Lowering of the Washington State and United States Flags

I hereby direct that Washington State and United States flags at all state agency facilities be lowered to half-staff **Thursday, April 15, 2010**, in memory of U.S. Army Specialist Joseph T. Caron, 21, of Tacoma, who died April 11 in Afghanistan, of injuries he sustained when an improvised explosive device detonated near his vehicle.

Please notify your staff and all of your field offices and facilities around the state.

Flags should remain at half-staff until close of business on Thursday, April 15, or first thing Friday morning, April 16.

Other government entities, citizens and businesses are encouraged to join this recognition.

Please call (360) 902-0383 if you have any questions about this flag lowering.

INTERPRETIVE STATEMENT DEPARTMENT OF REVENUE

[Filed April 26, 2010, 1:59 p.m.]

INTERPRETIVE STATEMENT ISSUED

ETA 3043.2010

Income Low-Density Light and Power Utility Deduction

The department of revenue has revised Excise Tax Advisory 3043.2009 Low-density light and power utility deduction (ETA 3043). This advisory explains the public utility tax deduction provided by RCW 82.16.053 to qualifying power and light businesses.

RCW 82.16.053 requires that the department determine the state average electric power rate each year and inform taxpayers of this rate. This rate is used by the power and light business to compute the amount of the deduction. The revised ETA 3043 updates the information to provide the rate to be used for the period of July 2010 through June 2011.

A copy of this document is available via the internet at Recent Rule and Interpretive Statements, Adoptions, and Repeals.

INTERPRETIVE STATEMENT DEPARTMENT OF REVENUE

[Filed April 26, 2010, 3:16 p.m.]

CANCELLATION OF INTERPRETIVE STATEMENTS

The department of revenue has cancelled the following excise tax advisories (ETAs).

ETA 3007.2009 Occupational Medicine Services and the Preferential B&O Rate Under RCW 82.04.263. This ETA explains the circumstances under which occupational medicine services are directly connected to and essential for clean-up services, and thus eligible for the preferential B&O tax rate provided by RCW 82.04.263. This document is no longer needed because the statute was amended by ESSB 6170 (chapter 469, Laws of 2009) to specifically provide that health services are always deemed to contribute to the accomplishment of a requirement of a clean-up project undertaken by the United States Department of Energy.

ETA 3157.2009 Information Technology Services and the Preferential B&O Rate Under RCW 82.04.263. This ETA explains the circumstances under which information technology services systems are directly connected to and essential for clean-up services, and thus eligible for the preferential B&O tax rate provided by RCW 82.04.263. This document is no longer needed because the statute was amended by ESSB 6170 (chapter 469, Laws of 2009) to specifically provide that information technology and computer support services are always deemed to contribute to the accomplishment of a requirement of a clean-up project undertaken by the United States Department of Energy.

Copies of the cancelled documents are available via the internet at Recent Rule and Interpretive Statements, Adoptions, and Repeals.

DEPARTMENT OF ECOLOGY

[Filed April 30, 2010, 11:09 a.m.]

Notice of a Draft New General Permit
for Biosolids Management

Notice is hereby given that the Washington state department of ecology (ecology) is seeking comments on a draft new general permit for biosolids management (general permit) to replace the expiring general permit.

Ecology was granted the authority to develop a state biosolids program (including the general permit) under RCW 70.95J.007. The purpose of the state biosolids rule (chapter 173-308 WAC) is to maximize beneficial use of biosolids while protecting human health and the environment. The purpose of the general permit is to implement the requirements of chapter 173-308 WAC.

Ecology previously sought public comment on its tentative decision to issue a new general permit. The comment period ended on February 20, 2010. No comments were received.

Ecology issued a determination of nonsignificance (DNS) under the State Environmental Policy Act (SEPA) for the draft general permit on May 18, 2010. After review of a completed environmental checklist and other information on file, ecology determined this proposal will not have a proba-

ble significant adverse impact on the environment. The DNS and completed environmental checklist are at <http://www.ecy.wa.gov/programs/swfa/biosolids/GeneralPermit.html>, or request a copy from the person listed below.

