determine whether an application meets the requirements of this section. If the department determines the application does not meet the requirements, the department will provide written or emailed notification of an incomplete application to the applicant or authorized agent. This written or emailed notification must include a description of information needed to make the application complete. The department may return the incomplete application to the applicant or authorized agent or hold the application on file until it receives the missing information. The department will not begin to process the application until it receives all information needed to complete the application.

(b) The applicant or authorized agent must submit additional information in response to a written notification of incomplete application through the department's online permitting system or to the department's habitat program, Olympia headquarters office. The department will not accept additional information submitted elsewhere or by other than the applicant or authorized agent.

(c) The department may close any application that has been incomplete for more than twelve months. The department must provide the applicant or authorized agent with written notification at least one week before closing the application and must provide the option for the applicant or authorized agent to postpone the closure for up to one year. The department must provide the applicant with written notification at the time it closes the application. After an application is closed, the applicant or authorized agent must submit a new complete application to receive further consideration of the project.

(d) The department may reject a standard HPA application for mineral prospecting involving motorized or gravity siphon equipment if the proposed project location or locations are in an area in which Washington department of ecology is prohibited under RCW 90.48.615 from issuing a permit under the federal Clean Water Act.

(11) Application review period:

(a) Once the department determines an application is complete, the department will provide to tribes and local, state, and federal permitting or authorizing agencies a seven-calendar-day review and comment period. The department will not issue the HPA before the end of the review period to allow all interested tribes and agencies to provide comments to the department. The department may consider all written comments received when issuing or provisioning the HPA. The review period is concurrent with the department's overall review period. Emergency, imminent danger, expedited, and modified HPAs are exempt from the review period requirement.

(b) Except for emergency, imminent danger, and expedited HPAs, the department will grant or deny approval within forty-five calendar days of the receipt of a complete written application. The department will grant approval of imminent danger and expedited HPAs within fifteen days of the receipt of a complete written application. The de-

partment will grant approval of emergency HPAs immediately upon request if an emergency declaration has been made.

For streamlined processing of Washington department of transportation fish passage barrier correction projects, the department will, within 30 days, either grant or deny approval, or make a determination that the streamlined review and approval process created by RCW 77.55.181 is not appropriate for the proposed project.

(c) If the department declares an imminent danger, applicant hardship, or immediate threat regarding an application for expedited or emergency HPA, the department must place written documentation of that declaration and justification for it in the application record within three days of issuing the written HPA.

(12) Suspending the review period:

(a) An applicant or authorized agent may request a delay in processing a standard HPA. The applicant or authorized agent must submit a written request for the delay through the department's online permitting system or to the habitat program's Olympia headquarters office. The department may not accept delay requests submitted elsewhere or by a person other than the applicant or authorized agent.

(b) If the department suspends the review period, the department must immediately notify the applicant in writing of the reasons for the delay. The department may suspend the review period (with or without the applicant's concurrence) if:

(i) The site is physically inaccessible for inspection or not in a condition to be evaluated (i.e., snow cover, frozen);

(ii) The applicant or authorized agent remains unavailable or unable to arrange for a field evaluation of the proposed project within ten working days of the department's receipt of the application;

(iii) The applicant or authorized agent submits a written request for a delay;

(iv) The department is issuing an HPA for a stormwater discharge and is complying with the requirements of RCW 77.55.161 (3) (b); or

(v) The department is reviewing the application as part of a multi-agency permit streamlining effort, and all participating permitting and authorizing agencies and the permit applicant agree to an extended timeline longer than forty-five calendar days.

(c) The department may close any application if the application has been delayed for processing more than twelve months for any of the reasons identified in subsection (12) (a) or (b) of this section. The department must provide the applicant or authorized agent with written notification at least one week before closing the application and must provide the option for the applicant or authorized agent to postpone the closure for up to one year. The department must provide the applicant with written notification at the time it closes the application. After an application is closed, the applicant or authorized agent must submit a new complete application to receive further consideration of the project.

(13) Issuing or denying a hydraulic project approval:

(a) Protection of fish life is the only grounds upon which the department may deny or provision an HPA, as provided in RCW 77.55.021. The department may not unreasonably withhold or condition approval of an HPA. The HPA provisions must reasonably relate to the project and must ensure that the project provides proper protection for fish life. The department may not impose provisions that attempt to optimize conditions for fish life that are out of proportion to the impact of the proposed project.

(b) The department may not deny an emergency, imminent danger, chronic danger, or an expedited HPA, as provided in RCW 77.55.021. However, these projects must comply with the provisions in this chapter that are included in an HPA. The department will deny any other type of HPA or request to change an existing HPA when the project will not protect fish life, unless enough mitigation can be assured by provisioning the HPA or modifying the proposal. If the department denies approval, the department must provide the applicant with a written statement of the specific reasons why and how the proposed project would adversely affect fish life, as provided in RCW 77.55.021.

(c) The department may place specific time limitations on project activities in an HPA to protect fish life.

(d) The department may require a person to notify the department before hydraulic project construction or other hydraulic project work starts, upon project completion, or at other times that the department deems necessary while the HPA is in effect. The department may also require a person to provide periodic written reports to assess HPA compliance.

(e) The HPA must contain provisions that allow for minor modifications to the work timing, plans, and specifications of the project without requiring the reissuance of the HPA, as long as the modifications do not adversely affect fish life or the habitat that supports fish life. The permittee should contact the habitat program's Olympia headquarters office through email or the department's online permit application system to request a minor modification.

(f) A person may propose or conduct a hydraulic project under an environmental excellence program agreement authorized under chapter 43.21K RCW. These projects must be applied for and permitted under the requirements of chapter 43.21K RCW.

(14) Hydraulic project approval expiration time periods:

(a) Except for emergency, imminent danger, expedited, and pamphlet HPAs, the department may grant standard HPAs that are valid for up to five years. The permittee must demonstrate substantial progress on construction of the portion of the project authorized in the HPA within two years of the date of issuance.

(b) Imminent danger and expedited HPAs are valid for up to sixty days, and emergency HPAs are valid for the expected duration of the emergency hydraulic project.

(c) Pamphlet HPAs remain in effect indefinitely until modified or rescinded by the department.

(d) The following types of agricultural hydraulic project HPAs remain in effect without the need for periodic renewal; however, a person must notify the department before starting work each year:

(i) Seasonal work that diverts water for irrigation or stock watering; and

(ii) Stream bank stabilization projects to protect farm and agricultural land if the applicant can show that the problem causing the erosion occurs annually or more frequently. Evidence of erosion may include history of permit application, approval, or photographs. Periodic floodwaters alone do not constitute a problem that requires an HPA.

