Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: This rule amendment proposal, if adopted, reclassifies the western gray squirrel from threatened to endangered.

Anticipated effects include communicating a higher level of conservation concern for the species, their conservation needs, and recovery actions with partners and the public. Additionally, there is an increased penalty for unlawful taking under RCW 77.15.120.

Finally, the western gray squirrel already has a recovery plan required by WAC 220-610-110.

If the status change is adopted, western gray squirrel will be removed from the list of threatened species in WAC 220-200-100 Wildlife classified as protected shall not be hunted or fished, and added to the list of endangered species under WAC 220-610-010.

Reasons Supporting Proposal: Important known threats to the western gray squirrel populations in Washington are:

- Habitat loss.
- Degradation and fragmentation.
- Small population size and isolation.
- Disease and highway mortality.

Western gray squirrel habitat loss linked to logging, wildfire, land conversion, and fire. Climate change is both a current and potential future threat to habitat. Examples include stand-replacement fire, changes in resulting stand composition, and effects on food supply such as production of fungi and seeds.

The southern Puget Trough population has increased since 2007's recovery plan. It is still very limited in size and constrained by the area and fragmentation of its habitat.

Because of the species' small total population size and the isolation of the three populations, continuing threats of wildfires and timber harvest, and a likely decline in habitat of >20 percent in both the North Cascades and Klickitat regions, it is recommended that the western gray squirrel be uplisted to endangered in Washington.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

Statute Being Implemented: RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

Rule is not necessitated by federal law, federal or state court decision.

Agency Comments or Recommendations, if any, as to Statutory Language, Implementation, Enforcement, and Fiscal Matters: None.

Name of Proponent: Washington department of fish and wildlife, governmental.

Name of Agency Personnel Responsible for Drafting and Implementation: Eric Gardner, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2515; Enforcement: Steve Bear, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2373.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is not required under RCW 34.05.328.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(4).

Scope of exemption for rule proposal:

Is fully exempt.
