EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 07-228—Filed September 20, 2007, 4:18 p.m., effective September 20, 2007, 4:18 p.m.]

Effective Date of Rule: Immediately.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-52-05100R; and amending WAC 220-52-051.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The regional 2007 state/tribal shrimp harvest management plans for Puget Sound require adoption of harvest seasons and the prohibition on night time fishing contained in this emergency rule. This emergency rule closes the commercial shrimp pot fishery for spot shrimp in the remaining catch areas of Puget Sound that are still open. These closures are necessary to protect spot shrimp during the onset of their egg-bearing period, as is required by the 2007 Puget Sound shrimp management plans. There is insufficient time to promulgate permanent rules.

NEW SECTION

WAC 220-52-05100S Puget Sound shrimp pot and beam trawl fishery—Season. Notwithstanding the provisions of WAC 220-52-051, effective immediately, until further notice, it is unlawful to fish for shrimp for commercial purposes in Puget Sound, except as provided for in this section:

(1) Shrimp pot gear:

(a) All waters of Shrimp Management Areas 1B, 1C, 2E, 2W, 3, and 6 are open immediately to the harvest of all

shrimp species, excluding spot shrimp, until October 15, 2007, except as provided for in this section:

(i) All waters of Catch Areas 23A-E, 23A-W, and the Discovery Bay Shrimp District are closed.

(ii) All spot shrimp caught must be immediately returned to the water unharmed.

(b) The shrimp accounting week is Monday through Sunday.

(i)(c) It is unlawful to fish for shrimp for commercial purposes in Puget Sound using shellfish pot gear in more than one Marine Fish-Shellfish Management and Catch Reporting Area per day. Fishers may move all of their shellfish pot gear from one Marine Fish-Shellfish Management and Catch Reporting Area to another Marine Fish-Shellfish Management and Catch Reporting Area if a harvest report is made before the shellfish pot gear is moved. The harvest activity report must be made consistent with the provisions of WAC 220-52-075 and must also include the following additional information:

(i) The number of pots being moved to a new area, and the Marine Fish-Shellfish Management and Catch Reporting Area that the pots are being moved to.

(d) It is unlawful to set or pull shellfish pots in one Marine Fish-Shellfish Management and Catch Reporting Area while in possession of shrimp harvested from another Marine Fish-Shellfish Management and Catch Reporting Area, except that shellfish pots may be set in a new fishing area subsequent to making a report as indicated in Section 1(c) above.

(2) Shrimp beam trawl gear:

(a) Shrimp Management Area 3 (outside of the Discovery Bay Shrimp District, Sequim Bay, and Catch Area 23D) is open immediately, until further notice. Sequim Bay includes those waters of Catch Area 25A south of a line projected west from Travis Spit on the Miller Peninsula. b) Catch area 20A and that portion of Catch Areas 20B, 21A and 22A within Shrimp Management Area 1B are open immediately, until further notice.

(3) It is unlawful to set or pull shrimp beam trawl gear from one hour after official sunset to one hour before official sunrise.

(4) All shrimp taken under this section must be sold to licensed Washington wholesale fish dealers.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear in the Register pursuant to the requirements of RCW 34.08.040.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-47-40100C; and amending WAC 220-47-401.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Fraser Panel has relinquished control for Fraser Panel areas (area defined under Art. XV, Annex. II, Pacific Salmon Treaty 1985) back to state authority. Harvestable numbers of marked coho and pink are available for a reef net fishery in Salmon Management and Catch Reporting Areas 7 and 7A. There is insufficient time to promulgate permanent rules.

NEW SECTION

WAC 220-47-40100D Reef net open periods. Notwithstanding the provisions of WAC 220-47-401, it is unlawful to take, fish for, or possess salmon taken with reef net gear for commercial purposes in Puget Sound, except in the following designated Puget Sound Salmon Management and Catch Reporting Areas, during the periods provided for in each area:

(1)			
AREA	TIME	DATES	
7, 7A	5 AM - 9 PM Daily	9/21 - 11/17	

(a) It is unlawful to retain Chinook or sockeye salmon taken with reef net gear at all times, and it is unlawful to retain chum or wild coho prior to October 1.

