WSR 23-24-039
PERMANENT RULES
DEPARTMENT OF
LABOR AND INDUSTRIES
[Filed November 30, 2023, 8:33 a.m., effective January 1, 2024]

Effective Date of Rule: January 1, 2024.

Purpose: This rule adoption amends the tables of classification base premium rates, experience rating plan parameters, and experience modification factor calculation limitations for the workers' compensation insurance program for calendar year 2024. Classification base rates were updated to align with expected losses. The department of labor and industries (L&I) is adopting a 4.9 percent overall average premium rate increase.

Washington law provides that rates should be adjusted annually to reflect the hazards of each industry in accordance with recognized workers' compensation insurance principles and to ensure solvency of the accident, medical aid, and supplemental pension funds.

Washington employers continue to deal with uncertainties associated with the pandemic and the global economy. In light of that, L&I is adopting an overall average rate increase of 4.9 percent to ensure adequate premiums to cover expected costs of 2024 claims. This increase is below the indicated break-even rate and consistent with our rate-making principle of keeping rates steady and predictable. This rate increase is required to partially account for three consecutive years of higher-than-normal increases in the state's average wage. L&I is able to minimize the increase for this upcoming year thanks to previous investment earnings that benefit the workers' compensation contingency reserve (surplus).

The adoption is also notice that the director intends to transfer the amount of the accident and medical-aid funds combined that exceed 10 percent of funded liabilities as required by RCW 51.44.023.

The adoption also repeals WAC 296-17-871 Director's discretion for incurred losses on claims with vocational plans, as this rule became obsolete with the 2015 amendment to RCW 51.32.096 Vocational rehabilitation benefits and options—Advisory committee—Procedures—Requirements—Definitions—Costs. The amendment to RCW 51.32.096 clarified that the vocational costs paid from the medical aid fund may not be charged to the state fund employer's cost experience, which was the intent of WAC 296-17-871 when created in 2010.

Citation of Rules Affected by this Order: Repealing WAC 296-17-871 Director's discretion for incurred losses on claims with vocational plans; and amending WAC 296-17-855 Experience modification, 296-17-875 Table I, 296-17-880 Table II, 296-17-885 Table III, 296-17-890 Table IV, 296-17-895 Industrial insurance accident fund base rates, stay at work and medical aid base rates by class of industry, 296-17-89502 Industrial insurance accident fund, stay at work, medical aid and supplemental pension rates by class of industry for nonhourly rated classifications, 296-17-89507 Horse racing rates, 296-17-89508 Farm internship program industrial insurance, accident fund, stay at work fund, medical aid fund, and supplemental pension by class, 296-17-920 Assessment for supplemental pension fund, 296-17B-540 Determining loss incurred for each claim, and 296-17B-900 Retrospective rating plans standard premium size ranges.

Statutory Authority for Adoption: RCW 51.16.035 (base rates), 51.32.073 (supplemental pension), 51.18.010 (retrospective rating), and 51.04.020(1) (general authority).

Adopted under notice filed as WSR 23-19-076 on September 19, 2023.

Changes Other than Editing from Proposed to Adopted Version: We removed an error that was inadvertently included in the proposed WAC 296-17-875 Primary losses for select claim value table. The error removed was 24,888 total loss after deduction; and 25,000 primary loss. The need for the correction was brought to our attention from written comments received during the public comment period.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at the Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's own Initiative: New 0, Amended 12, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: November 30, 2023.

Joel Sacks
Director

OTS-4920.4

<u>AMENDATORY SECTION</u> (Amending WSR 22-24-019, filed 11/30/22, effective 1/1/23)

WAC 296-17-855 Experience modification. The basis of the experience modification shall be a comparison of the actual losses charged to an employer during the experience period with the expected losses for an average employer reporting the same exposures in each classification. The comparison shall contain actuarial refinements designed to weigh the extent to which the actual experience is credible, due consideration being given to the volume of the employer's experience. Except for those employers who qualify for an adjusted experience modification as specified in WAC 296-17-860 or 296-17-865, the experience modification factor shall be calculated from the formula:

EXPERIENCE MODIFICATION FACTOR	=	(Credible Actual Primary Loss + Credible Actual Excess Loss)/ Expected Loss
Where		
Credible Actual Primary Loss	=	Actual Primary Loss x Primary Credibility
	+	Expected Primary Loss x (100% - Primary Credibility)
Credible Actual Excess Loss	=	Actual Excess Loss x Excess Credibility
	+	Expected Excess Loss x (100% - Excess Credibility)

The meaning and function of each term in the formula is specified below.

For each claim, the actual primary loss is the first dollar portion of the claim costs, which has been shown in actuarial studies, to have the greater credibility in predicting future experience. These amounts are summed over all claims. For each claim in excess of ((~~$22,670~~)) $25,170 the actual primary loss shall be determined from the formula:

$$\text{Primary Loss} = \frac{((56,670)) \underline{62,920}}{(\text{Total Loss} + ((34,000)) \underline{37,750})} \times \text{Total Loss}$$

For each claim, less than ((~~$22,670~~)) $25,170 the full value of the claim shall be considered a primary loss.