(15) Requesting a time extension, renewal, modification, or transfer of a hydraulic project approval:

(a) The permittee may request a time extension, renewal, modification, or transfer of an active HPA. Before the HPA expires, the permittee or authorized agent must submit a written request through the department's online permitting system or to the habitat program's

Olympia headquarters office. The department may not accept requests for delay, renewal, modification, or transfer of an HPA submitted elsewhere or by a person other than the permittee or authorized agent. Written requests must include the name of the applicant, the name of the authorized agent if one is acting for the applicant, the permit number or application identification number of the HPA, the date issued, the permitting biologist, the requested changes to the HPA if requesting a time extension, renewal, or modification, the reason for the requested change, the date of the request, and the requestor's signature. Requests for transfer of an HPA to a new permittee or authorized agent must additionally include a signed, written statement that the new permittee or authorized agent agrees to the conditions of the HPA, that they agree to allow the department access to the project location to inspect the project site, mitigation site, or any work related to the project, and that they will not conduct any project activities until the department has issued approval.

(b) Requests for time extensions, renewals, or modifications of HPAs are deemed received on the date received by the department. The department may declare applications submitted to habitat program after normal business hours as received on the next business day.

(c) Within forty-five days of the requested change, the department must approve or deny the request for a time extension, renewal, modification, or transfer of an approved HPA.

(d) Unless the new permittee or authorized agent requests a time extension, renewal, or modification of an approved HPA, the department may change only the name and contact information of the permittee or authorized agent and must not alter any provisions of the HPA except the project or location start dates when granting a transfer.

(e) A permittee may request a modification or renewal of an emergency HPA until the emergency declaration expires or is rescinded. Requests for changes to emergency HPAs may be verbal, but must contain all of the information in (a) of this subsection.

(f) The department must not modify or renew an HPA beyond the applicable five-year or sixty-day periods. A person must submit a new complete application for a project needing further authorization beyond these time periods.

(g) The department will issue a letter documenting an approved minor modification(s) and a written HPA documenting an approved major modification(s) or transfer.

(16) Modifications of a hydraulic project approval initiated by the department:

(a) After consulting with the permittee, the department may modify an HPA because of changed conditions. The modification becomes effective immediately upon issuance of a new HPA.

(b) For hydraulic projects that divert water for agricultural irrigation or stock watering, or when the hydraulic project or other work is associated with stream bank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the department must show that changed conditions warrant the modification in order to protect fish life.

(17) Revoking an HPA.

(a) The department may revoke an HPA under the following conditions:

(i) At the written request of the permittee or authorized agent;

(ii) As the result of an informal or formal appeal decision;

(iii) As the result of a court ruling finding that the department issued the HPA in error;

(iv) Following change of a determination of nonsignificance or mitigated determination of nonsignificance to a determination of significance by a lead agency under chapter 43.21C RCW that applies to the hydraulic project approved by the HPA;

(v) The applicant did not correctly identify compliance with the requirements of chapter 43.21C RCW in the HPA application and the department was unaware of the error until after the HPA was issued;

(vi) Changed physical or biological conditions at the site of the hydraulic project have occurred before project initiation such that fish life cannot be protected if the project proceeds under the requirements of the existing HPA;

(vii) The permittee has not demonstrated substantial progress on construction of the hydraulic project within two years of the date of issuance as required in RCW 77.55.021 (9) (a). Substantial progress means initiation of work at any of the project locations identified in the HPA;

(viii) Duplicate HPAs have been issued for the same hydraulic project.

(b) The department must provide the permittee or authorized agent with written notification before revoking the HPA.

(c) The department must notify the permittee or authorized agent in writing immediately upon revoking the HPA.

(18) Requesting a preapplication determination:

(a) A person may request information or a technical assistance site visit from the department prior to submitting an HPA application or at any other time. The department will provide the requested information either verbally or in writing.

(b) If a person is unsure about whether proposed construction or other work landward of (above) the ordinary high water line requires an HPA, they may request a preapplication determination from the department under RCW 77.55.400. The department must evaluate the proposed project and determine if it is a hydraulic project and, if so, whether an HPA from the department is required to ensure proper protection of fish life.

(c) The preapplication determination request must be submitted through the department's online permitting system and must contain:

(i) A description of the proposed project, which must include the location of the ordinary high water line;

(ii) A map showing the location of the project site, which must include the location of the ordinary high water line; and

(iii) Preliminary plans and specifications of the proposed project, if available, which include the location of the ordinary high water line.

(d) The department must provide tribes and local governments a seven calendar day review and comment period. The department must consider all applicable written comments that it receives before it issues a determination as described in this subsection.

(e) The department must issue a written determination, including its rationale for the decision, within twenty-one calendar days of receiving the request.

(f) Chapter 43.21C RCW (state environmental policy) does not apply to preapplication determinations issued under this subsection.

(g) The department's preapplication determination decision may be appealed as provided in WAC 220-660-460 (Informal appeal of administrative action) or WAC 220-660-470 (Formal appeal of administrative action).

(19) Notice of intent to disapprove HPA applications:

(a) The department may disapprove HPA applications submitted by a project proponent who has failed to comply with a stop work order or notice to comply issued under WAC 220-660-480, or who has failed to pay civil penalties issued under WAC 220-660-480. The term "project proponent" has the same definition as in RCW 77.55.410.

(b) The department may disapprove HPA applications submitted by such project proponents for up to one year after the date on which the department issues a notice of intent to disapprove HPA applications, or until such project proponent pays all outstanding civil penalties and complies with all notices to comply and stop work orders issued under WAC 220-660-480, whichever is longer (disapproval period).

(c) The department must provide written notice of its intent to disapprove HPA applications to the project proponent and to any authorized agent or landowner identified in the application, in person or via United States mail, to the mailing address(es) listed on the project proponent's HPA application.

(d) The disapproval period begins on the date the department's notice of intent to disapprove HPA applications becomes final. The notice of intent to disapprove HPA applications becomes final thirty calendar days after the department issues it, or upon exhaustion of all applicable administrative and/or judicial remedies.

AMENDATORY SECTION (Amending WSR 22-04-073, filed 1/31/22, effective 3/3/22)

WAC 388-829C-131 How does DDA determine the daily rate? (1) A companion home daily rate is based on the client's DDA assessment under chapter 388-828 WAC. The DDA assessment uses an algorithm to convert raw scores into support assessment scales.

(2) The following support assessment scales are used to calculate a companion home daily rate. Each support assessment scale is assigned

an acuity level of "none," "low," "medium," or "high" by the DDA assessment algorithm and corresponds to the values below:

Support Assessment Scale	Acuity Levels			
	None	Low	Medium	High
Activities of daily living	0	1	2	3
Behavior	0	1	2	3
Interpersonal support	0	1	2	3
Medical	0	1	2	3
Mobility	0	1	2	3
Protective supervision	0	1	2	3

(3) DDA assigns a behavior score of four if:

(a) The client has an acuity level of "high" for behavior on the support assessment scale; and

(b) The client has a behavior support plan that meets requirements under WAC 388-829C-135.

(4) The sum of the assessment scale scores corresponds to an established daily rate. Rates are set prospectively in accordance with state legislative appropriations and will be adjusted accordingly.

(5) DSHS publishes companion home daily rates on the office of rates management's website.

