As part of this process, the board anticipates developing definitions of terms or tasks that will need to be included in WAC 246-935-010 Definitions for veterinary technicians.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Collaborative.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication. PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF HEALTH

[Filed February 28, 2007, 1:46 p.m.]

Subject of Possible Rule Making: Amend chapter 246-254 WAC, Radiation protection—Fees, to simplify fees for X-ray registration and to require use of the department of licensing's master license service to pay X-ray registration fees.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 19.02.050, 43.20B.080, 43.70.110, and 43.70.250.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: For the department to participate in the governor's enterprise business portal initiative and comply with RCW 19.02.050, the existing rules on X-ray registration fees must be simplified and the use of the master license service must be specified. Registrants will benefit from this rule through consolidation of their business licenses and permits into a "one-stop" application and fee transaction. In addition, registrants may pay by credit card or electronic funds transfer, an option they do not currently have with the existing separately handled X-ray registration. The overall effect on X-ray registration fees will be revenue neutral.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: The department of licensing operates the master license service and close coordination will occur to assure X-ray registration fee collection and revenue transfer to the department of health will continue uninterrupted throughout the transition to the master license service.

Process for Developing New Rule: A collaborative process will be used to develop this rule. Initial drafts by program staff will be sent to all X-ray registrants and other interested parties for review. Comments will be reviewed and the draft rule revised as appropriate.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication. Registrants and interested parties may call or write Terry C. Frazee, Western Regional Director, Office of Radiation Protection, at (360) 236-3213 or terry.frazee@doh.wa.gov; or Ellen G. Haars, Manager, X-Ray Section, at (360) 236-3231 or ellen.haars@doh.wa.gov. Information on the proposed rule will be mailed to registrants and interested parties in March and posted on the internet at www.doh.wa.gov/ehp/rp. Revisions of draft rules will be sent to commenters and will be posted on the internet.

Subject of Possible Rule Making: The department plans to amend rules in chapter 388-412 WAC and may create new rules in order to establish policy in this chapter. Rules proposed and amended under chapter 388-412 WAC will provide policy regarding the issuance, delivery, replacement, expungement, and adjustment of department benefits.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 74.04.050, 74.04.055, 74.04.057, 74.04.500, 74.04.510, 74.08A.020, 74.08.090, Titles 7 and 45 C.F.R.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The department plans to amend rules in chapter 388-412 WAC and may adopt new rules under this chapter to provide rules on how the department delivers benefits, when the department will replace benefits that were issued, when the department expunges benefits that have been unused in an electronic benefits transfer (EBT) account, and when the department will replace all or a part of expunged benefits.

Additionally, the department must provide for a process to adjust electronic benefits transfer accounts to correct transactions that were errantly recorded due to a system malfunction.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: The United States Department of Agriculture, Food and Nutrition Service (FNS) adopts federal regulations for the food stamp program under Title 7 of the United States Code of Federal Regulations, Parts 271-274. Additionally, FNS provides federal policy requirements through administrative notices and letters to state agency directors. The United States Department of Health and Human Services, Office of Family Assistance and Office of Refugee Assistance adopt federal regulations for the TANF program and Refugee Programs under Title 45 of the U.S. Code of Federal Regulations, Volume 2. The department develops a state plan for these programs consistent with Title 74 RCW and adopts rules under Washington Administrative Code.

Process for Developing New Rule: DSHS welcomes the public to take part in developing the rules. Anyone interested should contact the staff person identified below. At a later date, DSHS will file a proposal with the office of the code reviser with a notice of proposed rule making. PREPROPOSAL STATEMENT OF INQUIRY
CRIMINAL JUSTICE
TRAINING COMMISSION

[Filed March 5, 2007, 2:10 p.m.]

Subject of Possible Rule Making: WAC 139-05-210 Eligibility and standards required to attend the basic law enforcement equivalency academy.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 43.101.080 and 43.101.085.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The rule establishing the standards for entry into the basic law enforcement equivalency academy needs to be updated based upon language that is no longer applicable, and added language that defines the certification status of an officer as a result of completing the equivalency. The rule change will also set limitations to the break in law enforcement service that an officer may have and still be eligible for peace officer certification by completing the equivalency academy. The criminal justice training commission (CJTC) does not set standards for EVOC operation, the state patrol does, therefore language that requires EVOC training for equivalency applicants has been removed.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Only the CJTC regulates this rule.

Process for Developing New Rule: This rule will be placed before the commission for discussion on June 13, 2007.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Doug Blair, CJTC, Certification Manager, 19010 1st Avenue South, Burien, WA 98148, (206) 835-7354, dblair@cjtc.state.wa.us; Captain Ron Griffin, BLEA Commander, 19010 1st Avenue South, Burien, WA 98148, (206) 835-7331, rgriffin@cjtc.state.wa.us; or Carri Brezonick, Deputy Director, 19010 1st Avenue South, Burien, WA 98148, (206) 835-7341, cbrezonick@cjtc.state.wa.us.

PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF ECOLOGY

[Order 07-06—Filed March 6, 2007, 10:51 a.m.]