(2) All other saltwater and freshwater areas - closed.

"Quick Reporting Fisheries":

All fisheries opened under this section, and any commercial salmon fishery openings in Puget Sound Salmon Management and Catch Reporting Areas (WAC 220-22-030) are designated as "Quick Reporting Required" per WAC 220-47-001.

[Order 07-227—Filed September 21, 2007, 2:48 p.m., effective September 22, 2007, 12:01 a.m.]

Effective Date of Rule: September 22, 2007, 12:01 a.m.

Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order: Amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Lower Columbia fall chinook hatchery returns are behind schedule and brood stock goals are not being met. Stream surveys and creel sampling also indicate no large numbers of fall chinook present in several lower Columbia streams at this time. Other Columbia chinook stocks are returning below preseason forecasts and low stream flows are adding concerns for hatchery and wild tule fall chinook escapement. Wild fall chinook tules are listed as "threatened" under the Endangered Species Act. This rule change will also promote conservation by reducing snagging. There is insufficient time to promulgate permanent rules.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 07-231—Filed September 21, 2007, 5:05 p.m., effective September 25, 2007, 6:00 a.m.]

Effective Date of Rule: September 25, 2007, 6:00 a.m.

Purpose: The purpose of this rule making is to provide for treaty Indian fishing opportunity in the Columbia while

protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes and federal law governing Washington's relationship with Oregon.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-32-05100L; and amending WAC 220-32-051.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Puget Sound Gillnetters Ass'n v. Moos*, 92 Wn.2d 939, 603 P.2d 819 (1979); 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets an additional week of treaty fishing for fall season. An estimated 40,000 chinook are available for treaty harvest based on the in-season forecast of 115,000 upriver bright fall chinook. Allows the sale of fish caught in platform and hook and line fishery in Zone 6. Also allows the sale of fish caught in Yakama Nation tributary fisheries to be sold when those tributaries are open under the Yakama Nation rules, and a commercial season in the mainstem is open concurrently. Harvestable numbers of salmon and steelhead are available under the ESA guideline. The fishery catches are expected to remain within the allocation and guidelines of the 2005-2007 Management Agreement. Rule is consistent with action of the Columbia River compact on September 21, 2007. Conforms state rules with tribal rules. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the congressionally ratified Columbia River compact. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). The tribes and the states adopt parallel regulations for treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2005-2007 Interim Management Agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and Endangered Species

Act guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. *Sohappy*, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.

EMERGENCY RULES

DEPARTMENT OF

FISH AND WILDLIFE

[Order 07-225—Filed September 21, 2007, 5:05 p.m., effective October 1, 2007]

Effective Date of Rule: October 1, 2007.

Purpose: Amend personal use fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 232-28-61900X; and amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The department of fish and wildlife is in the process of adopting permanent rules that are necessary to implement the personal use fishing plans agreed-to with resource comanagers at the North of Falcon proceedings. These emergency rules are necessary to comply with agreed-to management plans, and are interim until permanent rules take effect.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 07-232—Filed September 21, 2007, 5:05 p.m., effective September 24, 2007, 7:00 a.m.]

Effective Date of Rule: September 24, 2007, 7:00 a.m.

Purpose: The purpose of this rule making is to allow fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relationship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-33-01000N; and amending WAC 220-33-010.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets one day of coho fishing in the lower river. There are upriver bright and lower river hatchery fall chinook impacts and ESA-listed coho impacts available for this fishery. The season is consistent with the 2005-2007 interim management agreement, the 2007 non-Indian salmon allocation agreement adopted for 2007. Regulation is consistent with compact action of July 26 and September 21, 2007. There is insufficient time to promulgate permanent rules.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Shappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). A federal court order sets the current parameters for sharing between treaty Indians and others. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407).

Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued biological opinions under 16 U.S.C. § 1536 that allow for some incidental take of these species in treaty and nontreaty Columbia River fisheries. The Washington and Oregon fish and wildlife commissions have developed policies to guide the implementation of these biological opinions in the states' regulation of nontreaty fisheries. Columbia River nontreaty fisheries are monitored very closely to ensure compliance with federal court orders, the Endangered Species Act, and commission guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. Representatives from the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and take public testimony when considering proposals for new emergency rules. WDFW and ODFW then adopt regulations reflecting agreements reached.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The upriver bright fall chinook run size has been upgraded to 115,000 fish at the mouth of the Columbia River, compared to the in-season update on September 17 of 105,000. This run size upgrade allows for additional opportunity in part of the Columbia River to resume the chinook retention fishery. There is insufficient time to promulgate permanent regulations.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. [Order 07-235—Filed September 25, 2007, 4:07 p.m., effective September 26, 2007, 7:00 a.m.]

Effective Date of Rule: September 26, 2007, 7:00 a.m.

Purpose: The purpose of this rule making is to allow fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relationship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-33-01000Q; and amending WAC 220-33-010.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington Fish and Wildlife Commission policies concerning Columbia river fisheries; 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets one day of coho fishing in the lower river. There are upriver bright and lower river hatchery fall chinook impacts and ESA-listed coho impacts available for this fishery. Very few lower river hatchery fall chinook (LRH) should be caught in this fishery, as the fish are in the tributaries or staging near the mouths where the commercial fishing sanctuaries are in place. The season is consistent with the 2005-2007 interim management agreement, the 2007 non-Indian salmon allocation agreement adopted for 2007. Regulation is consistent with compact action of July 26 and September 25, 2007. There is insufficient time to promulgate permanent rules.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Sohappy v. Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued biological opinions under 16 U.S.C. § 1536 that allow for some incidental take of these species in treaty and nontreaty Columbia River fisheries. EMERGENCY RULES

DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

(Health and Recovery Services Administration)

[Filed September 26, 2007, 8:33 a.m., effective September 26, 2007, 8:33 a.m.]

Effective Date of Rule: Immediately.

Purpose: This action is necessary because the department did not provide sufficient notice to stakeholders, as required by the Administrative Procedure Act (APA), of changes to WAC 388-544-0250 that eliminated certain covered services as then set forth in new WAC 388-544-0475 Noncovered services, eyeglasses, and contact lenses.

The department has filed CR-101 as WSR 07-10-125 to begin the permanent rule-making process for the noncovered services, eyeglasses, and contact lenses portion of chapter 388-544 WAC to correct this matter.

Citation of Existing Rules Affected by this Order: Amending WAC 388-544-0475.

Statutory Authority for Adoption: RCW 74.08.090.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: To bring the department into compliance with state law (Administrative Procedure Act).

This continues the emergency rule that is currently in effect under WSR 07-11-023 while the department completes the permanent rule-making process begun under WSR 07-10-125. The department anticipates filing the permanent rule proposal (CR-102) by January 2008.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 07-237—Filed September 27, 2007, 8:55 a.m., effective September 29, 2007, 12:01 a.m.]

Effective Date of Rule: September 29, 2007, 12:01 a.m.

Purpose: The purpose of this rule making is to allow fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relationship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Existing Rules Affected by this Order: Repealing WAC 232-28-61900B and 232-28-61900D; and amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The upriver bright fall chinook run size has been upgraded to 118,500 fish. This upgrade in run size allows for chinook retention throughout the Columbia River downstream of the Highway 395 Bridge in Pasco. Lower river fall chinook have generally moved out of the mainstem Columbia River at this time and will not be vulnerable to mainstem fisheries. The tributaries below Bonneville Dam including Camas Slough remain closed for chinook retention. Increased coho bag limit will provide additional harvest of hatchery coho and help reduce surplus to lower Columbia River hatcheries. There is insufficient time to promulgate permanent regulations.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). A federal court order sets the current parameters for sharing between treaty Indians and others. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407).

Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued biological opinions under 16 U.S.C. § 1536 that allow for some incidental take of these species in treaty and nontreaty Columbia River fisheries. The Washington and Oregon fish and wildlife commissions have developed policies to guide the implementation of these biological opinions in the states' regulation of nontreaty fisheries.