(6) DDA may adjust a companion home daily rate if:

(a) The sum of the client's support assessment acuity levels changes; or

(b) DDA approves additional respite hours (~~under WAC 388-829C-234(3)~~).

AMENDATORY SECTION (Amending WSR 22-14-062, filed 6/29/22, effective 7/30/22)

WAC 388-829-0087 What continuing education credit is granted to direct support professionals employed during the pandemic and when must continuing education be completed? (1) The department finds that direct support professionals employed during the COVID-19 pandemic between March 1, 2020, and February 28, 2021, required emergent and intensive on-the-job training. Direct support professionals received critical, ongoing training in such topics as:

- (a) Donning and doffing personal protective equipment (PPE);
- (b) Hand hygiene;

- (c) Disinfection of high-touch surfaces;
- (d) Managing visitations and physical distancing;
- (e) Responding to newly infected residents;
- (f) Promotion of vaccination;
- (g) Protocols for quarantine;
- (h) Use of cloth face coverings;
- (i) Personal protection outside of the work environment; and
- (j) How to reduce exposure and spread.

(2) This on-the-job training was required of all service providers under WAC 388-829-0005. Instruction included infection control and the availability and distribution of personal protective equipment. Recognition of this training as a valid learning experience, in its various forms, was agreed upon with input from consumer and worker representatives, as the content was based on guidelines established by the Centers for Disease Control (CDC) and other federal, state, and local health care authorities.

(3) During this time, direct support professionals required ongoing critical training because guidance from the CDC, department of labor and industries, and other health authorities changed as more was learned about the SARS-CoV-2 virus. The department finds that this unprecedented on-the-job training comprised of at least 12 hours of continuing education between March 1, 2020, and February 28, 2021, and that this training:

(a) Is not considered to be repeated training as described in WAC 388-829-0100; and

(b) Satisfies the 12 hours of annual continuing education training.

(4) The direct support professional may apply the 12 hours of on-the-job training towards continuing education for either 2020 or 2021. The hours must be applied no later than December 31, 2021.

(5) All direct support professionals employed during the dates in subsection (3) of this section are granted 12 hours of DSHS-approved continuing education credit for the training entitled "COVID-19 On-The-Job Training Protocols," bearing the DSHS approval code CE2135218. No physical certificate for this training will be issued or required.

(6) The department recognizes that direct support professionals may not have completed training hours in excess of the 12 hours of CE granted in subsection (4) of this section due to the COVID-19 public health emergency.

(a) All direct support professionals have until ((December 31, 2022, or 120 days from the end of the COVID-19 training waivers established by gubernatorial proclamation, whichever is later,)) August 31, 2023, to complete any additional CE that may have become due ((while training waivers were in place)) between January 1, 2020, and February 28, 2023, in excess of the 12 hours of CE granted in subsection (4) of this section.

WSR 23-13-070
PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 23-75—Filed June 14, 2023, 1:39 p.m., effective July 15, 2023]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the commercial salmon fisheries in Willapa Bay and Grays Harbor. These rules are part of a comprehensive suite of rule-making packages to implement the new 2023-2024 salmon seasons for Washington state, developed through the broader North of Falcon process pursuant to the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 and the Administrative Procedure Act, chapter 34.05 RCW.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as Southern Resident Killer Whales.

Four public stakeholder meetings specific to the Willapa Bay and Grays Harbor fisheries were held in March and April 2023. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2023 coastal commercial salmon fishery, filed on May 3, 2023 (WSR 23-10-088), including during the public hearing on the proposed rules held on June 8, 2023. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only commercial fisheries, the seasons specified in these rules are an integral part of implementing commercial and recreational fisheries in a coordinated manner pursuant to the Willapa Bay Salmon Management Policy C-3622 and Grays Harbor Basin Salmon Management Policy C-3621. As such, the commercial fisheries for 2023-2024 are structured in a manner intended to consider and provide both commercial and recreational fishing opportunities in Willapa Bay and Grays Harbor, while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and fish and wildlife commission policies are met.

Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery rule-making package for the 2023-2024 fishery season, and thus substantively replace prior years' fisheries in Willapa Bay and Grays Harbor. Specifically, these rules replace and supersede the language in WAC 220-354-250 for the Willapa Bay salmon fall fishery and WAC 220-354-290 for the Grays Harbor salmon fall fishery in their entirety.

Included in the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 is a delegation of authority to the director of WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

Citation of Rules Affected by this Order: Amending WAC 220-354-250 and 220-354-290.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.055, and 77.12.047.

(2) Gillnet gear restrictions - All areas:

(a) Drift gillnet gear only. It is unlawful to use set net gear.

(b) It is permissible to have on-board a commercial vessel more than one net, provided the nets are of a mesh size that is legal for the fishery, and the length of any one net does not exceed one thousand five hundred feet in length.

(c) It is unlawful to use a gillnet to fish for salmon if the lead line weighs more than two pounds per fathom of net as measured on the cork line.

(d) It is permissible to have a gillnet with a lead line weighing more than two pounds per fathom aboard a vessel when the vessel is fishing in or transiting through Willapa Bay, provided the net is properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a

minimum of ten revolutions of rope that is 3/8 (0.375) inches or greater.

(e) From 12:01 a.m. August ((26)) 20 through 11:59 p.m. November ((16, 2022)) 27, 2023: Mesh size must not exceed six and one-half inches stretched, except mesh size must not exceed four and one-quarter inches stretched in Area 2N on August ((26, September 2, 7, 12, 13, 15, 16, and 17, Area 2M on August 26, September 2, 7, 12, 13, 15, and 16, and Areas 2T and 2U on September 16 and 17, 2022)) 20, 27, September 10, 13, 16, 17, 18, 19, 20, 21, and 22, Area 2M on August 25, 31, September 16, 17, 18, 19, 20, 21, 22, and 23, Area 2R on August 25, 31, September 16, 17, 18, 19, and 20, Area 2T on September 16, 17, 18, 21, and 22, and Area 2U on September 16, 18, 19, 20, 21, 22, September 24 through September 28, October 1 through October 6, and October 9 through October 13, 2023.

Other:

(3) Recovery boxes and soak time limits described in this section are required from 12:01 a.m. August ((26)) 20 through 11:59 p.m. November ((16, 2022)) 27, 2023:

(a) Each boat must have two operable recovery boxes or one box with two chambers on board when fishing in Willapa Bay Areas 2M, 2N, 2R, 2T, and 2U.

(i) Each box and chamber must be operating during any time the net is being retrieved or picked. The flow in the recovery box must be a minimum of 16 gallons per minute in each chamber of the box, not to exceed 20 gallons per minute.

(ii) Each chamber of the recovery box must meet the following dimensions as measured from within the box:

(A) The inside length measurement must be at or within 39-1/2 inches to 48 inches;

(B) The inside width measurements must be at or within 8 to 10 inches; and

(C) The inside height measurement must be at or within 14 to 16 inches.

