PUBLIC NOTICE
Final Issuance of the Modified Industrial Stormwater General Permit

The Washington state department of ecology (ecology) has issued a final modified industrial stormwater national pollutant discharge elimination system and state waste discharge general permit (permit). The modified draft permit and fact sheet were available for review and public comment from February 1, 2012, to March 16, 2012. The modified permit is effective July 1, 2012, and is scheduled to expire in January 2015.

Purpose of the Permit: The permit provides coverage for industries located in Washington state that discharge stormwater associated with industrial activities. Under federal and state water quality law (Federal Clean Water Act and State Water Pollution Control Act), a permit is required for the discharge of wastewater. The federal definition of wastewater includes stormwater associated with industrial activities.

Most facilities that discharge stormwater from industrial activity either directly or indirectly to surface water are required to obtain permit authorization for their discharge unless they apply for and receive a "no exposure" exemption. Facilities with a "stormwater discharge associated with industrial activity," as defined in the Code of Federal Regulations (C.F.R.) at 40 C.F.R. Subpart 122.26 (b)(14)(i-xi, excluding x) are subject to coverage under the permit.

Applying for Coverage under the Permit: Facilities that are covered under the existing permit will automatically be covered under the new modified permit. New or unpermitted facilities may obtain coverage under the permit by submitting a complete permit application to ecology and satisfying all applicable public notice and State Environmental Policy Act requirements (WAC 173-226-200). The application is available on-line at www.ecy.wa.gov/biblio/ecy02084.html.

Copies of the Permit: The permit, response to comments, and fact sheet are available on-line at www.ecy.wa.gov/programs/wq/stormwater/industrial/index.html. You may request copies from Julie Robertson at (360) 407-6575 or by e-mail Julie.Robertson@ecy.wa.gov.

Public Notice Process and Comments: Ecology accepted written comments on the draft permit and fact sheet from **February 1, 2012, to March 16, 2012**. Ecology held four public workshops on the draft permit in Seattle, Vancouver, Mount Vernon, and Moses Lake. Ecology held one public hearing in Seattle on March 12, 2012.

Your Right to Appeal the Permit Modification: You have a right to appeal the permit modification to the pollution

control hearing[s] board (PCHB) within thirty days of the date of receipt of this notice. The appeal process is governed by chapters 43.21B RCW and 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do the following within thirty days of the date of receipt of this permit issuance notice:

- File your appeal and a copy of this notice with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this notice on ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

PUBLIC NOTICE
Final Issuance of the Irrigation System Aquatic Weed Control NPDES General Permit

The Washington state department of ecology (ecology) renewed the irrigation system aquatic weed control national pollutant discharge elimination system (NPDES) and state

waste discharge general permit (permit) on May 16, 2012. The permit was last issued in February 2008 and then modified in March 2010.

Purpose of the Permit: The permit covers the discharge of pesticides used in irrigation systems in Washington state to control plant and algae growth. Under the Washington State Water Pollution Control Act, a permit is required to discharge pollutants that alter the biological or chemical characteristics of a water body. The permit addresses these legal requirements and regulates the discharge of pollutants to protect water quality. The new permit includes changes for endothall (Cascade and Teton) and fluridone. The effective use of endothall enables less use of the more toxic acrolein.

Ecology issues a general permit in place of a series of individual permits for similar permitted activities. Individual activities that receive coverage under the general permit must comply with the terms and conditions of the permit.

Public Notice Process and Comments: Ecology accepted written comments on the draft permit from February 15, 2012, to March 30, 2012. Ecology held one public hearing and workshop on the permit March 27, 2012, in Yakima, Washington. The comments and ecology's response to comments and other permit documents are available on-line at www.ecy.wa.gov/programs/wq/pesticides/irrigation/irrigation_index.html.

Copies of the Permit: You may request copies of the permit, response to comments, and fact sheet by contacting Laurie Morgan at the address below. The documents are also available on-line at www.ecy.wa.gov/programs/wq/pesticides/irrigation/irrigation_index.html.