The state biosolids program regulates biosolids (including septage) applied to the land, biosolids sold or given away in a bag or other container, biosolids being stored, biosolids transferred from one facility to another, and sewage sludge disposed in a municipal solid waste landfill.

The general permit will apply to all treatment works treating domestic sewage in the state. The majority of these facilities are publicly owned wastewater treatment plants. Other types of facilities subject to the general permit include privately owned wastewater treatment plants that treat only domestic sewage, composting facilities that treat biosolids as a feedstock, biosolids beneficial use facilities, and septage management facilities.

The general permit is applicable within the boundaries of the state of Washington, including state and federal lands. It does not apply to lands within the boundaries of Indian reservations or lands outside of Indian reservations that are held in trust by the federal government for a tribe.

Three hundred seventy-nine facilities have stated they will apply for coverage under the general permit. A list of the facilities is available at <http://www.ecy.wa.gov/programs/swfa/biosolids/pdf/FacilitiesSubmitted.pdf> or by requesting from the person listed below.

Each facility seeking coverage under the general permit must submit a complete permit application as defined in the general permit and comply with any SEPA and public notice requirements. Facilities that have met all the procedural requirements and submitted all required documents will be "provisionally" approved for coverage under the general permit. Ecology will then conduct a full review of each facility's biosolids program before providing "final" approval of coverage.

In accordance with the requirements in WAC 173-308-90005(4), an economic impact analysis (EIA) was conducted on the draft general permit to assess whether it may have a disproportionate economic impact on small businesses relative to large businesses. Ecology found that the draft general permit would not have a disproportionate impact on small businesses. The EIA may be obtained from <http://www.ecy.wa.gov>.

wa.gov/programs/swfa/biosolids/GeneralPermit.html or by requesting from the person listed below.

Documents and information on the draft general permit may be obtained from http://www.ecy.wa.gov/programs/swfa/biosolids/GeneralPermit.html or by requesting from the person listed below.

Ecology is maintaining an interested parties list for anyone who wants to be informed about the general permit process. To be included on the list, notify the person listed below.

There will be a thirty day comment period for the draft general permit and the DNS. Comments can be submitted in writing or at a public hearing. Written comments will be accepted by e-mail or other means, including United States mail. Send written comments to the person listed below. Oral comments may be made during a public hearing that will occur at 1301 North Dolarway Road, Ellensburg, WA 98926, on June 22, 2010, from 4:00 p.m. - 6:00 p.m.

All comments received by 6:00 p.m. on June 22, 2010, will be considered during the development of a final general permit. A summary of responses to comments received will be prepared and made available. Ecology anticipates issuing a final general permit by August 1, 2010. Following issuance, there will be a thirty day appeal period for the final general permit before it becomes effective.

For comments, questions, or requests please contact Daniel Thompson, State Biosolids Coordinator, Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, e-mail Daniel.Thompson@ecy.wa.gov, phone (360) 407-6108. The physical address is 300 Desmond Drive S.E., Lacey, WA 98503.

PUBLIC NOTICE

Announcing the Issuance of the Aquatic Mosquito Control General Permit

Permit Issuance: The Washington state department of ecology (ecology) will issue a final aquatic mosquito control NPDES and state waste discharge general permit (permit) on May 19, 2010.

Purpose of the Permit: The purpose of the permit is to regulate the discharge of pollutants into waters of the state from mosquito control activities. This general permit provides coverage for discharges of larvicides and adulticides. The permit authorizes discharges to waters of the state of Washington subject to the permit conditions.

Public Notice Process and Comments: Ecology accepted public comments on the draft permit and fact sheet from February 3, 2010, until March 17, 2010. Ecology held two hearings and workshops in Moses Lake, Washington on March 9, 2010. Ecology received over five hundred comments during the public comment period and responded to these comments in a response to comments appended to the fact sheet. The comments and the fact sheet are available for review at ecology's web site at http://www.ecy.wa.gov/programs/wq/pesticides/final_pesticide_permits/mosquito/mosquito_index.html.

