DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-148—Filed August 8, 2024, 2:22 p.m., effective August 8, 2024, 2:22 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: This emergency rule:

- (1) Closes the following areas to commercial spot shrimp harvest:
 - (a) Shrimp Management Regions 1B and 2E effective one hour after official sunset on August 9, 2024.
 - (b) Subarea 23A-W effective one hour after official sunset on August 11, 2024.
- (2) Closes the Shrimp Management Region 2E to commercial nonspot shrimp harvest effective one hour after official sunset on August 9, 2024.
- (3) Closes all areas open to commercial spot shrimp harvest August 20 through 22, 2024, to allow staff to assess catch data to ensure consistency with comanager agreements and coordinate remaining fisheries with the industry.
- (4) Designates the commercial spot shrimp catch accounting periods and catch limits.
- (5) Implements a reduced pot limit in Region 5 congruent with RCW 77.50.100.
- (6) Designates the commercial nonspot shrimp catch accounting periods and biweekly catch limit for harvest from Subregions 1B and 1C and Region 2E.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000Y; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Permanent rules regulating state commercial shrimp harvest in Puget Sound and the Strait of Juan de Fuca require the adoption of harvest seasons contained in this emergency rule. This emergency rule is necessary to prosecute state commercial shrimp pot fisheries in Puget Sound. This rule closes a quota area to commercial harvest following the projected attainment of the available harvest. This rule allows harvesters to respond to dynamic changes in market conditions and promotes full utilization of both the commercial spot and nonspot shares. These rules are in congruence with comanager agreements. There is insufficient time to adopt permanent rules.
