PERMANENT RULES

DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

(Aging and Long-Term Support Administration)

[Filed July 28, 2023, 7:21 p.m., effective August 28, 2023]

Effective Date of Rule: Thirty-one days after filing.

Purpose: Amending WAC 388-106-0010 What definitions apply to this chapter? and 388-106-0130 How does the department determine the number of hours I may receive for in-home care? Most changes are a result of the department's efforts to modernize the comprehensive assessment and reporting evaluation (CARE) assessment tool. The amendments are consistent with updates made to the CARE tool. The changes were intended to be a part of WSR 20-23-124 and went through the majority of the rule-making review process, but had to be withdrawn in order to prioritize other rule-making priorities. There have been no changes that affect how the department determines eligibility or benefit level using the CARE tool.

In addition, in WAC 388-106-0010, "Turning and repositioning program," "Passive range of motion," "Active range of motion," and "Bowel program" definitions are being added. A couple of definitions that are no longer relevant are being removed.

In WAC 388-106-0130, subsection (6)(d) indicating "home health aide" is being removed because it has not been a service available in the COPES waiver since 2017 (public notice filed as WSR 16-15-065). Subsection (6)(c) is being removed because it is being added to WAC 388-106-0010, "Informal support" definition in this rule-making effort. Other updates to terminology were made due to CARE modernization.

"Self-performance for ADLs" means a code based on what you actually did for yourself and how much help you received with ADLs, with

the exception of bathing, in the last seven days before your assessment, not what you might be capable of doing. For codes of supervision, limited assistance, and extensive assistance, self-performance for ADLs is based on your level of performance that occurred three or more times in the seven-day period. Scoring of self-performance for ADL((s)) codes of supervision, limited assistance, and extensive assistance, does not include physical assistance that occurred less than three times in the seven-day look back period, or set-up help for any self-performance ADL code. ((Your self performance level is scored as:))

(1) Based on information provided during your assessment, the CARE tool assigns a self-performance code to each ADL. When you received the same type of help (such as oversight, nonweight bearing, or weight bearing help) with an ADL at least three times, CARE assigns the self-performance code associated with the most dependent type of help you received at least three times. Your self-performance level code is:

((1)) (a) Independent, if you received:

(i) no help, including oversight, encouragement, or cueing, or;

(ii) help including oversight, encouragement, or cueing only once or twice in the seven-day period; ((or oversight, or if you needed help or oversight only once or twice;))

((2)) (b) Supervision, if you received oversight (monitoring or standby), encouragement, or cueing three or more times;

((3)) (c) Limited assistance, if you were highly involved in the ADL and received assistance that involved physical, nonweight bearing contact between you and your caregiver, or guided maneuvering of limbs ((n)) three or more ((occasions)) times.

((4)) (d) Extensive assistance, if you performed part of the ADL, but on three or more occasions, you needed weight bearing ((support)) help or you ((received full performance of a)) did not participate in a subtask of the ADL, but ((not all,)) did participate in other subtasks of the ADL.

((5)) (e) Total dependence, if you did not participate at all in the completion of the ADL. Every time the ADL was completed during the entire seven-day period, you received ((full caregiver performance every time the ADL and)) complete assistance of all subtasks ((are)) completed during the entire seven-day period ((from)) by others. ((Total dependence means complete nonparticipation by you in all aspects of the ADL)); or

((6)) (f) ((ADL)) Did not occur, if you or others did not perform ((an)) the ADL over the last seven days before your assessment. This means the activity did not happen. For example, for "walk in room" to have a code of "did not occur" it means in the last seven days before your assessment, you did not walk even one time. The ADL may not have occurred because:

((a)) (i) You were not able ((e.g., walking)) such as, you were not able to walk because you are ((if)) paralyzed;

((b)) (ii) No provider was available to assist; or

((c)) (iii) You declined ((assistance)) help with the task.

(2) When your self-performance code is not independent, extensive assistance, total dependence, or did not occur, and you received help with the ADL at least three times, but not three times of the same type of help, the CARE tool determines a self-performance code by:

(a) Selecting the three times where you received the most help;

and

(b) Assigning a self-performance code based on the least dependent type of help of those three times.

(3) CARE assigns a self-performance code of:

(a) Supervision, if oversight, encouragement, or cueing was the least dependent type of help you received of the three times; or

(b) Limited assistance, if nonweight bearing help or guided maneuvering of your limbs was the least dependent type of help you received out of the three times.

