EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-180—Filed September 11, 2024, 10:03 a.m., effective September 16, 2024]

Effective Date of Rule: September 16, 2024.

Purpose: The purpose of this emergency rule is to set a maximum size restriction for salmon in Yale Reservoir.

Citation of Rules Affected by this Order: Amending WAC 220-312-030.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to set a maximum size limit on salmon in Yale Reservoir. As part of upper Lewis River anadromous reintroduction effort, adult coho will be released into Yale Reservoir for habitat preparation and nutrient enhancement. Upstream transport for reintroduction into areas above Swift Dam is ongoing with hatchery coho in excess of weekly Lewis basin hatchery broodstock collection targets.

This fishing rule change will enable continued landlocked salmon fishing while restricting retention of adult coho transported for habitat preparation needs.

There is insufficient time to adopt permanent rules.