For each claim, the excess actual loss is the remaining portion of the claim costs, which have been shown in actuarial studies to have less credibility in predicting future experience. The excess actual loss for each claim shall be determined by subtracting the primary loss from the total loss. These amounts are summed over all claims.

For any claim without disability benefits (time loss, partial permanent disability, total permanent disability or death) either actually paid or estimated to be paid, the total actual losses for calculating the primary loss and excess loss shall first be reduced by the lesser of ((~~$3,570~~)) $3,670 or the total cost of the claim. Here are some examples for these claims:

Total Loss	Type of Claim	Total Loss (after deduction)	Primary Loss	Excess Loss
((300	Medical Only	0	0	0
4,000	Medical Only	430	430	0
4,000	Timeloss	4,000	4,000	0
30,000	Medical Only	26,430	24,786	1,644
30,000	Timeloss	30,000	26,564	3,436
130,000	PPD	130,000	44,921	85,079
500,000	TPD Pension	382,810	52,047	330,763
2,000,000	TPD Pension	382,810	52,047	330,763))
2,000	Medical Only	0	0	0
5,000	Medical Only	1,330	1,330	0
5,000	Timeloss	5,000	5,000	0
30,000	Medical Only	26,330	25,853	477
30,000	Timeloss	30,000	27,861	2,139
90,000	PPD	90,000	44,327	45,673
150,000	PPD	150,000	50,269	99,731
500,000	TPD Pension	405,520	57,562	347,958
2,000,000	TPD Pension	405,520	57,562	347,958

Note: The deduction, ((~~$3,570~~)) $3,670, is twice the average case incurred cost of these types of claims occurring during the three-year period used for experience rating. On average this results in reducing the average actual loss about ((~~seventy~~)) 70 percent for these types of claims adjusted. This is done to help make the transition between the two different experience rating methods better by helping make the change in experience factor reasonable for small changes to the actual losses.

For each employer, the primary credibility and the excess credibility determines the percentage weight given to the corresponding actual primary losses and the actual excess losses, included in the calculation of the experience modification, based on the volume of expected losses. Primary credibility and excess credibility values are set forth in Table II.

An employer's expected losses shall be determined by summing the expected loss for each of the three years of the experience period, which are calculated by multiplying the reported exposure in each classification during the year by the corresponding classification expected loss rate and rounding the result to the nearest cent. Classification expected loss rates by year are set forth in Table III.

Expected losses in each classification shall be multiplied by the classification "Primary-Ratio" to obtain "expected primary losses" which shall be rounded to the nearest cent. Expected excess losses shall then be calculated by subtracting expected primary losses from expected total losses rounded to the nearest cent. Primary-Ratios are also set forth in Table III.

AMENDATORY SECTION (Amending WSR 22-24-019, filed 11/30/22, effective 1/1/23)

WAC 296-17-920 Assessment for supplemental pension fund. The amount of ((83.7)) 85.5 mils ((($0.0837)) $0.0855) shall be retained

by each employer from the earnings of each worker for each hour or fraction thereof the worker is employed. The amount of money so retained from the employee shall be matched in an equal amount by each employer, except as otherwise provided in these rules, all such moneys shall be remitted to the department on or before the last day of January, April, July, and October of each year for the preceding calendar quarter, provided self-insured employers shall remit to the department as provided under WAC 296-15-229. All such moneys shall be deposited in the supplemental pension fund.

OTS-4946.1

<u>AMENDATORY SECTION</u> (Amending WSR 23-12-071, filed 6/6/23, effective 7/7/23)

WAC 296-17B-540 Determining loss incurred for each claim. (1) Calculating the initial loss incurred:

For each of your claims, we will multiply the case incurred loss by the appropriate discounted loss development factors to determine the initial loss incurred.

If you have a fatality, we will use ((~~$521,600~~)) <u>$544,000</u> as the claim's initial incurred loss for the claim, with ((~~$486,600~~)) <u>$507,800</u> for accident fund incurred loss and ((~~$35,000~~)) <u>$36,200</u> for the medical aid incurred loss, regardless of the case incurred loss, and before recovery factors if applicable.

(2) Applying the single loss occurrence limit:

The initial loss incurred for a claim will be the amount we use as the loss incurred unless the single loss occurrence limit applies.

The single loss occurrence limit applies when the sum of all initial losses incurred for your claims arising out of a single event is greater than your selected single loss occurrence limit. In that case, each claim's initial loss incurred will be its proportionate share of your single loss occurrence limit.

(3) Applying the expected loss ratio factors:

The preliminary loss incurred for a claim will be the amount of the initial loss incurred, after application of the single loss limit, multiplied by the appropriate expected loss ratio factor. The accident fund and medical aid fund portions of each claim will have separate expected loss ratio factors applied.

<u>AMENDATORY SECTION</u> (Amending WSR 22-24-019, filed 11/30/22, effective 1/1/23)

WAC 296-17B-900 Retrospective rating plans standard premium size ranges.