(c) For example, if you received oversight help twice, nonweight bearing help twice, and weight bearing help twice, CARE:

(i) Selects two times of weight bearing help and one time of nonweight bearing help because these were the three times where you received the most help; and

(ii) Assigns a self-performance code of limited assistance because nonweight bearing help was the least dependent type of help you received out of the three times where you received the most help.

"Self-administration of medication" means your ability to manage your prescribed and over the counter medications. Your level of ability is coded for the highest level of need and scored as:

(1) Independent, if you remember to take medications as prescribed and manage your medications without assistance.

(2) Assistance required, if you need assistance from a nonlicensed provider to facilitate your self-administration of a prescribed, over the counter, or herbal medication, as defined in chapter 246-888 WAC. Assistance required includes reminding or coaching you, handing you the medication container, opening the container, using an enabler to assist you in getting the medication into your mouth, alteration of a medication for self-administration, and placing the medication in your hand. This does not include assistance with intravenous or injectable medications. You must be aware that you are taking medications.

(3) Self-directed medication assistance/administration, if you are an adult with a functional disability who is capable of and who chooses to self-direct your medication assistance/administration as prescribed by your medical professional.

(4) Must be administered, if you must have prescription or over the counter medications placed in your mouth or applied or instilled to your skin or mucus membrane. Administration must either be performed by a licensed professional or delegated by a registered nurse to a qualified caregiver (per chapter 246-840 WAC). Administration may also be performed by a family member or unpaid caregiver in in-home settings or in residential settings if facility licensing regulations allow. Intravenous or injectable medications may never be delegated except for insulin injections.

"Self-performance for bathing" means what you actually did in the last seven days before your assessment, not what you might be capable of doing or how well you performed the ADL of bathing. Self-performance for bathing is based on your level of performance that occurred on at least one or more occasions in the seven-day period. Scoring of self-performance for bathing does not include physical assistance that did not occur in the seven-day look back period, or set-up help. Your self-performance level is scored as:

(1) Independent, if you received no help or oversight to complete the ADL of bathing.

(2) Supervision, if in order to bathe you received oversight (monitoring or standby), encouragement, or cueing.

(3) Physical help transfer only, if in order to bathe you had help to transfer only.

(4) Physical help, if in order to bathe you had hands on assistance with bathing, but you did not receive full caregiver performance of the ADL of bathing.

(5) Total dependence, if in order to bathe you received full caregiver performance of the ADL of bathing every time. Total dependence means complete physical nonparticipation by you in all aspects of bathing; or the ADL:

(6) Did not occur, if you or others did not perform the ADL of bathing over the last seven days before your assessment. The ADL of bathing may not have occurred because:

(a) You were not able (~~((e.g.))~~) for example, you may be paralyzed);

(b) No provider was available to assist; or

(c) You declined because you chose not to perform the ADL.

"Self-performance for IADLs" means what you actually did in the last (~~(thirty))~~) 30 days before the assessment, not what you might be capable of doing or how well you performed the IADL. Scoring is based on the level of performance that occurred at least one time in the (~~(thirty))~~) 30-day period. Your self-performance is scored as:

(1) Independent, if you received no help, set-up help, or supervision;

(2) Assistance, if you received any type of help with the (~~(task))~~) activity, including setup, cueing, or monitoring, or the activity was fully performed by others in the last (~~(thirty))~~) 30 days;

(3) Total assistance, if you are a child and needed the IADL fully performed by others and you are functioning outside of typical developmental milestones; or

(4) IADL did not occur, if you or others did not perform the IADL in the last (~~(thirty))~~) 30 days before the assessment.

"Service summary" is CARE information which includes: Contacts (~~((e.g.))~~) such as, emergency contacts), services the client is eligible for, number of hours or residential rates, personal care tasks, the list of formal and informal providers and what tasks they will provide, a (~~(provider))~~) preferred schedule if identified by the client, identified referrals(~~(/information))~~), and dates and agreement to the outlined services.

"SSI-related" is defined under WAC 182-512-0050.

"Status" means the level of assistance:

(1) That will be provided by informal supports; or

(2) That will be provided to a child primarily due to his or her age.