Copies of the Permit: You may download a copy of the permit, fact sheet, and response to comments at http://www.ecy.wa.gov/programs/wq/pesticides/final_pesticide_permits/mosquito/mosquito_index.html.

You may request copies of the documents from Julie Robertson at (360) 407-6575 or by e-mail at julie.robertson@ecy.wa.gov.

Ecology Contact: Jon Jennings, Washington State Department of Ecology, Water Quality Program, P.O. Box 47600, Olympia, WA 98504-7600, phone (360) 407-6283, fax (360) 407-6426, e-mail jonathan.jennings@ecy.wa.gov.

Appeal Options: The terms and conditions of this general permit, being issued May 19, 2010, may be appealed only by filing an appeal to the pollution control hearings board and by serving it upon the department of ecology at the addresses below. Appeals of the permit must be made within

thirty days of issuance or receipt, whichever is later (see chapter 43.21B RCW). "RCW" is the Revised Code of Washington. The procedures and requirements for the appeal process are contained in RCW 43.21B.310. An appeal must be filed with the **Pollution Control Hearings Board**, P.O. Box 40903, Olympia, WA 98504-0903; the **Department of Ecology**, P.O. Box 47600, Olympia, WA 98504-7600.

The applicability of a permit coverage to a specific discharger is also appealable within thirty days of the effective date of coverage of that discharger, in accordance with chapter 43.21B RCW.

SOCIAL AND HEALTH SERVICES

PRELIMINARY NOTICE OF CHANGES TO STATE OF WASHINGTON
NURSING FACILITY
MEDICAID PAYMENT RATE METHODOLOGY

May 19, 2010

Persons or organizations that have comments on the following may contact Edward Southon, Manager, Nursing Home Rates, Aging and Disability Services Administration, P.O. Box 45600, Olympia, WA 98504-5600, or southeh@dshs.wa.gov.

To comply with 42 U.S.C. 1396a (a)(13)(A), the department of social and health services (hereafter, department) must for all material changes to the methodology for determining nursing facility medicaid payment rates and requiring a Title XIX state plan amendment submitted to and approved by the Centers for Medicare and Medicaid Services (CMS) publish the proposed new methodologies for determining the payment rates and the underlying justifications.

In the February 2, 2010, WSR 10-04-088, the department published information about several bills before the Washington state legislature that would have modified the medicaid nursing facility payment system.

On April 12, 2010, the legislature passed ESSB 6872 that made several material changes to Washington's nursing facility medicaid payment rate methodology. In addition, the supplemental operating budget (ESSB 6444) included several material changes to the medicaid nursing facility payment system.

On May 4, 2010, the governor signed both bills into law. The governor vetoed section (6) of ESSB 6872. Section (6) would have changed the percent by which net invested funds are multiplied from 10 percent and 8.5 percent to 4 percent.

The department publishes the following material changes to Washington's nursing facility medicaid payment rate methodology resulting from ESSB 6872 and ESSB 6444. All of the changes take effect on July 1, 2010, unless noted otherwise.

Under RCW 74.46.421 (2)(b), the department must adjust the initial component rate allocations to assure that the statewide average payment rate of all nursing facilities is less than or equal to the statewide average payment rate specified in the Biennial Appropriations Act. The weighted average nursing facility payment rate shall not exceed \$169.85 for state fiscal year (SFY) 2010 and shall not exceed \$166.24 for

SFY 2011 which includes the \$1.57 low wage worker rate add-on.

There will be no adjustments for economic trends and conditions (vendor rate increases) in state fiscal years 2010 and 2011.

Definitions (RCW 74.46.020) are removed that are no longer necessary to implement chapter 74.46 RCW and the following definitions are added:

- **"Large nonessential community providers"** means nonessential community providers with more than sixty licensed beds regardless of how many beds are set up or in use.
- **"Small nonessential community providers"** means nonessential community providers with sixty or fewer licensed beds regardless of how many beds are set up or in use.