(iii) Each chamber of the recovery box must include a water inlet hole between 3/4 inch and 1 inch in diameter, centered horizontally across the door or wall of the chamber and 1-3/4 inches from the floor of the chamber. Each chamber of the recovery box must include a water outlet hole opposite the inflow that is at least 1-1/2 inches in diameter. The center of the outlet hole must be located a minimum of 12 inches above the floor of the box or chamber. The fisher must demonstrate to department employees, fish and wildlife enforcement officers, or other peace officers, upon request, that the pumping system is delivering the proper volume of fresh river/bay water into each chamber.

(b) From 12:01 a.m. August ((26)) 20 through 11:59 p.m. November ((16, 2022)) 27, 2023, all steelhead and all wild (unmarked) Chinook must be placed in an operating recovery box, which meets the requirements in (a) of this subsection prior to being released to the river/bay as set forth in (c) of this subsection.

(i) Each box and chamber must be operating during any time the net is being retrieved or picked and any time a fish is being held in accordance with (b) and (c) of this subsection. The flow in the recovery box must be a minimum of 16 gallons per minute in each chamber of the box, not to exceed 20 gallons per minute.

(ii) Each chamber of the recovery box must meet the following dimensions as measured from within the box:

(A) The inside length measurement must be at or within 39-1/2 inches to 48 inches;

(B) The inside width measurements must be at or within 8 to 10 inches; and

(C) The inside height measurement must be at or within 14 to 16 inches.

(iii) Each chamber of the recovery box must include a water inlet hole between 3/4 inch and 1 inch in diameter, centered horizontally across the door or wall of the chamber and 1-3/4 inches from the floor of the chamber. Each chamber of the recovery box must include a water outlet hole opposite the inflow that is at least 1-1/2 inches in diameter. The center of the outlet hole must be located a minimum of 12 inches above the floor of the box or chamber. The fisher must demonstrate to department employees, fish and wildlife enforcement officers, or other peace officers, upon request, that the pumping system is delivering the proper volume of fresh river or fresh bay water into each chamber.

WSR 23-13-071
PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 23-74—Filed June 14, 2023, 1:41 p.m., effective July 15, 2023]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the commercial salmon fisheries in Puget Sound. These rules are part of a comprehensive suite of rule-making packages to implement the new 2023-2024 salmon seasons for Washington state developed through the broader North of Falcon process pursuant to the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 and the Administrative Procedure Act, chapter 34.05 RCW.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as southern resident killer whales.

Stakeholder meetings specific to the Puget Sound fisheries were held in March and April 2023. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2023 Puget Sound commercial salmon fishery filed on May 3, 2023 (WSR 23-10-089), including during the public hearing on the proposed rules held on June 8, 2023. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only commercial fisheries, the seasons specified in these rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities in Puget Sound while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and fish and wildlife commission policies are met.

Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery rule-making package for the 2023-2024 fishery season, and thus substantively replace prior years' fisheries in Puget Sound. Specifically, these rules replace and supersede the language in these WAC in their entirety: WAC 220-354-080 Puget Sound salmon—Closed areas, 220-354-120 Puget Sound salmon—Purse seine—Open periods, 220-354-160 Puget Sound salmon—Gillnet—Open periods, 220-354-180 Puget Sound salmon—Reef net—Open periods, 220-354-210 Puget Sound salmon—Beach seine—Open periods, and 220-301-030 Puget Sound Salmon Management and Catch Reporting Areas.

Included in the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 is a delegation of authority to the Director of WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

Citation of Rules Affected by this Order: Amending WAC 220-354-080 Puget Sound salmon—Closed areas, 220-354-120 Puget Sound salmon—Purse seine—Open periods, 220-354-160 Puget Sound salmon—

Gillnet—Open periods, 220-354-180 Puget Sound salmon—Reef net—Open periods, 220-354-210 Puget Sound salmon—Beach seine—Open periods, and 220-301-030 Puget Sound Salmon Management and Catch Reporting Areas.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.045 [77.12.045], and 77.12.047.

WSR 23-13-072
PERMANENT RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 23-73—Filed June 14, 2023, 1:43 p.m., effective July 15, 2023]

Effective Date of Rule: Thirty-one days after filing.

Purpose: The purpose of this rule making is to regulate the recreational salmon fisheries statewide. These rules are part of a comprehensive suite of rule-making packages to implement the new 2023-2024 salmon seasons for Washington state developed through the broader North of Falcon process pursuant to the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 and the Administrative Procedure Act, chapter 34.05 RCW.

The North of Falcon process typically begins in January with the filing of the preproposal statement of inquiry (CR-101) and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and Washington department of fish and wildlife (WDFW) representatives. Separate public meetings are held with stakeholders, both at a statewide and regional level, to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as southern resident killer whales.

Stakeholder meetings specific to the Puget Sound fisheries were held in March and early April 2023. Additional public comment was accepted subsequent to the proposed rule making (CR-102) for the 2023 recreational salmon fishery filed on May 3, 2023 (WSR 23-10-090), including during the public hearing on the proposed rules held on June 8, 2023. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>.

While these rules regulate only recreational fisheries, the seasons specified in these proposed rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and fish and wildlife commission policies are met.

Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery package for the 2023-2024 fishery season, and thus substantively replace prior years' recreational salmon fisheries.

Specifically, these rules replace and supersede the language in these WAC in their entirety: WAC 220-312-020 Freshwater exceptions to statewide rules—Coast, 220-312-030 Freshwater exceptions to statewide rules—Southwest, 220-312-040 Freshwater exceptions to statewide rules—Puget Sound, 220-312-050 Freshwater exceptions to statewide rules—Eastside, 220-312-060 Freshwater exceptions to statewide rules—Columbia River, 220-313-060 Puget Sound salmon—Saltwater seasons and daily limits, and 220-313-070 Coastal salmon—Saltwater seasons and daily limits.

Included in the fish and wildlife commission's North of Falcon Policy C-3608 for 2019-2023 is a delegation of authority to the Director of WDFW to adopt the implementing regulations, including this rule making, resulting from the North of Falcon process.

AMENDATORY SECTION (Amending WSR 22-14-054, filed 6/29/22, effective 7/30/22)

WAC 220-312-060 Freshwater exceptions to statewide rules—Columbia. The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

(1) **General Columbia River rules:**

(a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.

(i) Anglers must comply with the fishing regulations of the state in which they are fishing.

(ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.

(iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.

(b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.

(c) Salmon and trout handling rules provided in WAC 220-310-100 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-310-100 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).

(d) From Buoy 10 to the Washington/Oregon border:

(i) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.

(ii) Barbless hooks are required for salmon and steelhead.

(e) Open year-round unless otherwise provided.

(f) Year-round night closure for salmon and steelhead fishing from Buoy 10 to (~~Chief Joseph~~) Priest Rapids Dam.

(2) **Rules by river section:**

AMENDATORY SECTION (Amending WSR 20-22-059, filed 10/30/20, effective 11/30/20)

WAC 194-50-150 Normative Annex Z—Washington state reporting requirements.

