Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 28B.50.140, chapter 34.05 RCW, Administrative Procedure Act.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: CCS seeks to amend chapter 132Q-136 WAC for its use of district facilities. An amendment to the rules is necessary to codify both the scheduling and reservation process as well as the appeal process. CCS is committed to protecting the first amendment rights of students, faculty and employees. In amending the WAC, CCS seeks to implement policies and procedures that protect due process rights while recognizing the importance [of] first amendment rights on campus.

[Filed March 14, 2019, 10:26 a.m.]

Subject of Possible Rule Making: Setting requirements for when claimants are eligible for unemployment benefits while physically located outside of the United States.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 50.12.010 and 50.12.040 provide general rule-making authority to the employment security department (ESD). RCW 50.12.042 and 50.20.010 provide specific rule-making authority regarding the requirement that unemployment claimants register for work, be able to work, be available for work, and actively seek work.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The commissioner has issued a precedential decision (*In re McConnell*, Empl. Sec. Comm'r Dec.2d 1005 (2016)) that holds that claimants can still be eligible for unemployment benefits even when they are physically located outside of the United States. Rule making is needed to set clear standards for when claimants are or are not eligible for unemployment benefits while physically located in another country.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: The United States Department of Labor (USDOL) reviews the state's administration of the unemployment insurance program to ensure conformity to federal statutes and regulations. The state has broad flexibility in the implementation of the unemployment insurance laws so long as conformity is maintained. The proposed regulations will be shared with USDOL prior to adoption.

Process for Developing New Rule: The proposed rule will be shared with stakeholders as identified through the standard rule-making process. ESD will solicit input and consider all comments in the development of the final rule.

PREPROPOSAL STATEMENT OF INQUIRY DEPARTMENT OF HEALTH

[Filed March 20, 2019, 8:30 a.m.]

Subject of Possible Rule Making: Chapter 246-440 WAC, Health care-associated infections reporting.

The department of health (department) is considering amending rules on health care associated infection (HAI) reporting requirements. The Centers for Medicare and Medicaid Services (CMS) has updated its reporting requirements and established separate requirements by type of hospital rather than the generic reporting of the same requirements by all hospitals as has previously been the case in Washington state. Updated hospital reporting requirements may be needed to align with new CMS changes.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 43.70.056 gives specific authority to the department for updating hospital reporting requirements for health care associated infections. "The department shall, by rule, delete, add, or modify categories of reporting when the

department determines that doing so is necessary to align state reporting with the reporting categories of the centers for medicare and medicaid services."

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: CMS has updated its requirements and regulations and the department has determined that updates to chapter 246-440 WAC may be needed to reflect CMS updates. Aligning data reporting requirements with CMS streamlines reporting for hospitals who must also report the same data to CMS.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: The data collected by this rule populates the Center for Disease Control's (CDC) National Healthcare Safety Network (NHSN), the nation's most widely used HAI tracking system. NHSN data are analyzed by CDC, the states, and others to direct actions for HAI prevention. Local, state, and national HAI trends are used to identify emerging problems and areas of concern that need intervention, and to measure progress in HAI reduction against national, state, and local prevention goals. It is critical that data collected and reported by Washington's hospitals aligns with CMS reporting requirements to support these programs for tracking, trend analysis, and appropriate interventions.

Process for Developing New Rule: The department will use a collaborative rule-making process to develop the proposed rules.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Sara Podczervinski, 1610 N.E. 150th [Street], Shoreline, WA 98155, phone 206-418-5519, TTY 360-833-6388 or 711, email hai@doh.wa.gov.

Additional comments: Interested parties can participate in the drafting of the proposed rule. The department will use existing listserv, the HAI web site, and other known contact information to inform stakeholders of opportunities to provide input on propose[d] rule language. To be included on an interested parties list, contact Sara Podczervinski, Department of Health, 1610 N.E. 150th [Street], Shoreline, WA 98155, 206-418-5519, or hai@doh.wa.gov.