(3) The department determines the status of each ADL or IADL and codes the status as follows:

(a) Met, which means the ADL or IADL will be fully provided by an informal support;

(b) Unmet, which means an informal support will not be available to provide assistance with the identified ADL or IADL;

(c) Partially met, which means an informal support will be available to provide some assistance, but not all, with the identified ADL or IADL;

(d) Age appropriate or child under (age), means proficiency in the identified task is not expected of a child that age and a child that age would require assistance with the task with or without a functional disability. The department presumes children have a responsible adult(s) in their life to provide assistance with personal care

tasks. Refer to the developmental milestones table in WAC 388-106-0130; or

(e) Client declines, which means you will not want assistance with the task.

"Supplemental security income (SSI)" means the federal program as described under WAC 182-500-0100.

"Support provided" means the highest level of support provided (to you) by others in the last seven days before the assessment, even if that level of support occurred only once. The department determines support provided as follows:

(1) No set-up or physical help provided by others;

(2) Set-up help only provided, which is the type of help characterized by providing you with articles, devices, or preparation necessary for greater independence in performance of the ADL. (For example, set-up help includes but is not limited to giving or holding out an item or cutting up prepared food);

(3) One-person physical assist provided;

(4) Two- or more person physical assist provided; or

(5) ADL did not occur during entire seven-day period.

"Task" means a component of an activity of daily living. Several tasks may be associated to a single activity of daily living.

"Turning and repositioning program" is a consistent and organized method in which your caregiver must position and realign your body to prevent or treat skin breakdown. This program is needed because you are physically unable to reposition yourself while sitting or lying down.

"You/your" means the client.

AMENDATORY SECTION (Amending WSR 21-04-037, filed 1/26/21, effective 3/1/21)

WAC 388-106-0130 How does the department determine the number of hours I may receive for in-home care? (1) The department assigns a base number of hours to each classification group as described in WAC 388-106-0125.

(2) The department will adjust base hours to account for informal supports and age appropriate functioning (as those terms are defined in WAC 388-106-0010), and other paid services that meet some of an individual's need for personal care services:

(a) The CARE tool determines the adjustment for informal supports and age appropriate functioning. A numeric value is assigned to the status and (~~/or~~) assistance available coding for ADLs and IADLs based on the table below. The base hours assigned to each classification group are adjusted by the numeric value in subsection (b) (~~below~~) of this section.

(b) To determine the amount adjusted for informal support or age appropriate functioning, the numeric values are totaled and divided by the number of qualifying ADLs and IADLs needs. The result is value A. Value A is then subtracted from one. This is value B. Value B is divided by three. This is value C. Value A and Value C are summed. This is value D. Value D is multiplied by the "base hours" assigned to your classification group and the result is the number of adjusted in-home hours. Values are rounded to the nearest hundredths ((e.g.)) for example, .862 is rounded to .86.

(3) Effective July 1, 2012, after adjustments are made to your base hours, as described in subsection (2) of this section, the department may add on hours based on off-site laundry, living more than ((~~forty-five~~)) 45 minutes from essential services, and wood supply, as follows:

Condition	Status	Assistance Available	Add On Hours
Offsite laundry facilities, which means the client does not have facilities in own home and the caregiver is not available to perform any other personal or household tasks while laundry is done. The status used for the rules to the right is for housekeeping.	Unmet	N/A	8
	Met	N/A	0

	Partially met	<1/4 time		8
		between 1/4 to 1/2 time		6
		between 1/2 to 3/4 time		4
		>3/4 time		2

(4) In the case of New Freedom consumer directed services (NFCDS), the department determines the monthly budget available as described in WAC 388-106-1445.

(5) The result of adjustments under subsections (2) and (3) of this section is the maximum number of hours that can be used to develop your plan of care. The department must take into account cost effectiveness, client health and safety, and program limits in determining how hours can be used to address your identified needs. In the case of New Freedom consumer directed services (NFCDS), a New Freedom spending plan (NFSP) is developed in place of a plan of care.

(6) If you are eligible, your hours may be used to authorize the following services:

- (a) Personal care services from a home care agency provider ~~((and/or))~~ an individual provider, or both.
- (b) Home delivered meals ~~((i.e.))~~ a half hour from the available hours for each meal authorized) per WAC 388-106-0805.
- ~~((c))~~ Adult day care (i.e. a half hour from the available hours for each hour of day care authorized) per WAC 388-106-0805.
- ~~((d))~~ A home health aide (i.e., one hour from the available hours for each hour of home health aide authorized) per WAC 388-106-0300.
- ~~((e))~~ (c) A private duty nurse (PDN) if you are eligible per WAC 388-106-1010 or 182-551-3000 ((i.e.)) one hour from the available hours for each hour of PDN authorized).
- ~~((f))~~ (d) The purchase of New Freedom consumer directed services (NFCDS).