Z1 Building owner notifications by the AHJ.

Z1.1 Notification to building owners of covered commercial buildings by the AHJ. Based on records obtained from each county assessor and other available information sources, the AHJ must create a database of *covered commercial buildings* and *building owners* required to comply with the standard established in accordance with this section. The database may include buildings and *building complexes* presumed to meet the definition of *covered commercial building* and *multifamily buildings* greater than 50,000 square feet in floor area.

Z1.1.1 The database will contain information about buildings that may be subject to compliance, their owners, and information about multi-family residential buildings eligible for incentives. The database will also contain information to assist tracking and reporting on building owner compliance, and incentive application and distribution. Commerce will create a method for tracking building owner notification responses. Each building or building complex will be assigned a unique building identifier.

Z1.2 By July 1, 2021, the AHJ must provide the owners of covered commercial buildings with notification of compliance requirements. Notifications will be mailed to the mailing addresses county assessors have on file.

Z1.3 Failure by the AHJ to provide the notification in Z1.2 does not release the *building owner* of the legal obligation to comply with this law.

Z1.4 By July 1, 2021, the AHJ must provide notifications to the building owners of multifamily residential building where the floor area exceeds (~~fifty thousand~~) 50,000 gross square feet, excluding the parking garage area.

Z2 Building owner response to notifications.

Z2.1 Correction of errors. *Building owners* are responsible for reviewing the property and building information provided by the AHJ through notification including, but not limited to, *building or building complex ownership details, gross floor area, and other information as identified by the building owner.*

Z2.1.1 Correction of errors documentation form. Building owners who are notified in error may submit a correction form to the AHJ. The correction form will be used to document gross floor area (conditioned and unconditioned) and/or building type. Building owners that submit the correction form must also submit the documentation required to demonstrate an exception as required in Section Z4.1 prior to the compliance date if applicable.

Washington State Reporting Requirements for Building Owners.

Z3 General compliance. The building owner of a *covered commercial building* must report compliance with the standard to the AHJ in accordance with the compliance schedule established under Section Z3.1 and every five years thereafter. For each reporting date, the building owner must submit documentation to demonstrate that:

1. The weather normalized energy use intensity of the *covered commercial building* measured in a period not to exceed two years prior to the compliance deadline specified in Normative Annex Z3.1 is less than or equal to the energy use intensity target (buildings that meet their energy targets); or

2. The *covered commercial building* has received conditional compliance from the department based on energy efficiency actions prescribed by the standard; or

3. The *covered commercial building* is exempt from the standard by demonstrating that the building meets one of the criteria for an exemption.

Z3.1 Compliance schedule. The building owner of a covered commercial building must report the building owner's compliance with the standard

to the department in accordance with the appropriate initial compliance date as follows and every five years thereafter.

2. For a building with more than (~~ninety thousand~~) 90,000 gross square feet but less than (~~two hundred twenty thousand~~) 220,000 and one gross square feet, June 1, 2027; and

3. For a building with more than (~~fifty thousand~~) 50,000 gross square feet but less than (~~ninety thousand~~) 90,000 and one square feet, June 1, 2028.

Z3.1.1 Early compliance option. Building owners may submit for compliance to the AHJ beginning July 1, 2023. The weather normalized energy use intensity of the covered commercial building shall be measured in a period not to exceed two years prior to the submission of compliance documentation. This section expires June 1, 2028.

Z3.1.2 Application for conditional compliance. Applications for conditional compliance must be submitted to the AHJ (~~one hundred eighty~~) 180 days prior to the compliance date to receive conditional compliance approval prior to the compliance date.

Z3.1.3 Application for exemption. Building owners submitting an application for exemption as specified in Section Z4.1 must be submitted to the AHJ (~~one hundred eighty~~) 180 days prior to the compliance date to receive exemption approval prior to the compliance date.

Z4 Documentation of compliance with the standard. Documentation of compliance shall be submitted to the AHJ demonstrating the building owner has complied with the standard through submission of documentation in accordance with Section Z4.1, Z4.2, Z4.3, Z4.4 or Z4.5. d. Within six months before the compliance date, building owners who have received exemption approval must certify that the building still meets the eligibility qualifications for the exemption and that there have been no material changes to qualifying conditions. A template for acceptable declarations will be made available by the AHJ on the agency website.

2. Covered commercial buildings are not eligible for exemption from the standards unless they meet one of the following criteria:

25 Violations, assessment of administrative penalties, mitigation and review of penalty decisions.

25.1 Authorization. The AHJ is authorized to impose administrative penalties upon building owners for failing to submit documentation demonstrating compliance with the requirements of this standard.

Failure to submit documentation demonstrating compliance by the scheduled reporting date will result in progressive penalties by legal notice.

25.2 Notice of violation and opportunity to correct (NOVC) (first notice).

25.2.1 The department may issue a NOVC when a building owner has failed to submit documentation that demonstrates compliance with this standard by the scheduled reporting date.

25.2.2 A NOVC may be issued for any of the following reasons:

1. Failure to submit a compliance report in the form and manner prescribed by the AHJ;
2. Failure to meet an energy use intensity target or failure to receive conditional compliance approval;
3. Failure to provide accurate reporting consistent with the requirements of the standard; and
4. Failure to provide a valid exemption certificate.

The AHJ will identify in the NOVC which section(s) of law, code, or the standard for which the *building owner* has failed to demonstrate compliance.

25.2.3 The NOVC will specify the time by which the building owner must cure the violation by submitting documentation that demonstrates compliance with the identified section(s) of law, code, or the standard. The AHJ will give the building owner at least seven calendar days to submit such documentation.

25.2.4 If sufficient documentation is not submitted by the date specified in the NOVC, the AHJ will issue a notice of violation and intent to assess administrative penalties (NOVI) and the *building owner* will be subject to administrative penalties.

25.3 Notice of violation and intent to assess administrative penalties (NOVI) (second notice).

25.3.1 If a *building owner* fails to respond to a NOVC by submitting documentation demonstrating compliance by the date specified in the NOVC, the AHJ will issue a NOVI.

25.3.2 The AHJ will identify in the NOVI which section(s) of law, code, or the standard for which the building owner has failed to demonstrate compliance. The NOVI will also include a description of how the penalties the AHJ intends to assess will be calculated.

Building owners must respond to a NOVI within (~~thirty~~) 30 days by either:

1. Submitting an application for exemption in accordance with Section Z4.1 if applicable;
2. Submitting a noncompliance mitigation plan in accordance with Z5.7;
3. Submitting its intent to pay the penalties by using the form provided by the AHJ; or
4. Submitting a request for an administrative proceeding to challenge or mitigate the penalty.

25.3.3 If the *building owner* does not timely request a hearing or submit an application for exemption, the *building owner* waives its right to a hearing and the director or their designee may issue a final order assessing the penalties described in the NOVI. If the *building owner* has submitted a mitigation plan, the final order will only assess penalties from the scheduled compliance date until the date of an approval of compliance or conditional compliance.

