EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 25-40—Filed March 12, 2025, 9:20 a.m., effective March 14, 2025]

Effective Date of Rule: March 14, 2025.

Purpose: This emergency rule closes sturgeon retention in the John Day Pool.

Citation of Rules Affected by this Order: Repealing WAC 220-312-06000F; and amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to close recreational sturgeon retention in the John Day reservoir. The projected total catch through March 13, 2025, is 95 fish as compared to the harvest guideline of 105 fish. Therefore, not enough fish remain under the guideline to allow for additional retention opportunity. This rule is necessary to remain within allowable harvest guidelines for non-treaty recreational fisheries for this reservoir. These populations are managed under sustainable harvest guidelines. This action is consistent with decisions made by the states of Washington and Oregon during the Columbia River compact hearing on March 11, 2025. There is insufficient time to adopt permanent rules.
