Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: WSDOT has determined that there are two additional types of work in which we would like to establish contractor experience to ensure that contractors have the necessary experience, organization, and technical qualifications to perform the proposed contract. The new classifications are high friction surface treatment and movable bridge construction.

Reasons Supporting Proposal: Establishing the new classifications to qualify contractors under will ensure that these types of contracts are performed by qualified vendors in the future.

Statutory Authority for Adoption: RCW 47.01.101, 47.28.030, and 47.28.070.

Rule is not necessitated by federal law, federal or state court decision.

Name of Proponent: WSDOT, governmental.

Name of Agency Personnel Responsible for Drafting, Implementation, and Enforcement: Jenna Kemp, Tumwater, Washington, 360-705-7017.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is not required under RCW 34.05.328. This is not required because WSDOT is not subject to RCW 34.05.328 (5)(a)(i) and has not made RCW 34.05.328 applicable to this rule.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(4).

Explanation of exemptions: WSDOT's prequalification process is no cost to vendors. This change simply adds new types of work and would

not change the process or effort required to become prequalified, which remains no cost and unchanged.

Scope of exemption for rule proposal:

Is fully exempt.