25.3.4 Building owners who submit an application for exemption that is denied may request a hearing by submitting a request for a hearing within (~~thirty~~) 30 days of issuance of the decision denying its application for exemption. If the building owner does not request a hearing within (~~thirty~~) 30 days, the building owner waives its right to a hearing and the director or their designee may issue a final order assessing the penalties described in the NOVI.

25.4 Assessment of administrative penalties.

25.4.1 Failure to submit documentation demonstrating compliance with the standard by the date specified in a NOVC will result in the issuance of a NOVI and the assessment of administrative penalties at an amount not to exceed (~~five thousand dollars~~) \$5,000 plus an amount based on the duration of any continuing violation. The additional amount for a continuing violation may not exceed a daily amount equal to one dollar per square foot of gross floor area per year.

25.4.1.1 Penalties for building owners that submit a noncompliance mitigation plan. For building owners subject to a NOVI who respond within (~~thirty~~) 30 days by submitting a noncompliance mitigation plan (Z5.7), fines shall be assessed on an annual basis or when the building owner achieves compliance or conditional compliance.

a. For applicants that submit a noncompliance mitigation plan and who submit documentation demonstrating completion, daily penalties will be assessed from the scheduled compliance date to the date of approval of compliance or conditional compliance. The penalty will be assessed at an amount not to exceed (~~30% of five thousand dollars~~) 30 percent of \$5,000 plus a daily amount equal to (~~\$0.20~~) 20 cents per square foot of gross floor area per year.

b. For applicants that submit a noncompliance mitigation plan but have not submitted documentation demonstrating completion, if the

building does not comply with the standard by the next compliance date, the building owner will be assessed the maximum penalty of (~~five thousand dollars~~) \$5,000 plus a daily amount equal to (~~(\$1.00)~~) one dollar per square foot of gross floor area per year not to exceed a value greater than (~~eighteen~~) 18 months of accrued penalty.

The AHJ may by rule increase the penalty rates to adjust for the effects of inflation.

25.4.1.2 Penalties for building owners that choose to pay the fine rather than pursuing compliance. Building owners may choose to respond to the NOVI by paying the maximum penalty. The building owner will be assessed the maximum penalty of (~~five thousand dollars~~) \$5,000 plus a daily amount equal to (~~(\$1.00)~~) one dollar per square foot of gross floor area per year not to exceed a value greater than (~~eighteen~~) 18 months of accrued penalty. Penalties are assessed for each compliance period.

The AHJ may by rule increase the penalty rates to adjust for the effects of inflation.

25.4.2 When assessed penalties are not paid within (~~one hundred eighty~~) 180 days of the date of a final order assessing penalties, the AHJ may assess further penalties. Total penalties assessed will not exceed (~~five thousand dollars~~) \$5,000 plus a daily amount equal to (~~(\$1.00)~~) one dollar per square foot of gross floor area per year.

25.4.3 Interest will accrue on civil penalties pursuant to RCW 43.17.240 if and when the debt becomes past due.

25.5 Due date and collection of penalties.

25.5.1 Penalties shall become due and payable on the later of:

1. Thirty days after receipt of the final order imposing the penalty; or

2. The date specified in the final order imposing the penalty.

25.5.2 If a penalty has not been paid by the due date, the AHJ may assign the debt to a collection agency as authorized by RCW 19.16.500 or take other action to pursue collection as authorized by law. If referred to a collection agency, the AHJ may add a reasonable fee, payable by the debtor, to the outstanding debt for the collection agency fee.

25.5.3 For building owners that are implementing a noncompliance mitigation plan but have not yet complied, the AHJ may assess the accumulated daily fine on June 1st of each year or shortly thereafter.

25.6 Payment of administrative penalties.

A check or money order payable in U.S. funds to the Washington state department of commerce can be mailed to:

Washington State Department of Commerce
Re: Clean Buildings Initiative, Energy Division
P.O. Box 42525
Olympia, WA 98504-2525

25.7 Noncompliance mitigation plan. Owners of covered commercial buildings that are out of compliance by the scheduled compliance date and have not corrected the violation by the date noted in a NOVC may reduce possible penalties by demonstrating that they are taking action to achieve compliance with the standard. To begin the process of mitigating noncompliance, a building owner must submit to the AHJ the non-

compliance mitigation plan form selecting one of the following actions within (~~thirty~~) 30 days of the date of a NOVI to avoid immediate issuance of penalty in accordance with Z5.4.1.

1. Compliance with the standard in accordance with Z4.2.
2. Conditional compliance with the standard in accordance with Z4.4.
3. Conditional compliance with the standard in accordance with Z4.5.

Z5.7.1 Mitigation completion. To demonstrate completion, the building owner shall complete all of the requirements of this standard and submit documentation as required by Section Z4.2, Z4.4 or Z4.5. After the building owner has demonstrated completion, the AHJ shall issue a final order assessing the reduced penalty as specified by Z5.4.1.1(a).

Z5.8 Administrative hearings.

Z5.8.1 Requesting a hearing. A *building owner* may request an administrative hearing after receiving an NOVI or after the denial of its application for an exemption by submitting a request within (~~thirty~~) 30 days of the date of a NOVI or the denial of a timely application for exemption. All requests must be made in writing and filed at the address specified on the NOVI. For convenience, the AHJ will attach a form titled request for hearing to the NOVI that may be used to request an administrative hearing.

Requests for hearing must be accompanied by the following:

1. Washington State Building ID;

In the case of a conflict between the model rules of procedure and the procedural rules adopted in this section, the procedural rules adopted in this section take precedence.

Z5.8.3 Initial orders to become final orders. Initial orders issued by the presiding officer will become final without further agency action unless, within (~~twenty~~) 20 days:

1. The director determines that the initial order should be reviewed; or
2. A party to the proceeding files a petition for administrative review of the initial order. Upon occurrence of either event, notice shall be given to all parties to the proceeding.

Z5.8.4. Judicial review. A final order entered pursuant to this section is subject to judicial review pursuant to RCW 34.05.510 through 34.05.598.

Z5.8.5 Collected penalties. The AHJ will deposit all penalties collected and received by the department under this section into the low-income weatherization and structural rehabilitation assistance account created in RCW 70.164.030.

Effective Date of Rule: Thirty-one days after filing.

Citation of Rules Affected by this Order: New WAC 388-829Z-005, 388-829Z-010, 388-829Z-015, 388-829Z-020, 388-829Z-025, 388-829Z-030, 388-829Z-035, 388-829Z-040, 388-829Z-045, 388-829Z-050, 388-829Z-055, 388-829Z-060, 388-829Z-065, 388-829Z-070, 388-829Z-075, 388-829Z-080, 388-829Z-085, and 388-829Z-090.

Statutory Authority for Adoption: RCW 71A.12.030.

Other Authority: Chapter 71A.20 RCW.

Adopted under notice filed as WSR 23-09-041 on April 14, 2023.

