

WSR 24-07-019

EMERGENCY RULES

DEPARTMENT OF HEALTH

(Washington Medical Commission)

[Filed March 8, 2024, 11:48 a.m., effective March 8, 2024, 11:48 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Removing postgraduate medical training barriers to physician licensing. The Washington medical commission (commission) is extending its emergency rule that amends WAC 246-919-330 to eliminate the outdated requirement for consecutive years of training in no more than two programs. This change will remove a barrier for qualified applicants to obtain a physician license.

Due to the practitioner shortage, multiple pathways to board certification eligibility have been opened by the University of Washington (UW), the Accreditation Council for Graduate Medical Education (ACGME), and the American Board of Medical Specialties (ABMS). Multiple ABMS boards have programs that specifically target international medical graduates and place them in four-year training programs, with only years one and three ACGME accredited. The outcome of these programs would be physicians who are ineligible for a license through the commission, despite four years of postgraduate training through the UW.

Separately and recently, applications have come through where the physician has six years of postgraduate training from their efforts to become dually licensed as a physician and a dentist. This clause has resulted in denial of those applications since parts of the training are accredited under ACGME and the rest under the Commission on Dental Accreditation (CODA), the dental profession equivalent of ACGME.

This rule continues the initial emergency rule filed on July 13, 2023, under WSR 23-15-056, and the second emergency rule filed on November 9, 2023, under WSR 23-23-071. The commission will continue this emergency rule until the post graduate medical training standards are adopted through the permanent rule-making process.

Citation of Rules Affected by this Order: Amending WAC 246-919-330.

Statutory Authority for Adoption: RCW 18.71.017 and 18.130.050.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The continuation of this emergency rule and the immediate amendment of WAC 246-919-330 is necessary for the preservation of public health, safety, and general welfare. Continued demand for health care professionals, especially qualified physicians, makes it essential that qualified applicants are able to obtain a license. This action will result in increasing the quantity of health care professionals able to respond to current and ongoing staffing demands. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to protecting immediate public interests. The commission has begun rule making under a CR-101 filed on August 23, 2023, under WSR 23-18-005, to consider permanently adopting these amendments.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0,

Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at the Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's own Initiative: New 0, Amended 1, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 1, Repealed 0.

Date Adopted: March 8, 2024.

Kyle Karinen
Executive Director
Washington Medical Commission

OTS-4663.1

AMENDATORY SECTION (Amending WSR 20-22-003, filed 10/21/20, effective 11/21/20)

WAC 246-919-330 Postgraduate medical training. (1) Postgraduate medical training means clinical training approved by the commission in general medicine or surgery, or a specialty or subspecialty in the field of medicine or surgery as recognized by the American Board of Medical Specialties listed in the 2017-2018 ABMS Board Certification Report and new specialties or subspecialties approved by the commission.

(2) The commission approves only the following postgraduate clinical training courses:

(a) Programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) at the time of residency.

(b) Programs accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC) or the College of Family Physicians of Canada (CFPC), or programs accredited by the RCPSC or CFPC at the time of residency.

(3) Postgraduate medical training includes, but is not limited to, internships, residencies and medical or surgical fellowships.

(4) A physician must complete two (~~consecutive~~) years of postgraduate medical training (~~in no more than two programs~~). The physician must acquire this training after completion of a formal course of undergraduate medical instruction outlined in RCW 18.71.055. The commission will accept only satisfactory clinical performance evaluations.