(7) If you are a child applying for personal care services:

- (a) The department presumes that children have legally responsible parents or other responsible adults who provide informal support for the child's ADLs, IADLs, and other needs. The department will not provide services or supports that are within the range of activities that a legally responsible parent or other responsible adult would ordinarily perform on behalf of a child of the same age who does not have a disability or chronic illness.
- (b) The department will complete a CARE assessment and use the developmental milestones tables ~~((below))~~ in this section when assessing your ability to perform personal care tasks.
- (c) Your status will be coded as age appropriate for ADLs when your self-performance is at a level expected for persons in your assessed age range, as indicated by the developmental milestones table in subpart (e) of this section, unless the circumstances in subpart (d) ~~((below))~~ of this section apply.
- (d) The department will code status as other than age appropriate for an ADL, despite your self-performance falling within the developmental age range for the ADL on the developmental milestones table in subpart (e) ~~((below))~~ of this section, if the department determines

during your assessment that your level of functioning is related to your disability and not primarily due to your age and the frequency ((and/)) or the duration of assistance required for a personal care task is not typical for a person of your age.

(e)

	Total	Child under 37 months of age

(f) For IADLs, the department presumes that children typically have legally responsible parents or other responsible adults to assist with IADLs. Status will be coded as "child under (age)" the age indicated by the developmental milestones table for IADLs in subpart (h) of this section unless the circumstances in subpart (g) (~~(below)~~) of this section apply. (For example, a (~~(sixteen)~~) 16-year-old child coded as supervision in self-performance for (~~(telephone)~~) wood supply would be coded "child under (~~(eighteen)~~) 18.")

(g) If the department determines during your assessment that the frequency (~~(and/)~~) or the duration of assistance required is not typical for a person of your age due to your disability or your level of functioning, the department will code status as other than described in subpart (h) of this section for an IADL.

(h)

Developmental Milestones for Instrumental Activities of Daily Living		
IADL	Self-Performance	Developmental Age Range
((Finances Telephone)) Wood supply	Independent ((Supervision Limited Extensive)) Assistance ((Total)) Activity did not occur	Child under 18
Transportation	Independent ((Supervision Limited Extensive)) Assistance Activity did not occur	Child under 18
	Total	Child under 16
Essential shopping, housework, meal ((Prep)) preparation	Independent ((Supervision Limited Extensive)) Assistance Activity did not occur	Child under 18
	Total	Child under 12

(i) The department presumes that children have legally responsible parents or other responsible adults who provide support for comprehension, decision-making, memory, and continence issues. These items will be coded as indicated by the additional developmental milestones table in subpart (k) of this section unless the circumstances in subpart (j) (~~(below)~~) of this section apply.

(j) If the department determines during your assessment that due to your disability, the support you are provided for comprehension, decision making, memory, and continence issues is substantially greater than is typical for a person of your age, the department will code status as other than described in subpart (k) (~~(below)~~) of this section.

(8) If you are a child applying for personal care services and your status for ADLs and IADLs is not coded per the developmental age range indicated on the milestones tables under subsection (7) of this section, the department will assess for any informal supports available to assist you with each ADL and IADL. The department will presume that children have legally responsible parents or other responsible adults who provide informal support to them.

(a) The department will code status for an ADL or IADL as met if your assessment shows that your need for assistance with a personal care task is fully met by informal supports.

(b) Informal supports for school-age children include supports actually available through a school district, regardless of whether you take advantage of those available supports.

(c) When you are living with your legally responsible parent(s), the department will presume that you have informal supports available to assist you with your ADLs and IADLs over three-fourths but not all the time. Legally responsible parents include natural parents, step(-)parents, and adoptive parents. Generally, a legally responsible parent will not be considered unavailable to meet your personal care needs simply due to other obligations such as work or additional children because such obligations do not decrease the parent's legal responsibility to care for you regardless of your disabilities. However, the department will consider factors that cannot reasonably be avoided, and which prevent a legally responsible parent from providing for your personal care needs when determining the amount of informal support available to you. You may rebut the department's presumption by providing specific information during your assessment to indicate why you do not have informal supports available at least three-fourths of time to assist you with a particular ADL or IADL.