Changes Other than Editing from Proposed to Adopted Version: The developmental disabilities administration (DDA) added provider decertification as a reason for terminating a client's emergency transitional support services and also as a type of termination for which a client does not have an appeal right. DDA made these changes to clarify a client's hearing rights due to the provider being unqualified.

DDA corrected a cross-reference in WAC 388-829Z-070(1). This inaccuracy was a scrivener's error.

PERMANENT RULES
OFFICE OF THE
INSURANCE COMMISSIONER

[Filed June 21, 2023, 8:17 a.m., effective June 1, 2024]

Effective Date of Rule: June 1, 2024.

Purpose: Numerous consumer complaints and industry responses provided to the Washington state office of the insurance commissioner (OIC) demonstrate a need for insurers to provide transparency to policyholders for premium increases imposed at renewal. Requiring insurers to provide premium change transparency to their insurance consumers, disclosing the increases in a consumer's insurance costs as well as the reasons causing increased policyholder premiums at renewal, will promote honesty and fairness in these insurance transactions and uphold the public interest in the business of insurance.

OIC is adopting administrative regulations to achieve transparency for policyholders receiving premium increases from insurers at renewal. The rule aims to achieve transparency by defining the scope of insurer responsibility to explain the specific rate and rating factors that cause premiums to increase for consumers at renewal. The rule intends to furnish insurance consumers additional protections in the form of financial transparency and fairness in insurance renewal transactions, as well as the ability to make educated and informed decisions on purchasing or renewing policies, administering coverages, improving insurability, and managing insurance costs.

Citation of Rules Affected by this Order: New chapter 284-30A WAC.

Statutory Authority for Adoption: RCW 48.02.060 for OIC's general rule-making authority to effectuate RCW 48.01.030, 48.18.180, 48.18.2901, 48.18.292, 48.18.480, 48.18.545, 48.19.020, 48.19.035, and 48.30.010.

Adopted under notice filed as WSR 23-07-077 on March 14, 2023.

WSR 23-13-115
PERMANENT RULES
DEPARTMENT OF
LABOR AND INDUSTRIES

[Filed June 21, 2023, 8:28 a.m., effective July 3, 2023]

Effective Date of Rule: July 3, 2023.

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: As permitted by RCW 34.05.380 (3)(a), immediate implementation is necessary in order to implement ESSB 5320 (chapter 95, Laws of 2023).

Purpose: This rule making adopts amendments to the qualifications for 01 journey level electrician examinations under WAC 296-46B-945. Amendments to the rule are required to implement ESSB 5320.

Until June 30, 2023, individuals may qualify for examination for the 01 journey level certification examination once they have completed 8,000 hours of on-the-job experience. Four thousand of those hours must be in electrical installations in industrial or commercial facilities under supervision. Experience may be gained through an approved apprenticeship program or on-the-job training. After June 30, 2023, ability to qualify for examination through on-the-job experience is amended by this adopted rule.

In 2018, SSB 6126 (chapter 249, Laws of 2018) enacted registered apprenticeship requirements for 01 journey level certification examination candidates. To perform work limited to journey level electricians after July 1, 2023, trainees have to be registered apprentices. SSB 6126 gave the department of labor and industries (L&I) the authority, until July 1, 2025, to permit applicants who have obtained experience and training equivalent to a journey level apprenticeship program to take the examination, if the applicant had "good cause" for not completing the minimum hours of work applicable on July 1, 2023 (RCW 19.28.195). On February 14, 2023, L&I adopted rules (WSR 23-05-073) to exercise this discretion and allow temporary alternative pathways to qualify for the 01 journey level electrician examination through a "good cause" exemption beginning July 1, 2023.

This year, the legislature passed ESSB 5320, chapter 95, Laws of 2023. ESSB 5320 expands eligibility requirements for journey level electrician examination candidates that take effect July 1, 2023, and removes L&I's discretion to allow exceptions for "good cause" as it is no longer needed. This rule making is necessary to update the adopted rule to prevent WAC 296-46B-945 from conflicting with the amended law, as a result of ESSB 5320.

The adopted amendments:

- Remove language that provides temporary alternative pathways to qualify for the 01 journey level electrician examination through a "good cause" exemption that becomes obsolete on July 1, 2023, due to the passage of ESSB 5320.
- Provide permanent alternative pathways to qualify for the 01 journey level electrician examination. This includes:
 - o Clarifying the work experience and education requirements to qualify for the 01 journey level electrician examination for apprentices registered in chapter 49.04 RCW programs.
 - o Providing state-licensed electricians that have completed an 8,000 hour electrical construction trade apprenticeship (4,000 hours must be new commercial or industrial installations in another jurisdiction equivalent to an apprentice-

ship program approved in Washington) to qualify for the 01 journey level examination.

- o Providing out-of-state journey level electricians that have obtained a certificate through examination by a state licensing jurisdiction requiring at least 8,000 hours of supervised experience in the electrical construction trade (4,000 hours must be new commercial or industrial installations) to qualify for the 01 journey level examination. All experience applied toward qualifying for examination must be experience gained in the state that issued the certificate or military experience or both.
- o Providing individuals with at least 16,000 hours of out-of-state experience in the electrical construction trade installing and maintaining electrical wiring and equipment (4,000 hours must be new commercial or industrial installations) to qualify for the 01 journey level examination).
- o Providing individuals with 8,000 hours of electrical experience gained in a construction battalion while serving in the armed forces of the United States to qualify for the 01 journey level electrician examination.
- Provide current trainees that have 3,000 hours of electrical experience before July 1, 2023, or have completed a two-year electrical construction training program the ability to continue gaining experience until July 1, 2026, without becoming registered apprentices.
- Include amendments for housekeeping to relocate language in the rule.

Citation of Rules Affected by this Order: Amending WAC 296-46B-945 Qualifying for master, journey level, and specialty electrician examinations.

Statutory Authority for Adoption: ESSB 5320, chapter 95, Laws of 2023; and chapter 19.28 RCW, Electricians and electrical installations, including RCW 19.28.191 and 19.28.251.

Notes: (1) Until the examination is successfully completed, the trainee must work under 100 percent supervision. Once the appropriate examination is successfully completed, the modified supervision trainee may work under zero percent supervision.

(2) The trainee may have only one zero percent supervision certificate in a specialty (valid for no more than two years). If the trainee has not gained the required work experience by the time the zero percent supervision certificate has expired, the trainee must get a 75 percent supervision certificate and work under supervision until all required work experience hours are gained and credited towards the minimum work experience requirement.

(3) This specialty is not eligible for unsupervised trainee status as allowed in chapter 19.28 RCW.

(4) The trainee and their employer and/or apprenticeship training director must attest to the accuracy of all information contained on affidavits of experience used to verify eligibility for the examination.

(5) Neither previous work experience credit nor training school credit is allowed as a substitute for the initial hours of minimum work experience required to be eligible for examination unless the trainee's work experience hours under direct supervision are provided as required in RCW 19.28.191 (1)(d)(i).

