EMERGENCY RULES

DEPARTMENT OF HEALTH

(Pharmacy Quality Assurance Commission)

[Filed August 11, 2023, 3:00 p.m., effective August 11, 2023, 3:00 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Narcan as over-the-counter (OTC) status and adding a new section in chapter 246-945 WAC. In March 2023, the United States Food and Drug Administration (FDA) approved the 4 mg nasal spray naloxone under the brand Narcan as an OTC drug. Narcan is an opioid antagonist indicated for the emergency treatment of known or suspected opioid overdose. Currently, WAC 246-945-030 incorporates the 39th edition of the Approved Drug Products with Therapeutic Equivalence Evaluations, or "Orange Book," which has Narcan listed as a prescription drug. The pharmacy quality assurance commission (commission) considers the ongoing opioid epidemic to be a public health emergency in Washington state. In order to combat this epidemic in Washington, the commission is amending WAC 246-945-030 and adding new WAC 246-945-034 classifying Narcan as an OTC drug.

The timeline for the availability of Narcan is set by the manufacturers. The adoption of this emergency rule would prepare Washington state for the moment that the drug becomes available by manufacturers. The proposed new section in chapter 246-945 WAC would also allow for expansion of different formularies if the FDA makes further changes. This preparation would allow for a faster release of the drug throughout the state, meaning this life-saving drug would be in the hands of Washingtonians faster. Increasing patient access to the drug is critical to reduce opioid overdoses.

Citation of Rules Affected by this Order: New WAC 246-945-034; and amending WAC 246-945-030.

Statutory Authority for Adoption: RCW 18.64.005.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The immediate adoption of this rule is necessary for the preservation of public health, safety, and general welfare. The opioid epidemic is a public health emergency which requires the use of the emergency rule-making process. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest. This rule would increase access to this life-saving drug faster, which would help relieve some stress on affected communities in Washington state and attempt to reduce opioid overdoses.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 1, Amended 1, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at the Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's own Initiative: New 0, Amended 0, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 1, Amended 1, Repealed 0.

Date Adopted: August 11, 2023.

Kenneth Kenyon, PharmD, BCPS, Chair
Pharmacy Quality Assurance Commission

OTS-4736.1

AMENDATORY SECTION (Amending WSR 20-12-072, filed 6/1/20, effective 7/1/20)

WAC 246-945-030 Identification of legend drugs for purposes of chapter 69.41 RCW. (1) Those drugs determined by the FDA to require a prescription under federal law should be classified as legend drugs under state law because their toxicity, potential for harmful effect, methods of use, or collateral measures necessary to their use indicate they are only safe for use under the supervision of a practitioner.

(2) The commission finds that under state law, legend drugs are those drugs designated as legend drugs under federal law, as of the date of adoption of this rule, and listed in at least one of the following publications unless the drug is identified as an over-the-counter drug by the commission in WAC 246-945-034:

(a) The 39th Edition, including supplements, of the *Approved Drug Products with Therapeutic Equivalence Evaluations "Orange Book"* (available at <https://www.fda.gov/drugs/drug-approvals-and-databases/approved-drug-products-therapeutic-equivalence-evaluations-orange-book>).

(b) The 2019 version, including monthly updates, of the *Approved Animal Drug Products "Green Book"* (available at <https://www.fda.gov/animal-veterinary/products/approved-animal-drug-products-green-book>).

(c) The 2019 *List of Licensed Biological Products with Reference Product Exclusivity and Biosimilarity or Interchangeability Evaluations "Purple Book"* (available at <https://www.fda.gov/drugs/therapeutic-biologics-applications-bla/purple-book-lists-licensed-biological-products-reference-product-exclusivity-and-biosimilarity-or>).

(3) Copies of the reference material listed in subsection (2) of this section are available for public inspection at the commission's office at Department of Health, Town Center 2, 111 Israel Road S.E., Tumwater, WA 98501.

(4) The commission also identifies those ephedrine products specified in WAC 246-945-031 as legend drugs under state law.

(5) There may be changes in the marketing status of drugs after the publication of the above references. Upon application of a manufacturer or distributor, the commission may grant authority for the over-the-counter distribution of certain drugs designated as legend

drugs in these references. These determinations will be made after public hearing and will be published as an amendment to this chapter.

NEW SECTION

WAC 246-945-034 Identification of the over-the-counter drugs.

Although listed as a legend drug in publications that are incorporated by reference in WAC 246-945-030(2), the commission identifies the following as an over-the-counter drug in Washington: 4 mg naloxone hydrochloride nasal spray under the following brand names: Narcan Nasal Spray, approved by the FDA for distribution as an OTC drug product.
