EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 21-29—Filed March 3, 2021, 4:22 p.m., effective March 8, 2021]

Effective Date of Rule: March 8, 2021.

Purpose: The purpose of this rule is to close recreational fisheries in coastal streams and systems where wild steelhead escapement goals are unlikely to be met.

Citation of Rules Affected by this Order: Repealing WAC 220-312-02000G; and amending WAC 220-312-020.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: These measures are being taken to protect wild steelhead stocks. Most coastal wild steelhead runs are expected to return below escapement targets as they have the past four seasons and have failed to meet management objectives. In-season information and increased concern for meeting conservation objectives has lead to a closure in coastal rivers where escapement goals are unlikely to be met while maintaining emergency measure[s] already in place for the Hoh and Quillayute systems. There is insufficient time to adopt permanent rules.