Columbia River nontreaty fisheries are monitored very closely to ensure compliance with federal court orders, the Endangered Species Act, and commission guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. Representatives from the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and take public testimony when considering proposals for new emergency rules. WDFW and ODFW then adopt regulations reflecting agreements reached.

[Order 07-236—Filed September 27, 2007, 1:00 p.m., effective October 1, 2007, 12:01 a.m.]

Effective Date of Rule: October 1, 2007, 12:01 a.m.

Purpose: Amend personal use fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 232-28-61900N and 232-28-61900C; and amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This regulation provides additional opportunity for sturgeon retention in the Columbia River and tributaries above the Wauna power lines. Significant numbers of harvestable sturgeon remain on the guideline for this area. Regulation is consistent with results of the September 26, 2007, joint state hearing on this issue and conforms Washington and Oregon rules. There is insufficient time to promulgate permanent rules.

(v) Mail or turn in any required proof to us by the due date on the review.

(c) **Complete the application process for another program.** If we approve an application for another program in the month you must complete your mid-certification review, we use the application to complete your review when the same person is head of household for the application and the mid-certification review.

(5) If your benefits change because of what we learned in your mid-certification review, the change takes effect the next month even if this does not give you ten days notice before we change your benefits.

(6) If you do not complete your required mid-certification review, we stop your benefits at the end of the month the review was due.

(7) **Late reviews.** If you complete the mid-certification review after the last day of the month the review was due, we process the review as described below based on when we receive the review:

(b) **Mid-certification reviews you complete after the last day of the month after the month the review was due:** We treat this review as a request to send you an application. EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
 (Economic Services Administration)

[Filed September 28, 2007, 8:21 a.m., effective October 1, 2007]

Effective Date of Rule: October 1, 2007.

Purpose: The department is amending rules in chapters 388-450, 388-478, and 388-492 WAC to update income, benefit, and deduction standards for the Washington Basic Food program and WASHCAP. These changes must be implemented effective October 1, 2007, to comply with federal requirements for the food stamp program.

Citation of Existing Rules Affected by this Order: Amending WAC 388-450-0185, 388-450-0190, 388-450-0195, 388-478-0060, and 388-492-0070.

Statutory Authority for Adoption: RCW 74.04.050, 74.04.055, 74.04.057, 74.04.510.

Other Authority: 7 C.F.R. § 273.9 Income and deductions.

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: The United States Department of Agriculture, Food and Nutrition Service (FNS) publishes new income standards, maximum benefit amounts, standard deduction, and maximum shelter standards at the end of each federal fiscal year to be used in the next federal fiscal year effective for October benefits. In addition, FNS requires the department to adjust the standard utility allowance and standards used in calculating WASHCAP benefits each year.

These changes are implemented at the start of each federal fiscal year on October 1.

AMENDATORY SECTION (Amending WSR 06-21-012, filed 10/6/06, effective 11/6/06)

WAC 388-450-0185 Does the department count all of my income to determine my eligibility and benefits for Basic Food? We subtract the following amounts from your assistance unit's (AU's) countable income before we determine your Basic Food benefit amount:

(1) A standard deduction based on the number of people in your AU under WAC 388-408-0035:

Eligible and ineligible AU members	Standard deduction
1	\$134
2	\$134
3	\$134
4	\$(139) <u>143</u>
5	\$(162) <u>167</u>
6 or more	\$(186) <u>191</u>

(2) Twenty percent of your AU's gross earned income (earned income deduction);

(3) Your AU's expected monthly dependent care expense as described below:

(a) The dependent care must be needed for AU member to:

- (i) Keep work, look for work, or accept work;
- (ii) Attend training or education to prepare for employment; or
- (iii) Meet employment and training requirements under chapter 388-444 WAC.

(b) We subtract allowable dependent care expenses that are payable to someone outside of your AU:

- (i) Up to two hundred dollars for each dependent under age two; and
- (ii) Up to one hundred seventy-five dollars for each dependent age two or older.

(4) Medical expenses over thirty-five dollars a month owed or anticipated by an elderly or disabled person in your AU as allowed under WAC 388-450-0200.

