(b) The injectable drug used is from office stock and which was purchased by the provider from a pharmacy, drug manufacturer, or drug wholesaler.

(6) The agency does not reimburse a prescribing provider for a drug when a pharmacist dispenses the drug.

(7) The agency does not reimburse the prescribing provider for an immunization when the immunization material is received from the department of health; the agency does reimburse an administrative fee.

(8) The agency reimburses immunizations as follows:

(a) For immunizations that are not part of the vaccines for children program through the department of health, the agency reimburses for the immunization:

(i) At the medicare Part B drug file price; or

(c) The agency reimburses injectable drugs at actual **acquisition cost**. The provider must document the name, strength, and dosage of the drug and retain that information in the client's file. The provider must provide an invoice when requested by the agency. This subsection does not apply to drugs used for chemotherapy; see subsection (11) in this section for chemotherapy drugs.