Subject of Possible Rule Making: This rule will amend chapter 173-545 WAC, Instream resources protection program—Wenatchee River basin, water resource inventory area (WRIA) 45. The proposed rule amendment will address revised instream flows and tools for managing water in the Wenatchee basin.

Statutes Authorizing the Agency to Adopt Rules on this Subject: Chapter 90.82 RCW, Watershed planning; chapter 90.54 RCW, Water Resources Act of 1971; chapter 90.22 RCW, Minimum water flows and levels; chapter 90.03 RCW, Water code; and chapter 90.44 RCW, Regulation of public ground waters.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Chapter 90.82 RCW allows local planning units, of which ecology is an active partner, to develop and recommend instream flows. RCW 90.82.130(4) states when a watershed plan is approved by the planning unit and the county legislative authority[.] Ecology, as a participating member of the planning unit, is obligated to use the plan for making future water resource decision within WRIA 45.

During the watershed planning process for WRIA 45 the current management flows in the 1983 flow rule (current chapter 173-545 WAC) was assessed and it was determined that changes should be made to better meet the needs of

aquatic species and humans in WRIA 45. The *Wenatchee River Watershed Plan* (April 2006) recommends a new water resource management strategy, including the management flows (revised instream flows) at specified control points, a reservation of water for future uses, and maximum allocations instream flow recommendations for the Wenatchee River and its tributaries.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Ecology has exclusive statutory authority under chapter 90.22 RCW to establish minimum instream water flows. Consultation will occur with the Washington state department of fish and wildlife, the Washington state department of health and the Yakama Nation. These agencies will continue to work with the department of ecology as part of the WRIA 45 watershed planning unit throughout the rule-making process.

Process for Developing New Rule: The new rule will be based on the proposal developed in the WRIA 45 watershed plan. Ecology will hold at least one open house prior to filing the CR-102 and proposed rule language. A focus sheet, web page, and public notice will be developed to explain the elements of the proposed rule and announce the date(s) of the open house(s). A press release, mailing and e-mail will be used to distribute the information. At the open house(s), staff will be available to discuss the proposal and answer questions. Informational displays and handouts will also be available.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting David Holland, Department of Ecology, CRO, Shorelands and Environmental Assistance Program, 15 West Yakima Avenue, Suite 200, Yakima, WA 98902, (509) 457-7112, dhol461@ecy.wa.gov, fax (509) 575-2809.

PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF REVENUE

[Filed March 6, 2007, 11:01 a.m.]

Subject of Possible Rule Making: WAC 458-40-660 Timber excise tax—Stumpage value tables and 458-40-640 Timber excise tax—Stumpage value area (map).

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 84.33.096, 82.32.300, and 82.01.060(2).

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: RCW 84.33.091 requires the department of revenue to revise the stumpage value tables every six months. The department establishes stumpage value tables to apprise timber harvesters of the timber values used to calculate the timber excise tax. The department anticipates amending WAC 458-40-660 to provide valuations for the second half of 2007. The stumpage value area (map) (WAC 458-40-640) establishes the stumpage value area and

hauling distance zone map, which is part of this rule, that must be used to determine the proper stumpage value table and haul zone in calculating the taxable stumpage value of timber harvested from private land. The department anticipates revising the SVA 6 haul zones in this map due to mill closures in Yakima.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Although the United States Forest Service and Washington state department of natural resources both regulate forest practices, neither is involved in valuation for taxation purposes. The nontax processes and definitions are coordinated with these agencies to avoid conflict, but there should be no need to involve them in the valuation revisions provided in this rule.

Process for Developing New Rule: Parties interested in this rule making may contact the individual listed below. The public may also participate by providing written comments throughout this rule making or giving oral testimony at the public meeting or public hearing.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication. Written comments may be submitted by mail, fax, or at the public meeting. Oral comments will be accepted at the public meeting. A preliminary draft [of] anticipated changes will be available upon request shortly before the public meeting. Written comments on and/or requests for copies of the rule may be directed to Mark E. PREPROPOSAL STATEMENT OF INQUIRY WHATCOM COMMUNITY COLLEGE

[Filed March 7, 2007, 9:20 a.m.]

Subject of Possible Rule Making: Amending WAC 132U-03-020 to delete old locations of operations, add web site as source of information, change location of information availability; WAC 132U-03-030 to change location of rules coordinator; WAC 132U-104-030 to change meeting day of board of trustees; WAC 132U-120-020 to add definition of dean of instruction; WAC 132U-120-110 to change term lengths and requirements of student rights and responsibilities committee; WAC 132U-120-285 to change time limits; chapter 132U-280 WAC to address FERPA elements of confidentiality, inspection by students or those to whom they release, and hearings challenging amendment denials; and chapter 132U-300 WAC to revise grievance procedures.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 28B.50.130 and 28B.50.140.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Whatcom Community College has constructed new buildings since the WACs were last done and locations of operations have changed. Technology improvements now allow use of the college web site as a source of information. A newly elected board of trustees has changed the day they will meet. The structure of the student rights and responsibilities committee has changed, and term lengths[,] etc. need to be amended. Technology and college practices make revisions to the FERPA chapter necessary, and the WAC on grievances and discrimination requires updating.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.