(5) Legally obligated current or back child support paid to someone outside of your AU:

- (a) For a person who is not in your AU; or
- (b) For a person who is in your AU to cover a period of time when they were not living with you.

(6) A portion of your shelter costs as described in WAC 388-450-0190.

AMENDATORY SECTION (Amending WSR 06-21-012, filed 10/6/06, effective 11/6/06)

WAC 388-450-0190 How does the department figure my shelter cost income deduction for Basic Food? The department calculates your shelter cost income deduction as follows:

(1) First, we add up the amounts your assistance unit (AU) must pay each month for shelter. We do not count any overdue amounts, late fees, penalties or mortgage payments you make ahead of time as an allowable cost. We count the following expenses as an allowable shelter cost in the month the expense is due:

- (a) Monthly rent, lease, and mortgage payments;
- (b) Property taxes;
- (c) Homeowner's association or condo fees;
- (d) Homeowner's insurance for the building only;
- (e) Utility allowance your AU is eligible for under WAC 388-450-0195;
- (f) Out-of-pocket repairs for the home if it was substantially damaged or destroyed due to a natural disaster such as a fire or flood;

(g) Expense of a temporarily unoccupied home because of employment, training away from the home, illness, or abandonment caused by a natural disaster or casualty loss if your:

- (i) AU intends to return to the home;
- (ii) AU has current occupants who are not claiming the shelter costs for Basic Food purposes; and
- (iii) AU's home is not being leased or rented during your AU's absence.

(2) Second, we subtract all deductions your AU is eligible for under WAC 388-450-0185 (1) through (5) from your AU's gross income. The result is your AU's net income.

(3) Finally, we subtract one-half of your AU's net income from your AU's total shelter costs. The result is your excess shelter costs. Your AU's shelter cost deduction is the excess shelter costs:

(a) Up to a maximum of four hundred (~~seventeen~~) thirty-one dollars if no one in your AU is elderly or disabled; or

(b) The entire amount if an eligible person in your AU is elderly or disabled, even if the amount is over four hundred (~~seventeen~~) thirty-one dollars.

WAC 388-478-0060 What are the income limits and maximum benefit amounts for Basic Food? If your assistance unit (AU) meets all other eligibility requirements for Basic Food, your AU must have income at or below the limits in column B and C to get Basic Food, unless you meet one of the exceptions listed below. Exceptions:

(1) If your AU is categorically eligible as under WAC 388-414-0001, your AU does not have to meet the gross or net income standards in columns B and C. We do budget your AU's income to decide the amount of Basic Food your AU will receive.

(2) If your AU includes a member who is sixty years of age or older or has a disability, your income must be at or below the limit in column C only.

(3) If you are sixty years of age or older and cannot buy and cook your own meals because of a permanent disability, we will use column E to decide if you can be a separate AU.

(4) If your AU has zero income, your benefits are the maximum allotment in column D, based on the number of eligible members in your AU.

- (c) Water or sewer;
- (d) Well or septic tank installation/maintenance;
- (e) Garbage/trash collection; and
- (f) Telephone service.

(2) The department uses the amounts below if you have utility costs separate from your rent or mortgage payment. We add your utility allowance to your rent or mortgage payment to determine your total shelter costs. We use total shelter costs to determine your Basic Food benefits.

(a) If you have heating or cooling costs, you get a standard utility allowance (SUA) that depends on your assistance unit's size.

- (a) Heating or cooling fuel;
- (b) Electricity or gas;

(c) If your AU has only telephone costs and no other utility costs, you get a telephone utility allowance (TUA) of (~~(thirty-eight)~~) forty dollars.

