

**WSR 23-18-023
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 23-178—Filed August 25, 2023, 2:28 p.m., effective August 26, 2023]

Effective Date of Rule: August 26, 2023.

Purpose: This emergency rule is needed to allow the retention of wild coho in the ocean salmon troll fishery.

Citation of Rules Affected by this Order: Repealing WAC 220-354-30000Y; and amending WAC 220-354-300.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This purpose of this regulation is to allow the retention of wild coho in the ocean salmon troll fishery. Percentages of adipose marked coho have been lower than expected in ocean salmon fisheries this season. Quotas have been adjusted downward in a manner to ensure that impacts to wild coho are not increased from preseason expected rates by allowing their retention. This regulation is necessary to both meet conservation limits and to provide fishing opportunity and its corresponding economic benefit. These rules are adopted at the recommendation of the Pacific Fishery Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration. There is insufficient time to adopt permanent rules.
