**EMERGENCY RULES**  
**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-116—Filed July 6, 2023, 3:01 p.m., effective July 8, 2023]

Effective Date of Rule: July 8, 2023.

Purpose: The purpose of this emergency rule is to raise Chinook limits in Catch Record Card Areas 3 and 4.

Citation of Rules Affected by this Order: Repealing WAC 220-313-07500Q; and amending WAC 220-313-075.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The purpose of this rule is to modify ocean recreational salmon seasons in Marine Areas 3 and 4 to allow daily retention of up to two Chinook salmon. Based on catch to date and projected catch later in the season, sufficient quota remains to allow daily retention of two Chinook per angler without requiring early closure of the fishery in these areas.

This rule maintains previously established recreational seasons in Areas 1 and 2.

These rules for in-state waters are consistent with federal salmon fishing regulations adopted by the National Marine Fisheries Service in response to actions taken by the Pacific Fishery Management Council to set salmon fishery harvest specifications and management measures; this action is intended to achieve regulatory consistency in federal and state waters for the ocean recreational salmon fishery, which operates in both areas.

There is insufficient time for the Washington state department of fish and wildlife to adopt consistent regulations through the permanent rule-making process.
