Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: The proposed rule updates the publication date of federal rules adopted by reference under 40 C.F.R. Part 61 from 2023 to the most recently adopted 2024 version in WAC 246-247-035. The proposed amendment makes no changes to any requirements previously adopted, but it is a requirement that the department adopts the annual updated publication date into state rule to receive full delegation of the Radionuclide Air Emissions Program from EPA.

Reasons Supporting Proposal: The intent of RCW 70A.388.040 is to safely regulate the possession and use of radioactive material within the state of Washington. The intent of RCW 70A.388.050(5) is to reduce redundant licensing requirements. The rule meets the intent of the statutes by adopting requirements as stringent as the federal requirements in order for the department to have full delegation authority from EPA.

Statutory Authority for Adoption: RCW 70A.388.040 and 70A.388.050(5).

Statute Being Implemented: RCW 70A.388.040 and 70A.388.050(5).

Rule is not necessitated by federal law, federal or state court decision.

Name of Proponent: Department of health, governmental.

Name of Agency Personnel Responsible for Drafting: Nina Helpling, 111 Israel Road S.E., Tumwater, WA 98501, 360-236-3065; Implementation and Enforcement: Crystal Mathey, 309 Bradley Boulevard, Suite 201, Richland, WA 99352, 509-578-0843.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is not required under RCW 34.05.328. The department did not complete a cost-benefit analysis under RCW 34.05.328. RCW 34.05.328 (5)(b)(iii) exempts rules that adopt or in-

corporate by reference without material change federal statutes or regulations, Washington state law, the rules of other Washington state agencies, or national consensus codes that generally establish industry standards.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.061 because this rule making is being adopted solely to conform and/or comply with federal statute or regulations. Citation of the specific federal statute or regulation and description of the consequences to the state if the rule is not adopted: EPA publishes a new version of 40 C.F.R. Part 61 - National Emissions Standards for Hazardous Air Pollutants (NESHAP) each year regardless if changes were made to the regulations. This rule proposal is necessary to update the EPA referenced publication date of 40 C.F.R. Part 61 from 2023 to 2024 in WAC 246-247-035 to remain consistent between federal and state rules and as a primary condition for delegation of the NESHAP authority from EPA to the department. If Washington does not adopt the proposed changes, the department would not receive full delegation as required by EPA.

Is exempt under RCW 19.85.025(3) as the rules are adopting or incorporating by reference without material change federal statutes or regulations, Washington state statutes, rules of other Washington state agencies, shoreline master programs other than those programs governing shorelines of statewide significance, or, as referenced by Washington state law, national consensus codes that generally establish industry standards, if the material adopted or incorporated regulates the same subject matter and conduct as the adopting or incorporating rule.

Explanation of exemptions: The department is exempt from requirements of the Regulatory Fairness Act because the proposed rule only incorporates by reference the most recent version of the federal standards necessary for the department to maintain full delegation as required by EPA.

Scope of exemption for rule proposal:

Is fully exempt.
