EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-193—Filed September 19, 2024, 8:30 a.m., effective September 19, 2024, 8:30 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this rule making is to provide for treaty Indian fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act (ESA). This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes and federal law governing Washington's relationship with Oregon.

Citation of Rules Affected by this Order: Repealing WAC 220-359-02000H; and amending WAC 220-359-020.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule sets the 2024 Columbia River treaty fall season commercial fisheries for nontreaty buyers. This rule is consistent with actions of the Columbia River Compact on July 18, August 14, September 4, September 10, and September 18, 2024. Confirms state rules with tribal rules. The general public welfare is protected with the immediate opening of nontreaty buyers purchasing fish from treaty fisheries. This harvest opportunity allows for the tribal use and public access to the resource as well as the maintenance of sustainable fish populations. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the congressionally ratified Columbia River Compact. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). The tribes and the states adopt parallel regulations for Treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under ESA. On February 23, 2018, the National Marine Fisheries Service issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2018-2027 *U.S. v. Oregon* Management Agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and ESA guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. *Sohappy*, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.
