

WSR 24-22-120
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 24-255—Filed November 5, 2024, 12:25 p.m., effective November 5, 2024, 12:25 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: This emergency rule closes commercial crab harvest in Crab Management Region 2E.

WAC 220-340-45500M (1) closes Crab Management Region 2E one hour after official sunset on Wednesday, November 6, due to quota attainment. Crab Management Regions 1, 3-1, 3-2, 3-3, and 3-4 will remain open until further notice; (2) maintains closure of Port Angeles Harbor to commercial crab harvest due to public health decrees.

WAC 220-340-47000J maintains current pot limit levels in all open Crab Management Areas.

Citation of Rules Affected by this Order: Repealing WAC 220-340-45500L and 220-340-47000I; and amending WAC 220-340-455 and 220-340-470.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Crab Management Region 2-East will close one hour after official sunset on Wednesday, November 6, 2024, due to quota attainment. This rule maintains current pot limit levels in all crab management areas. There is sufficient allocation remaining to allow continued harvest in Puget Sound commercial crab fishery in Regions 1, 2-East, 3-1, 3-2, 3-3, and 3-4, until further notice. These provisions are in conformity with agreed management plans with applicable tribes. Comanagement plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable treaty tribes and outlined in the management plans. There is insufficient time to adopt permanent rules. Further adjustment of season structure may be made pending updated harvest data.

There is insufficient time to adopt permanent rules.