For purposes of calculating minimum occupancy, licensed beds include any beds banked. Minimum facility occupancy of licensed beds, regardless of how many beds are set up or in use, for operations, property, and financing allowance component rate allocations shall be:

- **Essential community providers - Eighty-five percent**
- **Small nonessential community providers - Ninety percent**
- **Large nonessential community providers - Ninety-two percent**

Minimum facility occupancy of licensed beds, regardless of how many beds are set up or in use, for all nursing facilities for therapy and support services component rate allocations shall be eighty-five percent.

Effective July 1, 2009, through June 30, 2012, the direct care, therapy care, support services, and operations component rate allocations shall be rebased using adjusted cost report data for calendar year 2007.

Beginning July 1, 2012, direct care, therapy care, support services, and operations component rate allocations shall be rebased biennially during every even numbered year thereafter using adjusted cost report data from two years prior to the rebase period, so adjusted cost report data for calendar year 2010 is used for July 1, 2012, through June 30, 2014, and so forth.

Effective July 1, 2010, there shall be no rate:

- Adjustments for facilities with banked beds under chapter 70.38 RCW; and
- Add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal year 2011.

For calendar year 2009, the department shall calculate split settlements covering two periods January 1, 2009, through June 30, 2009, and July 1, 2009, through December 31, 2009. For the second period beginning July 1, 2009, the department may partially or totally waive settlements only in specific cases where a nursing home can demonstrate significant decreases in costs from the first period.

For, July 1, 2010, the variable return component rate allocation for each facility shall be thirty percent of the facil-

ity's June 30, 2006, variable return component rate allocation. Effective July 1, 2011, the variable return component rate is repealed.

In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the department shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to department rule.

For a facility that was leased by a contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, the financing allowance rate will be the greater of the rate existing on June 30, 2010, or the rate calculated under RCW 74.46.437.

The department shall determine and update semiannually for each nursing facility serving medicaid residents a facility-specific per-resident day direct care component rate allocation, to be effective on the first day of each six-month period. The medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate semiannually shall be from the calendar six-month period commencing nine months prior to and ending three months prior to the effective date of the semiannual rate. For example, July 1, 2010, through December 31, 2010, direct care component rates shall utilize case mix averages from the October 1, 2009, through March 31, 2010, calendar quarters, and so forth.

The department must identify for all semiannual rate settings following the date of MDS 3.0 implementation a previously established semiannual case mix adjustment established for the semiannual rate settings that will be used for semiannual case mix calculations in direct care until minimum data set 3.0 is fully implemented. After the department has fully implemented minimum data set 3.0, it must adjust any semiannual rate setting in which it used the previously established case mix adjustment using the new minimum data set 3.0 data.

In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as specified by rule.

Each case mix classification group shall be assigned a case mix weight. The case mix weight for each resident of a nursing facility for each calendar quarter or six-month period during a calendar year shall be based on data from resident assessment instruments completed for the resident and weighted by the number of days the resident was in each case mix classification group.

Effective July 1, 2010, the .06 percent add-on established in 2001, by the legislature to "increase the median price per case-mix unit" is eliminated. Since 2001, a regular rebase has been enacted in statute which takes into account actual changes in case mix, the costs therein, and makes funding adjustments accordingly.

Direct care component rates at the AIDS pilot facility shall be based on direct care reported costs at the pilot facility, utilizing the same rate-setting cycle prescribed for other nursing facilities, and as supported by a staffing benchmark based upon a department-approved acuity measurement system.

There will be a direct care rate add-on for any nursing facility specializing in the care of residents with traumatic brain injuries where more than fifty percent of residents are classified with this condition based upon the federal minimum data set assessment.

The department shall establish, by rule, the procedures, principles, and conditions for a pay-for-performance supplemental payment structure that provides payment add-ons for high performing facilities. To the extent that funds are appropriated for this purpose, the pay-for-performance structure will include a one percent reduction in payments to facilities with exceptionally high direct care staff turnover, and a method by which the funding that is not paid to these facilities is then used to provide a supplemental payment to facilities with lower direct care staff turnover.

To simplify the medicaid nursing facility payment system, the following acts or parts of acts are each repealed. The department will codify in WAC any portions of the repealed statutes that it determines are necessary to implement or support the medicaid nursing facility payment system.