AMENDATORY SECTION (Amending WSR 06-21-011, filed 10/6/06, effective 11/6/06)

WAC 388-492-0070 How are my WASHCAP food benefits calculated? We calculate your food benefits as follows:

- (1) We begin with your gross income.
- (2) We subtract one hundred thirty-four dollars from your gross income to get your countable income.
- (3) We figure your shelter cost based on information we receive from Social Security Administration (SSA), unless you report a change as described under WAC 388-492-0080. If you pay:
 - (a) (~~(Three hundred forty-two)~~) Two hundred seventy-five dollars or more a month for shelter, we use three hundred (~~(fifty-four)~~) sixty-six dollars as your shelter cost; or
 - (b) Less than (~~(three hundred forty-two)~~) two hundred seventy-five dollars for shelter, we use one hundred (~~(seventy-one)~~) seventy-six dollars as your shelter cost; and
 - (c) We add the current (~~(limited)~~) standard utility allowance under WAC 388-450-0195 to determine your total shelter cost.
- (4) We figure your shelter deduction by subtracting one half of your countable income from your shelter cost.
- (5) We figure your net income by subtracting your shelter deduction from your countable income and rounding the resulting figure up from fifty cents and down from forty-nine cents to the nearest whole dollar.
- (6) We figure your WASHCAP food benefits (allotment) by:
 - (a) Multiplying your net income by thirty percent and rounding up to the next whole dollar; and
 - (b) Subtracting the result from the maximum allotment under WAC 388-478-0060.
 - (c) If you are eligible for WASHCAP, you will get at least ten dollars in food benefits each month.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 07-238—Filed September 28, 2007, 8:43 a.m., effective September 27, 2007, 8:00 p.m. [September 28, 2007, 8:43 a.m.]]

Effective Date of Rule: September 27, 2007, 8:00 p.m. [September 28, 2007, 8:43 a.m.]

Purpose: The purpose of this rule making is to allow fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relation-

ship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-33-01000Q; and amending WAC 220-33-010.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Provides one night of chinook target fishing in the upper river. Impacts on upriver bright fall chinook are available under the commercial allocation and the ESA guidelines. The season is consistent with the 2005-2007 interim management agreement, the 2007 non-Indian salmon allocation agreement adopted for 2007. Regulation is consistent with compact action of July 26 and September 26, 2007. There is insufficient time to promulgate permanent rules.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). A federal court order sets the current parameters for sharing between treaty Indians and others. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407).

Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued biological opinions under 16 U.S.C. § 1536 that allow for some incidental take of these species in treaty and nontreaty Columbia River fisheries. The Washington and Oregon fish and wildlife commissions have developed policies to guide the implementation of these biological opinions in the states' regulation of nontreaty fisheries. Columbia River nontreaty fisheries are monitored very closely to ensure compliance with federal court orders, the Endangered Species Act, and commission guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. Representatives from the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and take public testimony when considering proposals for new emergency

rules. WDFW and ODFW then adopt regulations reflecting agreements reached.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 07-239—Filed September 28, 2007, 1:54 p.m., effective October 3, 2007, 6:00 a.m.]

Effective Date of Rule: October 3, 2007, 6:00 a.m.

Purpose: The purpose of this rule making is to provide for treaty Indian fishing opportunity in the Columbia while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes and federal law governing Washington's relationship with Oregon.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-32-05100M; and amending WAC 220-32-051.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045 and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Puget Sound Gillnetters Ass'n v. Moos*, 92 Wn.2d 939, 603 P.2d 819 (1979); 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets an additional week of treaty fishing for fall season. An estimated 27,000 upriver bright chinook are available for treaty harvest based on the in-season forecast of 118,500 upriver bright fall chinook. Through September 28, an estimated 15,400 upriver bright chinook have been harvested. Allows the sale of fish caught in platform and hook and line fishery in Zone 6. Also allows the sale of fish caught in Yakama Nation tributary fisheries to be sold when those tributaries are open under Yakama Nation rules, and a commercial season in the mainstem is open concurrently. Harvestable numbers of salmon and steelhead are available under the ESA guideline. The fishery catches are expected to remain within the allocation and guidelines of the 2005-2007 management agreement. Rule is consistent with action of the Columbia River compact on September 27, 2007. Conforms state rules with tribal rules. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the congressionally ratified Columbia River compact. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). The tribes and the states adopt parallel regulations for treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2005-2007 interim management agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and Endangered Species Act guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. *Sohappy*, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Economic Services Administration)

[Filed September 28, 2007, 3:43 p.m., effective October 1, 2007]

Effective Date of Rule: October 1, 2007.

