Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: The department of agriculture (department) is proposing to adopt the current version of the United States Department of Agriculture (USDA) organic regulations (7 C.F.R. Part 205).

The department adopts these national standards for organically produced agricultural products in order to remain uniform with the National Organic Program. These standards assure consumers that products with the USDA organic seal meet consistent, uniform standards that are in compliance with federal regulations.