(6) Electrical construction training hours gained in specialties requiring 2,000 hours or less for certification will not be credited towards qualification for journey level electrician or any of the 4,000 hour specialties, except as allowed by ⁽⁷⁾, below.

(7) The 2,000 minimum hours of work experience required for certification as an HVAC/refrigeration-restricted (06B) specialty electrician may be credited as 2,000 hours towards the 4,000 minimum hours of work experience required for certification as an HVAC/refrigeration (06A) specialty electrician. Hours of work experience credited from the HVAC/refrigeration-restricted (06B) specialty cannot be credited towards qualification for taking the general electrician (01) examination or minimum work experience requirements.

(8) Experience hours may be coincidentally credited towards qualifying for electrician and plumber certifications. See RCW 19.28.191 (1)(d)(iv).

(b) Or has completed an appropriate two-year apprenticeship program in the electrical construction trade that is registered with the state apprenticeship council while working under the direct supervision of an electrician in the appropriate specialty in the proper ratio, per RCW 19.28.161.

Qualifying for a certificate of competency when the Washington electrical work experience is exempt from certification requirements in RCW 19.28.261.

(7) After review and approval by the department, an individual may be granted work experience credit to take the specialty electrician's competency examination when an original notarized letter of work experience accompanied by verifiable documentation is provided. See subsection (8) of this section. For journey level competency examination candidates, see subsection (4) of this section for requirements.

For the purposes of this section, exempt work does not include work performed on property owned, in whole or part, by the individual seeking credit.

All exempt individuals must have a valid electrical training certificate when working to gain electrical work experience.

Work experience requested by an individual for telecommunications work must be gained while working for (01) general electrical, (02) residential, or (06) limited energy system electrical contractors as allowed by those scopes of work. When the work was performed, the individual must have a valid training certificate, be under the supervision of an appropriately certified journey level, residential or limited energy electrician, and be in compliance with RCW 19.28.191.

General - Qualifying hours gained by applicants seeking work experience credit without a Washington electrician training certificate.

(8) The type of on-the-job work experience must be similar to the credit being applied for and lawfully gained in the state or other entity where the work was performed. The individual must submit verifiable documentation (e.g., payroll, time sheets, permits, supervision, etc.) that the department may use to ascertain the type of work performed and the number of hours worked for each type (i.e., specialty) of work.

Training hours credited for specialties requiring less than two years (i.e., 4,000 hours) may not be credited towards qualification for general journey level electrician.

The documentation must include a complete description of the individual's usual duties with percentages attributed to each type (e.g., wiring, material handling, shop, low voltage, etc.)

The department may reduce the number of hours allowed if the:

- (a) Individual did not have supervision during the training period when supervision was required by the jurisdiction where the training occurred;
- (b) Training hours are not related to electrical construction;
- (c) Training hours are not related to the specialty being applied for;
- (d) Documentation submitted by the individual does not fully verify the requested work experience; or
- (e) Work credit was not lawfully gained.

Training school credit.

(9) No more than 50 percent of the minimum work experience needed to qualify for specialty electrician certification is allowed for any training school program (e.g., a specialty requiring 2,000 hours of minimum required work experience may receive no more than 1,000 hours credit from an electrical construction training program).

See RCW 19.28.191 (1)(e) for training school credit allowed for journey level applicants.

See WAC 296-46B-971 for additional information on training schools.

Qualifying for the journey level/specialty electrician competency examination when work was performed in a state requiring electrician certification for the work performed.

(10) After review and approval by the department, an individual may be granted on-the-job work experience towards qualifying to take the specialty electrician's competency examination for hours worked in the other state when the state certifies to the department:

(a) The type and number of hours of work performed within the state. Credit will not be allowed for work not done within the certifying state.

(b) That the work was legally performed under the other state's licensing and certification requirements; and

(c) The other state's certificate of competency was obtained by examination.

If the experience is for other than a new commercial or industrial installation, the individual must identify the specialty credit desired and provide verifiable documentation identifying the other state's allowed scope of work for the specialty, see subsection (8) of this section.

For journey level competency examination candidates, see subsection (4) of this section for requirements.

Qualifying for the journey level/specialty electrician competency examination when work was performed in a state that does not require electrician certification for the work performed.

(11) After review and approval by the department, an individual may be granted work experience credit to take the specialty electrician's competency examination when an original notarized letter of work experience accompanied by documentation, see subsection (8) of this section, that can be used to verify the individual has worked the hours being requested is provided by:

(a) An appropriately state licensed electrical contractor;

(b) Registered apprenticeship training director;

(c) Nationally recognized contractor/labor organization; or

(d) The individual's lawful employer.

For journey level competency examination candidates, see subsection (4) of this section for requirements.

Military experience.

(12) After review and approval by the department, an individual who has worked in the electrical construction trade performing work described in WAC 296-46B-920 while serving in the armed forces of the United States may be eligible to take the examination for the certificate of competency as a specialty electrician. Credit may be allowed for hours worked or training received.

If an individual has military experience in a specialized electrical field (e.g., rating) that is similar to a specialty electrician category listed in WAC 296-46B-920, credit may be allowed toward the

appropriate specialty certificate. Nuclear, marine, shipyard, ship-board, radar, weapons, aeronautical experience, or similar experience may be acceptable for no more than 50 percent of the minimum required work experience for qualifying for electrician examination.

The department will evaluate and determine whether the submitted experience is related specifically to the electrical construction/maintenance trade regulated by chapter 19.28 RCW.

For allowances for crediting military experience toward qualifying for a journey level competency examination, see ~~((temporary allowance in))~~ subsection ~~((5)(a)(iii))~~ (4)(e) of this section ~~((effective until July 1, 2025. After that date, see allowance in))~~ and RCW 19.28.191 (1)(e) (effective July 1, 2023).

Experience in another country.

(13) After review and approval by the department, and if an individual has a journey level electrician certificate from a country outside the United States that requires that at least four years of electrical construction training and certification is obtained by examination, the individual may be eligible for 4,000 hours of the specialty credit allowed towards the qualification to take the Washington journey level electrician examination.

No more than 4,000 hours of the required training to become a Washington journey level electrician may be for work described for specialty electricians or technicians in WAC 296-46B-920. In addition to the maximum of 4,000 hours credit that may be allowed by this subsection, an additional 4,000 hours of new commercial/industrial experience must be obtained using a training certificate in the state while registered in a journey level electrician apprenticeship program required by RCW 19.28.161 (2)(a)(i) (effective July 1, 2023) under the supervision of a master journey level electrician or journey level electrician.

Documentation substantiating the individual's out of country experience must be submitted in English.

(14) Out of country experience credit is not allowed toward a specialty electrician certificate.

(15) Canadian journeyperson construction electricians with at least four years of electrical construction training who have obtained a construction electrician Red Seal endorsement by successfully completing a Red Seal examination are eligible to take the examination for the journey level electrician certificate of competency if they have possessed a Red Seal endorsement for one year.