Purpose: The department is proposing the amendment of chapter 388-310 WAC, WorkFirst, to comply with the federal law changes under Deficit Reduction Act of 2005 (DRA), Public Law 109-171.

Citation of Existing Rules Affected by this Order: Amending WAC 388-310-0500, 388-310-0600, 388-310-0900, 388-310-1000, 388-310-1050, 388-310-1100, 388-310-1400, 388-310-1500, and 388-310-1700.

Statutory Authority for Adoption: RCW 74.04.050, 74.04.055, and 74.08.090.

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: The technical changes in the language in the WAC amendments will comply with the requirements of the DRA. The department is required to have these changes in place October 1, 2007, in order to comply with the state of Washington's TANF verification plan only recently approved by Health and Human Services on September 14, 2007. The rule is being concurrently amended through the regular adoption process (WSR 06-21-055, filed October 13, 2006).

DEPARTMENT OF
FISH AND WILDLIFE

[Order 07-241—Filed September 28, 2007, 4:47 p.m., effective September 28, 2007, 4:47 p.m.]

Effective Date of Rule: Immediately.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-47-31100M and 220-47-41100P; and amending WAC 220-47-311 and 220-47-411.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sockeye salmon nonretention for all gears in Areas 7, 7A, and 7B is necessary and pink salmon nonretention in purse seine gear for Areas 7, 7A, and 7B is also necessary to meet conservation goals for the areas. There is insufficient time to promulgate permanent rules.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 07-240—Filed September 28, 2007, 4:59 p.m., effective October 1, 2007, 7:00 a.m.]

Effective Date of Rule: October 1, 2007, 7:00 a.m.

Purpose: The purpose of this rule making is to allow fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act. This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relationship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-33-01000R; and amending WAC 220-33-010.

Statutory Authority for Adoption: RCW 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook, Sockeye, Steel-

head, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407); *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets first week of October fall fishing focusing on hatchery coho in the lower river. There are upriver bright and lower river hatchery fall chinook impacts and ESA-listed coho impacts available for this fishery. Very few lower river hatchery fall chinook (LRH) should be caught in this fishery, as the fish are in the tributaries or staging near the mouths where the commercial fishing sanctuaries are in place. The season is consistent with the 2005-2007 interim management agreement, the 2007 non-Indian salmon allocation agreement adopted for 2007. Regulation is consistent with compact action of July 26 and September 27, 2007. There is insufficient time to promulgate permanent rules.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). A federal court order sets the current parameters for sharing between treaty Indians and others. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2005-2007 Interim Management Agreement For Upriver Chinook,

Sockeye, Steelhead, Coho & White Sturgeon (May 11, 2005) (Doc. No. 2407).

Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal Endangered Species Act. The National Marine Fisheries Service has issued biological opinions under 16 U.S.C. § 1536 that allow for some incidental take of these species in treaty and nontreaty Columbia River fisheries. The Washington and Oregon fish and wildlife commissions have developed policies to guide the implementation of these biological opinions in the states' regulation of nontreaty fisheries. Columbia River nontreaty fisheries are monitored very closely to ensure compliance with federal court orders, the Endangered Species Act, and commission guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. Representatives from the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and take public testimony when considering proposals for new emergency rules. WDFW and ODFW then adopt regulations reflecting agreements reached.

EMERGENCY RULES SUPERINTENDENT OF PUBLIC INSTRUCTION

[Filed October 2, 2007, 11:30 a.m., effective October 2, 2007, 11:30 a.m.]

Effective Date of Rule: Immediately.

Purpose: Community and technical colleges are currently providing programs to at-risk/drop-out students under contract with the local school districts. The current rules created a bifurcation in colleges' program FTE reporting that is operationally confusing. This rule revision will create a uniform methodology of reporting student FTE for college programs.

Citation of Existing Rules Affected by this Order:
Amending WAC 392-121-188.

Statutory Authority for Adoption: RCW 28A.150.290.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is being applied to the 2006-07 school year for school district and community college programs being operated now.