Ecology Contact: Laurie Morgan, Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, Laurie.Morgan@ecy.wa.gov.

Entities Covered by Permit: The new permit will continue to cover entities that are covered by the current permit. The following entities are covered under the current permit:

1. Cascade Irrigation District
2. Columbia Irrigation District
3. East Columbia Basin Irrigation District
4. Ellensburg Water Company
5. Icicle and Peshastin Irrigation District
6. Kennewick Irrigation District
7. Kittitas Reclamation District
8. Naches-Selah Irrigation District
9. Quincy-Columbia Basin Irrigation District
10. Roza Irrigation District
11. Selah-Moxee Irrigation District
12. South Columbia Basin Irrigation District
13. Sunnyside Valley Irrigation District
14. Union Gap Irrigation District
15. Wenatchee Reclamation District
16. Westside Irrigating Company
17. Yakima-Tieton Irrigation District

New or currently nonpermitted entities may obtain coverage under the permit by submitting a completed permit application to ecology.

Your Right to Appeal the Permit: You have a right to appeal this permit to the pollution control hearing[s] board (PCHB) within thirty days of the date of receipt of this notice.

The appeal process is governed by chapters 43.21B RCW and 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do the following within thirty days of the date of receipt of this permit issuance notice:

- File your appeal and a copy of this notice with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this notice on ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

HEALTH CARE AUTHORITY

[Filed May 2, 2012, 6:51 a.m.]

NOTICE

Document Title: Title XIX State Plan Amendment (SPA) 12-017.

Subject: State plan changes related to payments for trauma care services under managed care and the emergency and trauma care support pool.

Effective Date: July 1, 2012.

Description: The health care authority (HCA) currently makes supplemental payments to trauma care providers for services to medicaid fee-for-service (FFS) clients who meet or exceed specified injury severity scores (ISS). Trauma care services provided to medicaid managed care enrollees are excluded from these supplemental payments. The nonfederal share of these supplemental payments for trauma care come from the trauma care fund (TCF), a dedicated trust account

created by the legislature in 1997 to help offset the high cost to providers of operating and maintaining the statewide trauma care system.

Beginning July 1, 2012, over seventy percent of medic-aid clients will be served by managed care organizations, including FFS populations who account for the bulk of cases qualifying for the trauma supplemental payment program. To reflect this medicaid population shift to managed care, the HCA is proposing to add language to the state plan allowing supplemental payments for qualified trauma care services provided to medicaid clients enrolled in managed care who meet published trauma program criteria. Consistent with this policy change, the HCA is amending WAC 182-550-5450 and 182-531-2000. See WSR 12-07-074.

In addition, the HCA is proposing to create an emergency and trauma care support pool (the "pool") for the purpose of maintaining support payments to Level I, II and III trauma care hospitals for trauma care services to medicaid clients, and to defined major air ambulance providers, i.e., Airlift Northwest. Base payments for hospital and air ambulance services are included in the managed care capitation rates, but trauma supplemental payments are not. To ensure adequate compensation reaches the critical trauma care providers, HCA proposes to direct "pool" resources (TCF and federal matching funds for hospitals) specifically to eligible Level I, II and III hospitals using the distribution method approved under the state plan (and outside the capitation rate). HCA proposes to make direct supplemental payments to Airlift Northwest using the same methodology authorized under the state plan. The HCA is applying to the Centers for Medicare and Medicaid Services (CMS) for authority to implement these proposals under a Section 1115 Demonstration Waiver.

The HCA will pay for eligible trauma care physician services through the managed care plans (enhanced rates are factored into the capitation rates).

HCA's proposed changes are budget-neutral.

For additional information, contact Sandy Stith, Office of Hospital Finance, P.O. Box 45500, Olympia, WA 98504, phone (360) 725-1949, TDD/TTY 1-800-848-5429, fax (360) 753-9152, e-mail sandy.stith@hca.wa.gov.
