

WSR 21-13-001
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 21-83—Filed June 2, 2021, 4:06 p.m., effective June 4, 2021]

Effective Date of Rule: June 4, 2021.

Purpose: The purpose of this emergency rule is to open retention seasons for spring Chinook salmon in Snake River.

Citation of Rules Affected by this Order: Amending WAC 220-312-050.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The 2021 return of upriver spring Chinook salmon was upgraded by the *U.S. v. Oregon* technical advisory committee to eighty-seven thousand from seventy-five thousand two hundred. This allows for additional harvest within the Snake River based on Washington department of fish and wildlife commission Policy C-3630. The *U.S. v. Oregon* (2018-2027) Management Agreement provides Endangered Species Act coverage for this fishery.

There is insufficient time to adopt permanent rules.