AMENDATORY SECTION (Amending Order 99-01, filed 3/25/99, effective 4/25/99)

WAC 392-121-188 Instruction provided under contract. School districts have general authority to contract for the services of individuals to provide instruction, subject to applicable state and federal laws and local collective bargaining agreements. School districts also have authority to enter into interdistrict cooperative agreements for instructional services with other school districts under RCW 28A.225.250. However, when a school district contracts with an entity other than a school district and that entity employs staff to provide basic education instruction claimed by the school district for state basic education funding, the requirements of this section also apply. Instruction provided by such an entity (hereafter called the contractor) may be counted as a course of study and claimed by the school district for state funding if the following requirements are met:

(1) The school district board of directors in accordance with RCW 28A.320.015 adopts a resolution that concludes it is in the best interest of the students to expand the options available by providing an appropriate basic education program pursuant to the contract and sets forth the rationale in support of the conclusion;

(2) The school district retains full responsibility for compliance with all state and federal laws;

(3) The contractor complies with all relevant state and federal laws that are applicable to the school district;

(4) The contractor provides instruction free of sectarian or religious influence or control.

(5) The contractor serves the students at no cost to the student for tuition and fees and enrollment is voluntary and no student or person is unlawfully excluded from participation on the grounds of race, creed, color, national origin, sex, marital status, or presence of any sensory, mental, or physical handicap;

(6) Each student is enrolled in the school district reporting the enrollment and each high school student is working toward course credits which satisfy high school graduation requirements;

(7) If the contractor is a state higher education institution, a state funded education center, or any other state funded entity, the contractor is not claiming enrollment of the student or receiving direct state support for the contracted instruction reported pursuant to this section.

(8) The curriculum is approved by the district;

(9) The contractor provides enrollment reports to the school district that comply with this chapter;

(10) The contractor maintains and has available for audit or review by the school district, state, or federal authorities documentation of enrollment, hours of instructional activity participated in by the students, personnel data, and financial data including all revenues and expenditures pertaining to the contract with the school district;

(11) If a contractor other than an institution of higher education at any time during the school year serves more than twenty-five students which equals more than one quarter of one percent (.0025) of the district's annual average full-time equivalent enrollment claimed for basic education funding the school district reports the certificated instructional employees of the contractor funded with any state moneys or federal moneys that flow through the school district as required by the SPI annual personnel reporting system for calculation of state funding, staff ratios and statistics;

(12) If the contract is with an entity other than an institution of higher education, for the students served pursuant to the contract, the contractor maintains a ratio of full-time equivalent certificated instructional staff serving the annual average full-time equivalent students reported for basic education funding pursuant to this section which is at least equal to the district's basic education funding ratio for the grade level of the students being reported for basic education funding pursuant to this section;

(13) The school district and contractor execute a written contract which is consistent with this section, and which sets forth the duties of the contractor in detail sufficient to hold the contractor accountable to the school district;

(14) The school district and contractor establish a process for periodic on-site monitoring by the school district for compliance with this section and other terms of the contract between the school district and contractor;

(15) Contracts for services for students with disabilities shall comply with WAC 392-172-220 and 392-172-222;

(16) Full-time equivalent enrollment reported for students served under a contract with a higher education institution shall be based on the number of hours of instruction meeting the criteria in WAC 392-121-107 (1)(a) provided by staff of the higher education institution under the contract. This section does not apply to running start enrollment, which is governed by chapter 392-169 WAC or at-risk programs meeting the standards of subsection (18) of this section; and

(17) When a school district contracts for an alternative learning experience program and the contractor exercises primary responsibility for the student's written learning plan, the program shall be for academically at-risk students and shall comply with RCW 28A.150.305. Enrollment in these programs shall be reported pursuant to WAC 392-121-182.

(18) Full-time equivalent enrollment reported for students served under contract with a community or technical college as defined in RCW 28B.50.030 shall be based on the credits generated by the student consistent with WAC 392-169-025 if the program meets the following standards:

(a) The student is earning credits applicable to a high school diploma.

(b) The program is focused on serving credit deficient students.

(c) The student population served is considered at-risk and meet the following criteria:

(i) The students have already dropped out of high school:

or

(ii) The students have not demonstrated success in the traditional high school environment.
